Please do not worry; we will always put the interests of customers in the first place, so C-SEC-2405 Test Guide ensure that your information will not be leaked to any third party.

## SAP Certified Associate - Security Administrator Sample Questions (Q27-Q32):

NEW QUESTION # 27

In SAP S/4HANA Cloud Public Edition, which of the following can you change in a derived business role if the "Inherit Spaces in Derived Business Roles" checkbox is NOT selected in the leading business role?

- A. Pages
- B. Restrictions
- C. Business Role Template
- D. Business Catalogs

**Answer: A**

Explanation:

In SAP S/4HANA Cloud Public Edition, derived business roles inherit attributes from their leading business role, but the "Inherit Spaces in Derived Business Roles" checkbox controls whether Spaces are inherited. If this checkbox is not selected, administrators can modify the Pages assigned to the derived business role independently of the leading role. Pages in the SAP Fiori launchpad define the layout and content visible to users, such as tiles and applications, and allowing changes in the derived role provides flexibility to tailor the user interface for specific business needs. The Business Role Template, Restrictions, and Business Catalogs, however, remain inherited and cannot be modified in the derived role, as these are core components defined in the leading role to ensure consistency across related roles. This selective modification of Pages enables organizations to customize user experiences while maintaining standardized authorizations, supporting both operational efficiency and security compliance in SAP S/4HANA Cloud Public Edition's role management framework.

#### NEW QUESTION # 28

In the administration console of the Cloud Identity Services, which system property types can you add? Note: There are 2 correct answers to this question.

- A. Internal
- B. Credential
- C. Standard
- D. Default

**Answer: A,C**

#### NEW QUESTION # 29

Following an upgrade of your SAP S/4HANA on-premise system to a higher release, you perform a Modification Comparison using SU25.

What does this comparison do?

- A. It compares the Role Maintenance data from the current release with the data for the previous release and allows you to adjust any custom default values in tables USOBX and USOBT.
- B. It compares your changes to the SAP defaults in USOBX\_C and USOBT\_C with the new SAP defaults in the current release and allows you to make adjustments.
- C. It compares your changes to the SAP defaults in USOBX and USOBT with the new SAP defaults in the current release and allows you to make adjustments.
- D. It compares the Role Maintenance data from the previous release with the data for the current release and writes any new default values in tables USOBX\_C and USOBT\_

**Answer: C**

#### NEW QUESTION # 30

To connect to data sources that are NOT all based on OData, which of the following options does SAP recommend you use?

- A. SAP Process Integration
- B. OData Provisioning service
- C. SAP Integration Suite
- D. Cloud connector

**Answer: C**

### NEW QUESTION # 31

What can be assigned directly to a user when using the SAP Launchpad service in SAP BTP?

- A. Launchpad roles
- B. Catalogs
- C. Role collections
- D. Spaces

**Answer: C**

Explanation:

In the SAP Launchpad service within SAP Business Technology Platform (BTP), Role collections can be assigned directly to a user. Role collections are groups of roles that define access to specific applications, services, or functionalities within the Launchpad, allowing administrators to grant users the necessary permissions to access content, such as Fiori apps or custom applications. By assigning role collections directly to users in the SAP BTP subaccount, administrators ensure that users have the appropriate access rights tailored to their responsibilities. Spaces, which organize apps in the Launchpad, and Catalogs, which group apps and tiles, are assigned to roles or role collections, not directly to users. Launchpad roles are not a distinct entity in SAP BTP; roles are part of role collections. This direct assignment of role collections simplifies access management, ensuring secure and efficient user access to the SAP Launchpad service while aligning with SAP BTP's security and authorization framework.

### NEW QUESTION # 32

.....

At the moment you come into contact with C-SEC-2405 learning guide you can enjoy our excellent service. You can ask our staff about what you want to know, then you can choose to buy. If you use the C-SEC-2405 study materials, and have problems you cannot solve, feel free to contact us at any time. Our staff is online 24 hours to help you on our C-SEC-2405 simulating exam.
