PRINCE2 Practitioner Exam Sample Questions (Q221-Q226):

NEW QUESTION # 221

A change authority has been appointed for the project. During the development of the 'classroom-based training material', a large number of changes were proposed to the design of the 'e-learning course'. Therefore, the change authority has decided to use the Moscow technique to prioritize changes based on the impact they will have on completing each stage on time.

Is this an appropriate application of the Moscow technique, and why?

- A. Yes, because it should be used to prioritize change based on the estimated impact on time.
- B. No, because it should define scope tolerances, supporting the management by exception principle.
- C. No, because it should be used to prioritize change based on the project's business justification.
- D. Yes, because it is a prioritization technique that should be used to prioritize a product's quality criteria.

Answer: A

NEW QUESTION # 222

Using the Project Scenario and the Extract from Stage Plan for stage 3 provided as additional intonation for this question in the Scenario Booklet, answer the following 5 questions.

The Stage Plan for stage 3 has been produced.

The Engineering Manager insists that there are to be no interruptions to operations whilst photographs are being taken of the engineering staff performing their everyday duties and operating machinery. Two weeks ago the professional photographer produced the photo session schedule based on the operational staff schedule. The operational staff schedule is produced weekly and maintained by the Engineering Manager.

None of the £500 change budget has been used to date and this is available for the stage.

Which 2 statements apply to the External dependencies section?

- A. Delete entry 5 because the new company logo is being delivered by a separate project and will be detailed in the plans for that project.
- B. Move entry 5 to Plan description because the new company logo will be delivered during stage 3.
- C. Delete entry 6 because the customer details were used in stage 2 to create the customer list.
- D. Move entry 5 to Plan prerequisites because the new company logo will influence the label designs.
- E. Delete entry 7 because it should be shown in the Product Description for the label design.

Answer: C,E

NEW QUESTION # 223

Project Scenario - Health and Safety Training Project:

ABC Company is a well-established training company that uses a standard model to develop training materials and deliver courses to customers.

ABC Company has commissioned a project in response to recent changes in government legislation relating to health and safety on construction sites. The project will deliver "capability to provide health and safety training", including the materials needed for classroom-based training and e-learning. The expected benefits for construction companies include a reduction in lost days and legal costs due to accidents.

The e-learning course will be developed by a specialist external consultancy. The materials for classroom-based training will be delivered by ABC Company's development team. All course materials will be piloted before they are used. ABC Company will deliver training to its customers and also hopes to sell the course materials to other training companies as part of their operational business. ABC Company will use their own sales and marketing departments to promote the courses.

The legislation requires construction companies to comply with the new legislation within two years. The course materials and trainers have to be accredited by a government agency before courses can be delivered.

ABC Company is planning to deliver pilot courses within five months of starting the project.

The ABC Company standard development model for new courses recommends the following stages:

□ End of the Project scenario.

Additional Information:

The Chief Executive Officer (CEO) founded the company five years ago. Under her leadership, ABC Company has grown quickly into a successful training company. It delivers a range of accredited professional training.

The Finance Director is also a founder member of ABC Company and is responsible for authorizing budgets for the Operations and Development Teams. She authorizes all large contracts personally.

The Purchasing Manager reports to the Finance Director and is responsible for managing and monitoring supplier contracts.

The Operations Director is responsible for the delivery of all training and for the training development budget. His department organizes courses, venues and trainers. They work with the Product and the Sales teams to provide a comprehensive training schedule. ABC Company's IT manager reports to the Operations Director.

The Business Development Director has recently been appointed to identify new training needs and propose new products. She will work with the Operations Director to ensure a cost-conscious approach and that appropriate development technologies are used

for the health and safety course.

The Training Development Manager reports to the Business Development Director and is responsible for developing training materials and gaining accreditation, in accordance with the standard course development model. Course developers in his team have skills in a range of development technologies and are allocated to projects as needed.

The Training Delivery Manager, who reports to the Operations Director, is responsible for ensuring that internal and external trainers deliver ABC Company training courses to the required standard. He also checks course materials to ensure they are fit for purpose and of the required quality.

The Central Services Director has responsibility for corporate communications, facilities management and configuration management. He recently led a project to consolidate all company quality systems into one quality management system and set up a corporate quality department, now managed by the Corporate Quality Manager.

The Corporate Document Manager reports to the Central Services Director. She helped establish the company's document management system and now operates it across the business. She manages a team of administrators and contracts staff when workload is high.

The Sales Director joined ABC Company two months ago and is keen to establish himself by suggesting new markets for the courses and material. All account managers and the marketing team report to him. They promote existing training courses to other training companies and existing customers.

End of the additional information.

The Health and Safety Training Project is closing as planned. According to the contract terms, suppliers must submit all invoices within one week of project closure. The project manager will issue a project closure notification informing all suppliers of this invoicing deadline as part of the 'recommended project closure' activity.

Is this appropriate, and why?

- A. Yes, because a project closure notification should be sent to suppliers as part of the 'closing project' process.
- B. No, because the project manager should notify stakeholders using the approved project closure notification.
- C. Yes, because the project board should approve the project closure notification drafted by the project manager.
- D. No, because the project board should issue a project closure notification as part of the 'directing a project' process.

Answer: A
