

Analytics-Admn-201 Vce Download & Analytics-Admn-201 Reliable Exam Guide

What's more, part of that PassLeader Analytics-Admn-201 dumps now are free: https://drive.google.com/open?id=19sa24oVxhAXg0M8sx6W2COwyfUT3dH_3

We boost the expert team to specialize in the research and production of the Analytics-Admn-201 guide questions and professional personnel to be responsible for the update of the study materials. We keep a close watch at the change of the popular trend among the industry and the latest social views so as to keep pace with the times and provide the clients with the newest Analytics-Admn-201 Study Materials resources. And clients are our gods and the clients' satisfaction with our Analytics-Admn-201 guide material is the biggest resource of our happiness. So why you still hesitated? Go and buy our Analytics-Admn-201 guide questions now.

Customers first are our mission, and we will try our best to help all of you to get your Analytics-Admn-201 certification. We offer you the best valid and latest Salesforce Analytics-Admn-201 study practice, thus you will save your time and study with clear direction. Besides, we provide you with best safety shopping experience. The Paypal system will guard your personal information and keep it secret. In addition, the high pass rate will ensure you pass your Analytics-Admn-201 Certification with high score.

Analytics-Admn-201 Reliable Exam Guide | Valid Analytics-Admn-201 Test Pdf

All Analytics-Admn-201 online tests begin somewhere, and that is what the Analytics-Admn-201 training course will do for you: create a foundation to build on. Study guides are essentially a detailed Analytics-Admn-201 tutorial and are great introductions to new Analytics-Admn-201 training courses as you advance. The content is always relevant, and compound again to make you pass your Analytics-Admn-201 Exams on the first attempt. You will frequently find these Analytics-Admn-201 PDF files downloadable and can then archive or print them for extra reading or studying on-the-go.

Salesforce Certified Tableau Server Administrator Sample Questions (Q47-Q52):

NEW QUESTION # 47

To which site role can you associate the Viewer user-based license level?

- A. Creator
- B. Explorer
- C. Explorer (can publish)
- **D. Viewer**

Answer: D

Explanation:

Tableau Server uses a role-based licensing model with three primary license levels: Creator, Explorer, and Viewer. Each license level corresponds to specific site roles that define what users can do on the server.

Viewer License: This is the most restrictive license, allowing users to view and interact with published content (e.g., dashboards and visualizations) but not to create or publish new content.

Site Role: The Viewer license can only be associated with the Viewer site role. This role restricts users to viewing capabilities, aligning with the license's purpose.

Option A (Creator): Incorrect. The Creator license is for users who can create, edit, and publish content using Tableau Desktop and the web interface. It corresponds to the Creator site role, not Viewer.

Option B (Explorer (can publish)): Incorrect. This is a variation of the Explorer license, which allows users to edit and publish content within limits. It's more permissive than Viewer.

Option C (Viewer): Correct. The Viewer site role matches the Viewer license level perfectly.

Option D (Explorer): Incorrect. The Explorer license allows users to explore data and create content in the web interface, exceeding the Viewer license's capabilities.

Reference: Tableau Server Documentation - "User Site Roles and Licenses" (https://help.tableau.com/current/server/en-us/license_usage.htm).

NEW QUESTION # 48

Which two commands are valid and complete commands? (Choose two.)

- A. tsm maintenance restore
- **B. tsm maintenance cleanup**
- C. tsm maintenance backup
- **D. tsm maintenance ziplogs**

Answer: B,D

Explanation:

TSM commands manage Tableau Server maintenance-let's validate their syntax:

* Command Requirements:

* Some need arguments (e.g., file paths); others are standalone.

* Valid and Complete: Must work as-is without errors.

* Option C (tsm maintenance backup): Correct.

* Details: Removes temporary files and old logs-no arguments required (optional flags like -l exist).

* Use: tsm maintenance cleanup-runs fully.

* Option D (tsm maintenance ziplogs): Correct.

