The actions listed are: 'On the Purchase order form, purchase order lines fast tab, configure the overdelivery field.', 'On the Purchase order form, purchase order lines fast tab, configure the underdelivery field.', 'On the Sales order form, sales order line fast tab, configure the overdelivery field.', 'On the Sales order form, sales order line fast tab, configure the underdelivery field.', 'Register the product and post the receipt list.', 'Register the product on a purchase order line and post a receipt.', 'Receive a product on a transfer order.', and 'Register the product on an Arrival journal and post a journal.'

NEW QUESTION # 378

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen. A company is implementing inventory management in Dynamics 365 for Finance and Operations.

The company needs to block inventory and ensure that physical inventory will not be reserved by other outbound transactions.

You need to select the appropriate option to block the inventory in the system.

Solution: Create a quality order on the quality orders page for the quantity to be blocked.

Does the solution meet the goal?

- A. No
- B. Yes

Answer: A

NEW QUESTION # 379

You need to configure automated testing for the following tasks:

- * inbound processes from manufacturing
- * outbound processed from the warehouse picking process

How many processes should you configure?

- A. 0
- B. 1
- C. 2
- D. 3

Answer: D

Explanation:

One process the inbound processes from manufacturing.

Two outbound processed, one for nutritional supplements and one energy drinks.

Note: Creation of any quality processes for products inbound to the warehouse, from the production line, or outbound from the warehouse to consumers should be automatically created to facilitate execution.

* Testing requirements:

* Requirement 1: 100 percent of all nutritional supplements and 50 percent of all energy drinks must be tested when production orders are completed. After a product is in testing, 100 percent of all tests must be completed.

* Requirement 2: 75 percent of all nutritional supplements and energy drinks should be tested against their required tests during an outbound process.

This is a case study. Case studies are not timed separately. You can use as much exam time as you would like to complete each case. However, there may be additional case studies and sections on this exam. You must manage your time to ensure that you are able to complete all questions included on this exam in the time provided.

To answer the questions included in a case study, you will need to reference information that is provided in the case study. Case studies might contain exhibits and other resources that provide more information about the scenario that is described in the case study. Each question is independent of the other questions in this case study.

At the end of this case study, a review screen will appear. This screen allows you to review your answers and to make changes before you move to the next section of the exam. After you begin a new section, you cannot return to this section.

NEW QUESTION # 380
