100% Pass Quiz HP - HPE6-A86 - HPE Network Switching Associate Exam – Reliable Study Guide Pdf

Our HPE6-A86 study tools not only provide all candidates with high pass rate study materials, but also provide them with good service. If you have some question or doubt about us or our products, you can contact us to solve it. The thoughtfulness of our HPE6-A86 study guide services is insuperable. What we do surly contribute to the success of HPE6-A86 practice materials. We all know that it is of great important to pass the HPE6-A86 Exam and get the certification for someone who wants to find a good job in internet area. I will recommend our study materials to you. It can be said that our HPE6-A86 test prep greatly facilitates users, so that users cannot leave their homes to know the latest information.

HPE Network Switching Associate Exam Sample Questions (Q20-Q25):

NEW QUESTION # 20

At which layer of the OSI model does HTTP operate?

- A. Network Layer
- **B. Application Layer**
- C. Session Layer
- D. Data Link Layer

Answer: B

Explanation:

The correct answer is C. Application Layer. HTTP, or Hypertext Transfer Protocol, is identified in HPE Aruba Networking documentation as an application protocol used to transfer data over the web. The same HPE Aruba Central documentation explains that HTTP defines how messages are formatted and transmitted and how web servers and browsers respond to commands. This places HTTP at the application layer because it directly supports user-facing web communication rather than packet forwarding, addressing, framing, or physical transmission. HPE Aruba documentation also describes Deep Packet Inspection and AppRF as

Layer 7 or Application Layer features that classify applications and web traffic, further supporting that HTTP is treated as application-layer traffic. Option A is incorrect because the Session Layer manages sessions between systems, but HTTP itself is not categorized there in this context. Option B is incorrect because the Network Layer handles IP addressing and routing. Option D is incorrect because the Data Link Layer handles local network framing, MAC addressing, and switching behavior.

NEW QUESTION # 21

A Solutions Architect is diagnosing a network issue where a specific server is unreachable. The architect uses `traceroute` and the output stops at a particular router, which is the last responsive hop. The architect now wants to verify the complete routing table on that specific router to understand why it is not forwarding the traffic correctly.

```
1 10.1.1.1 (10.1.1.1) 1.123 ms 1.122 ms 1.121 ms
2 10.10.1.2 (10.10.1.2) 5.432 ms 5.433 ms 5.432 ms
3 * * *
4 * * *
```

The last responsive hop is 10.10.1.2.

Which command would the architect use on the router at 10.10.1.2 to validate its entire Layer 3 forwarding table?

- A. `show lldp neighbor-info`
- B. `show mac-address-table`
- C. `show interface brief`
- **D. `show ip route`**

Answer: D

NEW QUESTION # 22

Which load balancing algorithm typically uses source and destination IP addresses to determine traffic distribution in a LAG?

- A. Round Robin
- **B. Hash-based**
- C. Weighted
- D. Least Connections

Answer: B

NEW QUESTION # 23

What is considered a secure protocol?

- A. Telnet
- B. HTTP
- C. SNMPv3
- D. TFTP

Answer: C

Explanation:

SNMPv3 is considered secure because it supports authentication and encryption, protecting management traffic from unauthorized access and eavesdropping.

NEW QUESTION # 24

Users report poor performance when uploading files to their document management server in the same subnet. You suspect packet loss is causing the problem. Which tool in HPE Aruba Networking Central can you use to confirm this?

- A. Network Check - Ping
- B. Commands - show interface error-statistics
- C. Network Check - Traceroute
- D. Device Check - Cable Test

Answer: A

Explanation:

Ping can be used to measure packet loss by sending multiple echo requests and analyzing lost responses, which helps confirm whether packet loss is occurring between clients and the server within the same subnet.

NEW QUESTION # 25

.....

We stand behind all of our customers, so we provide you with the best valid and useful HP HPE6-A86 exam training. Regular and frequent updates for HPE6-A86 dumps are necessary, so you can get hold of the HPE6-A86 updated exam material every time. Besides, we offer the exact questions with correct answers, which can ensure you 100% pass in your HP HPE6-A86 Actual Test. We have 100% money back guarantee, in case of failure, we will give you full refund.