* Details: Creates a zip of logs (e.g., tsm-logs.zip)-no arguments needed (optional -d for date range).

* Use: tsm maintenance ziplogs-complete and valid.

* Option A (tsm maintenance backup): Incorrect.

* Why: Requires -f<filename>.tsbak (e.g., tsm maintenance backup -fbackup.tsbak)-incomplete without it.

* Option B (tsm maintenance restore): Incorrect.

* Why: Needs -f<filename>.tsbak (e.g., tsm maintenance restore -fbackup.tsbak)-not standalone.

Why This Matters: Correct syntax ensures maintenance tasks execute without errors-critical for server health.

Reference: Tableau Server Documentation - "TSM Maintenance Commands" (https://help.tableau.com/current/server/en-us/cli_maintenance_tsm.htm).

NEW QUESTION # 49

Which two settings should you configure to allow users to post comments on a visualization? (Choose two.)

- A. Comments must be enabled on the site Settings page
- B. Comments must be enabled on the server Settings page
- C. The relevant users must have a minimum site role of Explorer (can publish)
- D. Add Comments must be allowed in permissions for the relevant users

Answer: A,D

Explanation:

Comments on visualizations foster collaboration in Tableau Server-let's break down the requirements:

* Commenting Prerequisites:

* Site-Level Enablement: Comments must be activated for the site.

* Permission: Users need the "Add Comment" capability on the content.

* Site Role: Minimum role of Viewer allows commenting if permissions are set.

* Option B (Add Comments must be allowed in permissions): Correct.

* Details: In the Permissions dialog (e.g., for a workbook), set "Add Comment" to "Allowed" for users/groups. Default is "Denied" unless explicitly enabled.

* How: Content > Workbooks > Actions > Permissions > Edit Rule.

* Why: Permissions are granular-site enablement alone isn't enough.

* Option D (Comments must be enabled on the site Settings page): Correct.

* Details: Go to Site > Settings > General > Allow Comments-check the box.

* Why: This is a site-wide toggle (default: off). Without it, no one can comment, regardless of permissions.

* Option A (Minimum site role of Explorer - can publish): Incorrect.

* Why: Viewer role suffices if permissions allow-Explorer (can publish) isn't required (it adds publishing, not commenting).

* Option C (Server Settings page): Incorrect.

* Why: Comments are a site-level feature, not server-wide-no such toggle exists in TSM's Server Settings.

Why This Matters: Enabling comments at both site and content levels ensures controlled collaboration-key for team insights.

Reference: Tableau Server Documentation - "Enable Comments" (<https://help.tableau.com/current/server/en-us/comment.htm#enable>).

NEW QUESTION # 50

What command should you run to update the automatically-generated secrets that are created during a Tableau Server installation?

- A. tsm licenses refresh
- B. tsm security regenerate-internal-tokens
- C. tsm data-access caching set -r 1
- D. tsm security validate-asset-keys

Answer: B

Explanation:

Tableau Server uses internal secrets (tokens) for secure communication between its processes (e.g., Repository, File Store). These are automatically generated during installation and can be regenerated if compromised or for security maintenance. The command to update these is:

* tsm security regenerate-internal-tokens: This regenerates the internal security tokens, ensuring all processes use the new tokens after a restart.

* Option C (tsm security regenerate-internal-tokens): Correct. This is the documented command for updating internal secrets.

* Option A (tsm data-access caching set -r 1): Incorrect. This command configures caching behavior, not security tokens.

* Option B (tsm licenses refresh): Incorrect. This refreshes license data, unrelated to internal secrets.

* Option D (tsm security validate-asset-keys): Incorrect. This validates encryption keys for assets, not internal tokens.

Reference: Tableau Server Documentation - "Regenerate Internal Tokens" (https://help.tableau.com/current/server/en-us/cli_security.htm#regenerate-internal-tokens).

NEW QUESTION # 51

What is the minimum hardware recommendation for a single-node production installation of Tableau Server?

