

EAPA_2025 Braindumps Torrent & Study Materials

EAPA_2025 Review

DOWNLOAD the newest PassLeader EAPA_2025 PDF dumps from Cloud Storage for free: <https://drive.google.com/open?id=1UMMFvB9v4DZJFbz1XpT55KrYZcrJqjQh>

If you study on our test engine, your preparation time of the EAPA_2025 guide braindumps will be greatly shortened. Firstly, the important knowledge has been picked out by our professional experts. You just need to spend about twenty to thirty hours before taking the Real EAPA_2025 Exam. In addition, the relevant knowledge will be easy to memorize. Learning our EAPA_2025 study quiz can also be a pleasant process. The saved time can be used to go sightseeing or have a rest.

Esri EAPA_2025 Exam Syllabus Topics:

Topic	Details
Topic 1	• Manage and Create Geospatial Data: This section of the exam measures skills of GIS Analyst and covers the creation, organization, and management of both vector and attribute data including proper handling of coordinate systems, schema modifications, and metadata practices.
Topic 2	• Create and Share Maps and Layouts: This section of the exam measures skills of GIS Specialist and includes creating polished maps—designing layouts, inserting elements like scale bars, legends, titles, and sharing outputs via print, PDF, or packages for collaboration.
Topic 3	• Perform Analysis and Query Data: This section of the exam measures skills of GIS Specialist and focuses on applying geoprocessing tools to analyze spatial data, running attribute and spatial queries, using overlays, proximities, summaries, and working with environment settings for automated workflows.
Topic 4	• Edit Features and Organize Workflows: This section of the exam measures skills of GIS Analyst and evaluates your competency in editing geospatial features through snapping, templates, sketch tools, performing quality control, and managing simple tasks including map layouts and bookmarks.
Topic 5	• Automate Workflows: This section of the exam measures skills of GIS Specialist and examines your ability to build and manage models using ModelBuilder, construct geoprocessing workflows, chain together tools, and automate repeatable GIS tasks effectively.

Why Choose PassLeader for Esri EAPA_2025 Exam Questions Preparation?

In short, we live in an age full of challenges. So we must continually update our knowledge and ability. If you are an ambitious person, our EAPA_2025 exam questions can be your best helper. There are many kinds of EAPA_2025 study materials in the market. You must have no idea to choose which one. It does not matter. Our Associate Level guide braindumps are the most popular products in the market now. Just buy our EAPA_2025 learning quiz, and you will get all you want.

Esri ArcGIS Pro Associate 2025 Sample Questions (Q70-Q75):

NEW QUESTION # 70

A GIS analyst has a countrywide parcel dataset and needs to determine the property owners for the northern region of the country. The analyst wants to find owners whose last name contains Jon.

Which query should the analyst use?

- A. Region = 'North' AND OwnerName LIKE 'Jon'
- B. Region = 'North' OR OwnerName LIKE 'Jon'
- C. Region = 'North' AND OwnerName = 'Jon'

Answer: A

Explanation:

The correct SQL expression should filter parcels that are both in the North region and where the OwnerName field contains 'Jon.' The LIKE operator is appropriate when matching patterns or partial names.

* Option A correctly combines both conditions using AND.

* Option B would include any parcel in the North region or any parcel where OwnerName contains Jon, which is overly broad.

* Option C incorrectly uses exact equality, which would fail to match variations like 'Johnson' or 'Jonas.' Note: The LIKE expression typically includes wildcard characters (e.g., LIKE '%Jon%') but based on provided options, Option A represents the correct logic. Therefore, the correct answer is A.

-

NEW QUESTION # 71

A land surveyor downloads an Excel sheet from the city website that contains the updated land cover codes with over 30 classes. Which tool will help the surveyor update their existing land cover data to the new codes?

- A. Classify Raster
- B. Reclass By Table
- C. Reclassify Field

Answer: B

Explanation:

The Reclass By Table tool allows the surveyor to import a lookup table (such as an Excel sheet) that contains the old and new land cover codes. This is the most efficient method for batch reclassification when many classes are involved.

* Classify Raster (Option A) is used for unsupervised or supervised classification.

* Reclassify Field (Option C) is not a valid ArcGIS Pro tool for raster data reclassification.

Therefore, the correct answer is B.

NEW QUESTION # 72

A GIS analyst is about to run analysis using multiple feature layers from the current map. They want to do one final check to ensure which feature classes do and do not have definition queries as expected.

How should the analyst check this most efficiently?

- A. Right-click layer in Contents > Properties > Definition Query
- B. Contents pane > Filter > Active Definition Query
- C. Select layers in Contents > Feature Layer - Data tab > Definition Query

Answer: B

Explanation:

ArcGIS Pro allows filtering of layers in the Contents pane using various filters. The most efficient way to check which layers have definition queries applied is to use the filter option "Active Definition Query" directly in the Contents pane. This instantly shows only those layers that have active definition queries, allowing rapid verification across multiple layers without needing to click through each layer's properties individually.

* Option A requires selecting each layer one-by-one.

* Option C also requires manual inspection of each layer's properties.

* Option B provides a batch view directly within the Contents pane.

Therefore, the correct answer is B.

-

NEW QUESTION # 73

A GIS analyst has over 100 rasters of the same resolution and dimension. The analyst needs to combine all rasters into one raster so that it is easier to share with other analysts who need to perform analysis on the raster (s).

What should the analyst do?

- **A. Use the Mosaic To New Raster geoprocessing tool and share**
- B. Publish the rasters as a tile layer and share the link to the layer
- C. Create a mosaic dataset and share it on a thumb drive

Answer: A

Explanation:

The Mosaic To New Raster tool merges multiple input raster datasets into a single raster dataset in a file-based format. This approach simplifies sharing and analysis because the result is a single raster file rather than a collection of rasters. Since all rasters have the same resolution and dimension, this tool is the most efficient solution for permanent combination.

* Mosaic Datasets (Option A) are great for managing large raster collections but remain as collections, not single files.

* Publishing tile layers (Option C) is primarily for web sharing, not file-based sharing or analysis.

Therefore, the correct answer is B.

NEW QUESTION # 74

A GIS analyst needs to examine the metadata of a feature class not in the map to make sure the thumbnail graphic is current. What is the recommended workflow to view the metadata feature class?

- **A. In the Catalog pane, expand the geodatabase > Right-click the feature class > Select View Metadata**
- B. In the Contents pane > Select the feature layer > From the View tab, click Catalog View
- C. In the Contents pane > Right-click the feature layer > Select View Metadata

Answer: A

Explanation:

The Catalog pane provides access to datasets not yet added to the map. From there, the user can right-click any dataset (including feature classes) and select View Metadata to view or edit metadata, including the thumbnail.

* The Contents pane only lists items already in the map.

* Catalog View (Option B) works if the dataset is already loaded into that view, but directly using the Catalog pane (Option C) is more efficient here.

Therefore, the correct answer is C.

-

NEW QUESTION # 75

.....

All these features make the EAPA_2025 exam practice question the ideal study material for EAPA_2025 exam preparation and it is designed to assist you in ArcGIS Pro Associate 2025 (EAPA_2025) practice test. We guarantee you that you will not find all these top-rated features anywhere. They are only available with EAPA_2025 exam questions format.
