## Braindump EC-COUNCIL 712-50 Free | 712-50 Valid Test Syllabus

You must want to know your scores after finishing exercising our 712-50 study materials, which help you judge your revision. Now, our windows software and online test engine of the 712-50 study materials can meet your requirements. You can choose from two modules: virtual exam and practice exam. Then you are required to answer every question of the 712-50 Study Materials. In order to make sure you have answered all questions, we have answer list to help you check.

## EC-COUNCIL EC-Council Certified CISO (CCISO) Sample Questions (Q103-Q108):

NEW QUESTION # 103

Information security policies should be reviewed:

- A. by internal audit semiannually
- **B. by stakeholders at least annually**
- C. by the CISO when new systems are brought online
- D. by the Incident Response team after an audit

**Answer: B**

#### **NEW QUESTION # 104**

Which of the following standards would be used for creating a Business Continuity Plan?

- A. International Organization for Standardization (ISO) 27001
- B. International Organization for Standardization (ISO) 27005
- C. International Organization for Standardization (ISO) 24113
- **D. International Organization for Standardization (ISO) 22301**

**Answer: D**

Explanation:

Comprehensive and Detailed Explanation (250-350 words) From Exact Extract from Chief Information Security Officer (CCISO) Documents:

According to EC-Council CCISO official documentation, the primary international standard used for creating and managing a Business Continuity Plan (BCP) is ISO 22301. This standard is formally titled "Security and Resilience - Business Continuity Management Systems (BCMS) - Requirements." CCISO training materials explicitly reference ISO 22301 as the authoritative framework for business continuity planning, implementation, monitoring, and continuous improvement.

ISO 22301 provides a structured, management-system-based approach to ensuring that organizations can continue operating during and after disruptive incidents. CCISO guidance highlights that ISO 22301 covers essential BCP components such as governance, leadership commitment, Business Impact Analysis (BIA), risk assessment, continuity strategies, incident response, recovery planning, testing, and continuous improvement.

Other options listed are not correct for BCP creation. ISO 27001 focuses on Information Security Management Systems (ISMS) and is primarily concerned with confidentiality, integrity, and availability of information assets-not full business continuity. ISO 27005 provides guidance on information security risk management, which supports ISO 27001 but does not define business continuity requirements. ISO 24113 is unrelated to cybersecurity or continuity planning and is not referenced in CCISO materials.

The CCISO Body of Knowledge emphasizes that senior security leaders must align BCP initiatives with globally recognized standards to demonstrate governance maturity, regulatory compliance, and resilience. ISO

22301 is also commonly referenced in regulatory, contractual, and audit contexts, making it essential knowledge for CISOs.

In conclusion, EC-Council CCISO documentation confirms that ISO 22301 is the correct and internationally accepted standard for creating and managing a Business Continuity Plan.

#### **NEW QUESTION # 105**

Providing oversight of a comprehensive information security program for the entire organization is the primary responsibility of which group under the InfoSec governance framework?

- A. All employees and users
- B. Office of the Auditor
- **C. Senior Executives**
- D. Office of the General Counsel

**Answer: C**

Explanation:

Primary Responsibility of Senior Executives:

\* Under the InfoSec governance framework, senior executives are tasked with providing oversight of the organization's comprehensive information security program. They ensure alignment with business goals and risk management strategies.

Role in Governance:

\* Senior executives set the tone at the top, allocate resources, and oversee the implementation of security policies and frameworks.

Supporting Reference:

\* CCISO materials identify senior executives as key stakeholders in InfoSec governance, responsible for strategic oversight.

### NEW QUESTION # 106

What are the three PRIMARY constraints of project management?

- A. Scope, time, and cost
- B. Quality, deliverables, and cost
- C. Time, quantity, and technology
- D. Cost, quality, and people

**Answer: A**

Explanation:

Comprehensive and Detailed Explanation (250-350 words)

According to EC-Council CCISO documentation and standard project management principles referenced in the CCISO program, the three primary constraints-often called the project management triangle-are scope, time, and cost.

These constraints are interdependent: changes to one typically impact the others. CCISO materials emphasize that CISOs must understand these constraints to effectively manage security initiatives, communicate trade-offs to executives, and avoid project failure.

Quality and deliverables are outcomes influenced by the three primary constraints, not constraints themselves.

Therefore, Option A is correct.

### NEW QUESTION # 107

The establishment of a formal risk management framework and system authorization program is essential. The LAST step of the system authorization process is:

- A. Getting authority to operate the system from executive management
- B. Contacting the Internet Service Provider for an IP scope
- C. Changing the default passwords
- D. Conducting a final scan of the live system and mitigating all high and medium level vulnerabilities

**Answer: A**

### NEW QUESTION # 108

.....

We understand your enthusiasm of effective practice materials, because they are the most hopeful tools help us gain more knowledge with the least time to achieve success, and we have been in your shoes. Our 712-50 exam questions can help you achieve that dreams easily. Whatever you want to master about this exam, our experts have compiled into them for your reference. A growing number of exam candidates are choosing our 712-50 Exam Questions, why are you still hesitating? As long as you have make up your mind, our EC-Council Certified CISO (CCISO) study question is available in five minutes, so just begin your review now! This could be a pinnacle in your life.
