Our DEP-2025 Test Prep is compiled elaborately and will help the client a lot. To get a better and full understanding

of our DEP-2025 quiz torrent, please read the introduction of the features and the advantages of our product as follow.

Apple Deployment and Management Exam Sample Questions (Q131-Q136):

NEW QUESTION # 131

What is required to enroll a device using account-driven User Enrollment?

- **A. A Managed Apple Account**
- B. An enrollment certificate assigned to the account
- C. An enrollment profile from a customized URL, mail message, or other means
- D. A personal Apple Account with a signed enrollment profile

Answer: A

Explanation:

Account-driven User Enrollment requires a Managed Apple Account to initiate the process, enabling separation of personal and organizational data on personally owned devices. The iOS Deployment Reference states, "Account-driven User Enrollment requires the user to sign in with a Managed Apple ID on the device, which triggers the enrollment process and establishes a managed container for organizational data." Option B is incorrect as a personal Apple Account isn't used for this enrollment type, C relates to manual enrollment methods, and D is not a standard requirement for this process.

Reference:

iOS Deployment Reference, "Account-driven User Enrollment" section.

Apple Platform Deployment Guide, "User Enrollment" section.

NEW QUESTION # 132

What is required for your organization to distribute Custom Apps in Apple Business Manager?

- **A. The app developer assigns the app to the organization.**
- B. The app developer asks AppleCare to assign the app.
- C. The app must be signed by a valid organization certificate.
- D. The app developer submits the app to AppleCare for review.

Answer: A

Explanation:

Developer assignment is required. The Apple Business Manager User Guide states, "To distribute Custom Apps, the app developer must assign the app to your organization's Apple Business Manager ID." References:

Apple Business Manager User Guide, "Custom Apps" section.

Apple Platform Deployment Guide, "App Distribution" section.

NEW QUESTION # 133

Which type of app can be distributed through Apple Business Manager?

- A. Custom apps
- B. Purchased apps
- C. Free apps
- **D. All of the above**

Answer: D

Explanation:

Apple Business Manager (ABM) supports the distribution of multiple app types via Managed Distribution: custom apps (developed in-house), free apps (from the App Store), and purchased apps (bought through ABM's Apps and Books section). This flexibility allows organizations to manage all app needs within ABM, assigning them to users or devices via MDM. Options A, B, and C are all correct individually, but D encompasses them all, aligning with ABM's comprehensive capabilities as outlined in the Apple Business Manager User Guide.

NEW QUESTION # 134

What is required for your organization to distribute Custom Apps in Apple Business Manager?

- **A. The app developer assigns the app to the organization.**
- B. The app developer asks AppleCare to assign the app.
- C. The app must be signed by a valid organization certificate.
- D. The app developer submits the app to AppleCare for review.

Answer: A

Explanation:

Developer assignment is required. The Apple Business Manager User Guide states, "To distribute Custom Apps, the app developer must assign the app to your organization's Apple Business Manager ID." Reference:

Apple Business Manager User Guide, "Custom Apps" section.

Apple Platform Deployment Guide, "App Distribution" section.

NEW QUESTION # 135

What's the benefit of using Lost Mode?

- A. Improves network performance
- **B. Allows device tracking**
- C. Enables additional restrictions
- D. Separates personal and managed data

Answer: B

Explanation:

Lost Mode, an MDM feature for supervised devices, allows device tracking by locking the device, displaying a custom message, and reporting its location (if Location Services are enabled). It's a security tool for recovering lost or stolen devices. Additional restrictions (option B) are a supervision feature, not Lost Mode's benefit. Network performance (option C) and data separation (option D) are unrelated. The MDM Protocol Reference highlights tracking as Lost Mode's primary benefit.

NEW QUESTION # 136

.....

Learning is like rowing upstream; not to advance is to fall back. People are a progressive social group. If you don't progress and surpass yourself, you will lose many opportunities to realize your life value. Our DEP-2025 study materials goal is to help users to challenge the impossible, to break the bottleneck of their own.
