NEW OUESTION #89

Which of the following statements is generally correct with regard to qualitative RBI analysis using a broad range of data?

- A. It generally results in lower accuracy analysis.
- B. It does not require a high level of accuracy and precision in the data.
- C. It requires a high-level of judgment, skill, and understanding.
- D. It is generally improved by utilizing numeric data.

Answer: C

Explanation:

API 580 Section 7.2.2 states:

"Generally a qualitative analysis using broad ranges requires a higher level of judgment, skill, and understanding from the user than a more quantitative approach." This confirms that qualitative methods require more professional judgment even though they are simpler in format. It is not simply about using less accurate or numeric data but about the user's expertise.
