After successfully competition of ISO-14001-Lead-Auditor exam you can gain several personal and professional benefits. All these PECB Certified EMS ISO 14001 Lead Auditor Exam (ISO-14001-Lead-Auditor) certification exam benefits will not only prove your skills but also assist you to put your career on the right track and achieve your career objectives in a short time period.

PECB Certified EMS ISO 14001 Lead Auditor Exam Sample Questions (Q18-Q23):

NEW QUESTION # 18

A multi-level shopping centre is open every day to the public from 09:00-21:00 hours. During an external audit of the centre to ISO 14001, you establish that there are 40 vending machines that are permanently switched on. Thirty of them do not sell perishable foodstuffs. You also note that there are eight escalators in the complex that run constantly during public access. When asked about environmental performance improvement objectives, the Centre Manager says that there are plans to increase the natural daylight by installing more skylights thus saving on lighting costs, but the estimated budget for this has not yet been approved by the board.

You: I note that energy consumption is a significant environmental aspect in the centre. How do you mitigate the impacts of this?

EMS Manager: We try to reduce our energy costs by negotiating a better deal from the energy company. We are considering changing to one that only supplies electricity from renewable sources.

You: What steps have you taken to reduce overall consumption?

EMS Manager: We conducted awareness training for staff. For example, turning off lights in staff areas not being used.

You: I see that the escalators account for the highest usage of energy. Are there any objectives to try and reduce this?

EMS Manager: No, it would be too costly to change them.

You: How do you measure electricity consumption?

EMS Manager: We have meters installed in each floor of the centre. We take readings every hour and we plot the consumption graph for every staff shift.

You continue the interview and find that energy consumption has increased steadily over the past five years.

Select the two statements that are true.

- A. The Centre Manager is trained in energy awareness.
- B. The escalators are switched on permanently.
- C. The vending machines are switched on permanently.
- D. The centre staff are responsible for energy consumption in the staff areas.
- E. The organisation's energy supplier sources renewable energy.
- F. The organisation should take action to address its energy consumption.

Answer: C,F

NEW QUESTION # 19

A group of 22 Italian restaurants in downtown San Francisco (US) established an EMS following the requirements of ISO 14001. You are performing an internal audit before the fourth certification cycle. The audit plan included an audit of the General Manager (GM) as the last interview before the closing meeting.

During the interview with the GM, you audit clause 10.3 (Continual improvement). The dialogue is as follows.

You: Could you please tell me how did you improve the EMS to enhance environmental performance (Clause 10.3)?

GM: One way to improve the EMS is to improve one or several of its processes. We decided to improve the water-consuming processes in all our branches. We use water in many of our processes (e.g. to wash our kitchens, our cutlery, plates, and glasses, to

keep our floors clean). The idea was to review these processes in detail to reduce the amount of water used per customer. Each of the 22 branches sent us their results, we analysed the data and found out that the average water consumption per customer was reduced by 13%; therefore, we improved our environmental performance. We are happy about that.

You: What about the results in each branch?

GM: Have a look at this table:

	Branches that:	Number of branches
A	Reduced the level of water consumption by more than 13%	13
B	Reduced the water consumption by less than 13%	5
C	Maintained the level water consumption	3
D	Increased the water consumption	3

Analysing this table, what would be your decision related to raising nonconformities to clause 10.3? Select two.

- A. I would not raise any nonconformity
- B. I would raise a nonconformity for branches in D
- C. I would raise a nonconformity for the whole group
- D. I would raise an opportunity for improvement for branches in B, C, and D
- E. I would raise a nonconformity for branches in B
- F. I would raise a nonconformity for branches in C and D

Answer: B,D

NEW QUESTION # 20

Which two of the following phrases would apply to "audit criteria"?

- A. Management policy
- B. Audit conclusions
- C. Nonconformity report
- D. Auditor competence
- E. ISO 14001 requirements
- F. Financial objectives

Answer: A,E

Explanation:

According to ISO 19011:2018 Clause 3.3 (Terms and definitions):

Audit criteria are defined as:

"Set of policies, procedures or requirements used as a reference against which objective evidence is compared." ISO 14001 requirements (F) and the organization's own management policy (A) are valid audit criteria.

Nonconformity report (C) and audit conclusions (D) are audit outputs, not criteria.

Financial objectives (B) and auditor competence (E) are not used as audit criteria.

Reference: ISO 19011:2018 Clause 3.3; ISO 14001:2015 Clause 5.2.

NEW QUESTION # 21

Which one of the following conclusions in the audit report is not required by the certification body when deciding to grant certification?

- A. The organisation fully complies with all legal and other requirements applicable to the Environmental Management System.
- B. The corrections taken by the organisation related to major nonconformities have been accepted.
- C. The plans to address corrective actions related to minor nonconformities have been accepted.
- D. The scope of certification has been fulfilled.

Answer: A

Explanation:

According to ISO/IEC 17021-1:2015 Clause 9.4.5 and 9.5.1:

Certification decisions are based on:

The audit conclusions,

Acceptance of corrective action plans for minor nonconformities (A),

Acceptance of corrections for major nonconformities (C),

Confirmation that the scope is fulfilled (B).

Full legal compliance (D) is not a requirement for certification decisions rather, it is the effectiveness of the management system to meet compliance obligations that is assessed.

Reference: ISO/IEC 17021-1:2015 Clause 9.4.5 and 9.5.1; ISO 14001:2015 Clause 9.1.2.

NEW QUESTION # 22

You are auditing the ISO 14001 management system of a primary school (School 21st Century) located in downtown Lima, Peru. There are 400 students, attending classes from 9 am until 5.30 pm.

You have presented a nonconformity at the closing meeting:

Non-conformity - No environmental aspect has been identified related to the impact of the education provided by the school on students' awareness (as future adults) related to generic environmental issues.

Select the three best acceptable corrections that the school may take.

- A. Add the education on generic environmental issues to the list of environmental aspects of the school's EMS
- B. Thoroughly review the syllabus for next year to include environmental issues whenever appropriate
- C. Hire an environmentalist next month to deliver a couple of lectures on the environment to all employees of the school, except students
- D. Establish environmental objectives for the school
- E. Revise the school's environmental policy to include environmental concerns
- F. Review the procedure for waste management in the school
- G. Hire an environment expert next week to deliver a lecture on the environment to all students
- H. Ask the National Environmental Agency for reading materials to give to students before the lecture by the expert

Answer: A,B,G

NEW QUESTION # 23

.....
