最新的 Salesforce Marketers MC-202 免費考試真題 (Q110-Q115):

問題 #110

The website team at North Trail Outfitter has noticed performance issues on the site when the marketing team sends promotional emails.

What should the marketer do to prevent this problem?

- A. Configure Send Throttling.
- B. Use Delayed Delivery
- C. Segment email sends by domain.

答案：A

解題說明：

Send Throttling allows marketers to control the rate at which emails are sent, thereby preventing performance issues on the website caused by sudden spikes in traffic. By configuring send throttling, Northern Trail Outfitters can spread out the email send over a period of time, reducing the load on their website. For detailed information, refer to the Send Throttling documentation.

問題 #111

Northern Trail Outfitters (NTO) wants to add automation to its email marketing. Which automation should NTO create as a good first step?

- A. An automation that contains several recurring emails and decisioning points
- **B. An automation that Imports subscriber data regularly and updates key data extensions**
- C. An automation that deletes old data extensions, emails, and reports

答案： B

解題說明：

As a good first step in adding automation to its email marketing, Northern Trail Outfitters should create an automation that imports subscriber data regularly and updates key data extensions. This ensures that the data is always up-to-date and accurate, forming the foundation for all subsequent automated campaigns and decisioning processes.

問題 #112

A marketing specialist at Northern Trail Outfitters wants to automate sending the weekly newsletter to subscribers. The audience is located in one data extension, but they also want to send to a partner seed list. Which tool method should the specialist use?

- A. Multi-Step Journey
- **B. Automation Studio Email Activity**
- C. User Initiated Send

答案： B

解題說明：

Automation Studio in Salesforce Marketing Cloud allows users to automate various marketing tasks, including sending emails. By configuring an Email Activity within Automation Studio, a marketing specialist can schedule and automate the sending of a weekly newsletter to subscribers. The tool supports including additional audiences, such as a partner seed list, by specifying multiple data extensions within the same activity. Reference: Salesforce Marketing Cloud Documentation

問題 #113

Northern Trail Outfitters (NTO) wants to implement a single-audience drip campaign and then, over time, create new version with tests of random audience splits with different messages. Which tool should NTO use to accomplish these iterative tests?

- **A. Journey Builder**
- B. Automation Studio
- C. Contact Builder

答案： A

解題說明：

Journey Builder is the appropriate tool for implementing single-audience drip campaigns and conducting iterative tests with random audience splits. It allows marketers to design and automate customer journeys, incorporating different messages and testing variations to optimize performance over time.

問題 #114

A marketer is asked to create a sendable data extension from various tables including orders, subscribers, and product line items. The resulting data extension will be used as an entry source for a journey. Which tool should help create this table?

- **A. Data Designer**
- B. Automation Studio
- C. Audience Studio

答案：A

解題說明：

To create a sendable data extension from various tables including orders, subscribers, and product line items, the marketer should use Data Designer. Data Designer allows users to define and related data within Marketing Cloud, facilitating the creation of complex data relationships and data extensions used in journeys and campaigns.