- A. 4-Core CPU (2.0 GHz or higher), 64 GB RAM, 50 GB free disk space
- B. 4-Core CPU (2.0 GHz or higher), 16 GB RAM, 50 GB free disk space
- C. 2-Core CPU (1.8 GHz or higher), 8 GB RAM, 15 GB free disk space
- D. 8-Core CPU (2.0 GHz or higher), 32 GB RAM, 50 GB free disk space

Answer: D

Explanation:

Tableau Server's minimum hardware recommendations for a production single-node deployment ensure reliable performance for small to medium workloads. As of the latest documentation:

- * CPU: 8 cores (2.0 GHz or higher) to handle concurrent users, rendering, and background tasks.
- * RAM: 32 GB to support in-memory processing (e.g., VizQL, Data Engine) and caching.
- * Disk Space: 50 GB free for installation, logs, extracts, and temporary files.

Let's break it down:

- * Option C (8-Core CPU, 32 GB RAM, 50 GB free disk space): Correct. This matches Tableau's official minimum for production: 8 cores ensure sufficient parallelism for processes like Backgrounder and VizQL.
- * 32 GB RAM supports multiple users and extract refreshes.
- * 50 GB disk space accommodates growth (initial install is ~1-2 GB, but logs and extracts expand).
- * Option A (4-Core, 16 GB RAM, 50 GB): Incorrect. Too low for production-4 cores and 16 GB RAM are below the threshold for reliable performance under load.
- * Option B (2-Core, 8 GB RAM, 15 GB): Incorrect. This is for non-production (e.g., trial) setups, insufficient for production stability.
- * Option D (4-Core, 64 GB RAM, 50 GB): Incorrect. 4 cores are inadequate, though 64 GB RAM exceeds the minimum (32 GB).

Why This Matters: Under-spec hardware can lead to slow performance, failed refreshes, or crashes in production-adhering to the minimum ensures stability.

Reference: Tableau Server Documentation - "Minimum Hardware Recommendations" (<https://help.tableau.com/current/server/en-us/requirements.htm>).

NEW QUESTION # 52

.....

Our aim is to provide customers with actual Salesforce Analytics-Admn-201 questions so they pass their Salesforce Certified Tableau Server Administrator (Analytics-Admn-201) exams with confidence. We offer a free demos and up to 365 days of free Salesforce Dumps updates. One of the key elements of our approach is following the current exam content. Our Analytics-Admn-201 product is designed by experienced industry professionals and is regularly updated to reflect the latest changes in the Analytics-Admn-201 test content.

Analytics-Admn-201 Reliable Exam Guide: <https://www.passleader.top/Salesforce/Analytics-Admn-201-exam-braindumps.html>

If you should become one of the beneficiaries of our IT Analytics-Admn-201 practice test in the near future, we would look forward to your favorable comments to us, and please feel free to recommend our products to your friends and colleagues, Salesforce Analytics-Admn-201 Vce Download And you don't need to spend lots of time on learning the relevant professional knowledge, Salesforce Analytics-Admn-201 Vce Download Candidates will not worry about this.

The difference is that APP online test engine is more stable, and supports Analytics-Admn-201 Reliable Braindumps Free Windows/Mac/Android/iOS ect., because it is the software based on WEB browser, Some companies got quite interested and they worked extremely well.

Latest Salesforce Analytics-Admn-201 Vce Download | Try Free Demo before Purchase

If you should become one of the beneficiaries of our IT Analytics-Admn-201 Practice Test in the near future, we would look forward to your favorable comments to us, and please feel free to recommend our products to your friends and colleagues.

And you don't need to spend lots of time on learning the relevant professional knowledge, Candidates will not worry about this, Third, our Analytics-Admn-201 study guide is highly efficient that you have great possibility Analytics-Admn-201 pass the exam within a week based on regular practice attached with the newest information.

You only need to consider which version of the Analytics-Admn-201 study questions is more suitable for you, and then buy it.
