ITExamDownload Offers Actual and Updated Nutanix NCP-CN Practice Questions

P.S. Free & New NCP-CN dumps are available on Google Drive shared by ITExamDownload: https://drive.google.com/open?id=1QEZiTnqGSCG5WFfEfjIWyV8JJe2TMEtP

Many people are afraid of walking out of their comfortable zones. So it is difficult for them to try new things. But you will never grow up if you reject new attempt. Now, our NCP-CN study materials can help you have a positive change. It is important for you to keep a positive mind. Our NCP-CN Study Materials can become your new attempt. It is not difficult for you. We have simplified all difficult knowledge. So you will enjoy learning our NCP-CN study materials. During your practice of our NCP-CN study materials, you will find that it is easy to make changes.

Nutanix NCP-CN Exam Syllabus Topics:

Topic	Details
Topic 1	• Perform Day 2 Operations: This part assesses the expertise of site reliability engineers and cluster operators in ongoing cluster management tasks after deployment. It includes configuring authentication and authorization mechanisms, setting up logging systems, and implementing cluster backup and recovery procedures. Candidates also need to demonstrate skills in monitoring cluster performance and health, configuring autoscaling to handle workload changes, and performing lifecycle management functions such as upgrades and maintenance.
Topic 2	• Conduct NKP Fleet Management: This section tests the abilities of platform administrators and cloud operations engineers in managing multiple clusters as a fleet. It focuses on configuring workspaces to organize clusters, deploying workload clusters within these workspaces, and attaching or detaching clusters as needed. Additionally, candidates must be able to configure projects for workload segmentation and manage platform applications that support the overall NKP environment.
Topic 3	• Manage Building an NKP Cluster: This section evaluates the skills of Kubernetes administrators and platform engineers in customizing and deploying NKP clusters. Candidates must show proficiency in tailoring cluster configurations to meet specific requirements and deploying Kommander, the management platform, while applying the appropriate licenses to enable cluster features and management capabilities.

Topic 4	• Prepare the Environment for an NKP Deployment: This section of the exam measures the skills of infrastructure engineers and cloud administrators and covers the initial setup tasks needed for NKP deployment. Candidates must demonstrate the ability to seed a private container registry, create a bootstrap Kubernetes cluster, and determine license tiers suitable for clusters. They also need to prepare a bastion host for secure access, build machine images or prepare nodes for deployment, and gather all necessary information to build a cluster on the target cloud or on-premises provider.

NCP-CN Real Exam Answers, VCE NCP-CN Dumps

Now you do not need to worry about the relevancy and top standard of ITExamDownload Nutanix Certified Professional - Cloud Native v6.10 in NCP-CN exam questions. These Nutanix NCP-CN dumps are designed and verified by qualified NCP-CN exam trainers. Now you can trust ITExamDownload NCP-CN Practice Questions and start preparation without wasting further time. With the ITExamDownload NCP-CN exam questions, you will get everything that you need to learn, prepare and pass the challenging NCP-CN exam with good scores.

Nutanix Certified Professional - Cloud Native v6.10 Sample Questions (Q21-Q26):

NEW QUESTION # 21
A company has different Kubernetes clusters for different business units. Every business unit has separate Kubernetes clusters for production and development because the software deployed in production is different than development. Now, all production clusters for all business units are standardized and all clusters for development are standardized as well.
The company recently acquired NKP Ultimate licenses for all Kubernetes clusters.
How can the company control the standard configuration for both environments in all clusters (production and development)?

- A. Configure a production workspace and a development workspace and attach each Kubernetes cluster to the corresponding workspace.
- B. Install Flux in every Kubernetes cluster and configure the appropriate kustomize.yaml in every Kubernetes cluster.
- C. Create new Kubernetes clusters for production and development with NKP for every business unit.
- D. Install Flux in every Kubernetes cluster with the appropriate kustomize.yaml, with nkp install flux --kustomize=kustomize.yaml --kubeconfig=<cluster>.conf

Answer: A

NEW QUESTION # 22
A Platform Engineer is deploying NKP into a highly secure vSphere environment. The NKP cluster will be air-gapped, and must also be FIPS compliant. The OS platform to be used for NKP cluster nodes is RHEL.
What must the engineer do to properly prep an OS image and have it be deployed as a FIPS compliant NKP cluster node?

- A. Verify the OS itself has been placed in fips mode.When performing the NKP image build operation, be sure to include the offline fips and fips overrides.When performing the NKP cluster deploy operation, be sure to include the FIPS version references for kubernetes and etcd.
- B. Verify the OS itself has been placed in fips mode.When performing the NKP image build operation, be sure to include the offline fips and fips overrides.When performing the NKP cluster deploy operation, be sure to include the FIPS version references for kubernetes, kubectl and etcd.
- C. Verify the OS itself has been placed in fips mode.When performing the NKP image build operation, be sure to include the offline fips override.When performing the NKP cluster deploy operation, be sure to include the FIPS version references for kubernetes and etcd.
- D. Verify the OS itself has been placed in fips mode.When performing the NKP cluster deploy operation, be sure to include the FIPS version references for kubernetes, kubectl and etcd.

Answer: A

NEW QUESTION # 23
A Platform Engineer wants to deploy a custom OS image for multiple NKP clusters for Nutanix AHV and AWS. Which two tools come bundled to facilitate creating and placing a custom image into the respective image repository?

- A. Konvoy Image Builder
- B. Terraform
- C. Nutanix Image Builder
- D. Ansible

Answer: A,C

NEW QUESTION # 24
Which two statements are true regarding deploying NKP on an Azure Kubernetes Service (AKS) Infrastructure? (Choose two.)

- A. AKS best practices encourage building customized images.
- B. AKS clusters can be deployed as Management or Pro NKP clusters.
- C. NKP Management cluster with the Kommander component must be installed before installing NKP on AKS cluster.
- D. Existing AKS clusters must be attached to the Management cluster.

Answer: C,D

NEW QUESTION # 25
A Platform Engineer would like to install some NKP applications, but with a few modifications to the default configuration specs of some of the components. Additionally, Velero itself can be disabled, as the company already utilizes a different backup utility for Kubernetes.
Which procedure would the engineer utilize to accomplish these goals when deploying the applications?

- A. Execute nkp install kommander --init to an output file.Disable Velero in the output file and set the custom specs for the components to be modified.Deploy the NKP applications using the nkp install kommander command, specifying the output file.
- B. Execute nkp config kommander.Disable Velero in the resulting output file and set the custom specs for the components to be modified.Deploy the NKP applications using the nkp install kommander command, specifying the output file.
- C. Execute nkp config kommander --init to an output file.Disable Velero in the output file and set the custom specs for the components to be modified.Deploy the applications using the helm install command, specifying the output file.
- D. Execute nkp install kommander --init to an output file.Set the custom specs for the components to be modified in the output file.Deploy the NKP applications using the nkp install kommander command, specifying the output file.Once the NKP applications install has completed, execute kubectl delete hr -n kommander velero.

Answer: A

NEW QUESTION # 26
.....

With the intense competition in labor market, it has become a trend that a lot of people, including many students, workers and so on, are trying their best to get a NCP-CN certification in a short time. The NCP-CN exam prep is produced by our expert, is very useful to help customers pass their exams and get the certificates in a short time. We are going to show our NCP-CN Guide braindumps to you. We can sure that our product will help you get the certificate easily. If you are wailing to believe us and try to learn our NCP-CN exam torrent, you will get an unexpected result.
