## E\_S4CPE\_2405試験関連赤本、E\_S4CPE\_2405資格トレーニング

当社のWebサイトにある優れたE\_S4CPE\_2405学習教材の助けを借りてE\_S4CPE\_2405試験を受ける準備ができている場合、選択は素晴らしいものになります。E\_S4CPE\_2405トレーニング資料は優れた選択肢であり、特にE\_S4CPE\_2405試験に時間をかけずに合格し、成功することに熱心な方に役立ちます。それに加えて、E\_S4CPE\_2405の調査問題には3つのバージョンがあります。PDFバージョン、ソフトバージョン、および

APPバージョンです。これらは興味深く、選択するのに役立ちます。

## SAP Certified Specialist - Implementation Consultant - SAP S/4HANA Cloud Private Edition 認定 E\_S4CPE\_2405 試験問題 (Q37-Q42):

### 質問 # 37

How is data migrated directly from an SAP ERP system to SAP S/4HANA Cloud Private Edition?

- A. SAP Integration Suite connects the SAP ERP source system to the SAP S/4HANA Migration Cockpit.
- B. The Software Update Manager (SUM) tool migrates the legacy database from the SAP ERP source system to SAP S/4HANA Cloud Private Edition.
- C. A Remote Function Call (RFC) connects the SAP ERP source system to the SAP S/4HANA Migration Cockpit.
- D. Extract, Transform, and Load (ETL) tools are used to migrate data from the SAP ERP source system to SAP S/4HANA Cloud Private Edition (through a separate SAP HANA staging database).

正解: C

### 質問 # 38

What are some characteristics of private cloud? Note: There are 2 correct answers to this question.

- A. Software installation on customer site
- B. Perpetual license
- C. Single-tenant server
- D. Lower total cost of ownership than on premise

正解: A、C

解説:

SAP S/4HANA Cloud, Private Edition, is a tailored-to-fit cloud ERP solution that adapts to an organization's unique transformation needs. It is designed to provide the flexibility of a private cloud environment while offering the benefits of cloud computing.

Option B: Single-tenant server

This option is correct. SAP S/4HANA Cloud, Private Edition, operates in a single-tenant environment, meaning that each customer has a dedicated instance of the software. This setup allows for greater customization and control over the system.

SAP

Option C: Software installation on customer site

This option is incorrect. In the private cloud model, the software is hosted on hardware owned by SAP or an infrastructure-as-a-service provider, not on the customer's premises. This approach allows customers to focus on their core business while SAP manages the IT infrastructure.

Option A: Lower total cost of ownership than on-premise

This option is correct. SAP S/4HANA Cloud, Private Edition, offers a subscription-based model, which can lead to a lower total cost of ownership compared to traditional on-premise solutions. This model shifts upfront capital expenses to operating expenses, providing cost efficiency.

Option D: Perpetual license

This option is incorrect. The private cloud edition operates on a subscription-based licensing model rather than a perpetual license. This model provides flexibility and ensures access to the latest updates and innovations.

In summary, SAP S/4HANA Cloud, Private Edition, is characterized by a single-tenant environment and a subscription-based licensing model, with the software hosted by SAP or a service provider rather than installed on the customer's site.

### 質問 # 39

In which type of extensibility is SAP Business Technology Platform used to host a custom extension?

- A. Side-by-side extensibility
- B. Key user extensibility
- C. Developer extensibility
- D. Classic extensibility

正解: A

#### 質問 # 40

When is a customer required to upgrade their SAP S/4HANA Cloud Private Edition system?

- A. When the latest base release is launched
- B. When the current base release has only 12 months of mainstream maintenance remaining
- C. When two support packs have been released for the current base release
- **D. When the base release falls out of mainstream maintenance**

正解: D

#### 質問 # 41

When do you use the SAP Fiori app "Launchpad App Manager?" Note: There are 2 correct answers to this question.

- **A. To create custom catalogs**
- B. To manage business catalogs with references to SAP Fiori app tiles in technical catalogs
- C. To view where launchpad content is used
- **D. To maintain technical catalogs**

正解: A、D

解説:

The "Launchpad App Manager" Fiori app in SAP S/4HANA Cloud Private Edition is used to manage Fiori Launchpad content, such as catalogs and tiles. Let's evaluate its uses:

\* A. To create custom catalogs: This is correct. The Launchpad App Manager allows administrators to create custom catalogs, grouping Fiori app tiles for specific roles or purposes, enhancing user access in the Launchpad.

\* B. To manage business catalogs with references to SAP Fiori app tiles in technical catalogs: This is incorrect. Business catalogs are managed via the "Maintain Business Roles" app, not the Launchpad App Manager. The latter focuses on technical and custom catalogs, not business catalog references.

\* C. To maintain technical catalogs: This is correct. The app is used to maintain technical catalogs, which contain references to Fiori apps and their configurations (e.g., OData services). These catalogs are then linked to business roles.

\* D. To view where launchpad content is used: This is incorrect. Viewing usage of Launchpad content (e.g., where tiles are assigned) is handled by tools like the "Launchpad Content Manager" or role analysis, not the Launchpad App Manager's primary function.

In summary, the Launchpad App Manager is used for A (To create custom catalogs) and C (To maintain technical catalogs).
