If you are determined to purchase our EX-Con-101 study tool, we can assure you that you can receive an email from our efficient system within 5 to 10 minutes after your payment, which means that you do not need to wait a long time to experience our learning materials. Then you can start learning our EX-Con-101 Exam Questions in preparation for the exam.

Salesforce Certified Experience Cloud Consultant Sample Questions (Q42-Q47):

NEW QUESTION # 42

The system administrator at Get Cloudy Consulting is trying to import Customer Portal users to the newly created Experience Cloud. However, the import failed.

What could be two reasons for this failure?

Choose 2 answers

- A. The portal role record has not been created.
- B. User records are missing. Penal & Pep ore
- C. The portal profile record has not been created.
- D. Contact records have not been created.

Answer: A,D

Explanation:

Two reasons for the import failure are A and D. To import Customer Portal users to the Experience Cloud, you need to have a portal role record and a contact record for each user. A portal role record is a record that defines the role of a portal user in the portal hierarchy. A contact record is a record that contains the personal information of a portal user, such as name, email, phone, etc. If these records are missing, the import will fail.

NEW QUESTION # 43

Get Cloudy Consulting is implementing an equity management solution for one of its financial clients. The solution will enable the external independent financial researchers to collaborate with internal portfolio control staff in a private Chatter group.

What should the Experience Cloud consultant recommend to meet the requirements for both personas?

- A. Give external researchers and internal staff access to the main org.
- B. Create a portal for external researchers and give internal staff access to the main org.
- C. Create a portal for external researchers and create an app for internal staff.
- D. Create a portal for external researchers and give internal staff access to the portal.

Answer: B

Explanation:

To meet the requirements for both personas, GCC should create a portal for external researchers and give internal staff access to the main org. This will allow GCC to provide different features and permissions for each persona, as well as enable collaboration between them in a private Chatter group. For example, GCC can create a portal for external researchers using the Partner Central template, where they can view and update financial data, access reports and dashboards, and join Chatter groups. GCC can also

give internal staff access to the main org using standard user licenses, where they can manage portfolio data, create workflows and processes, and join Chatter groups.

NEW QUESTION # 44

Insightopia's Experience Cloud site went live on the first day of the last month. The launch has been very successful, and the number of community members has reached the first milestone of 10,000. The Experience Cloud site manager wants to implement gamification methods to increase engagement and adoption.

What should be the recommended approach for implementing gamification?

- A. Use the Missions feature to assign badges to members automatically.
- B. Build flows to implement gamification for community members.
- C. Organize a community event to get ideas for implementing gamification.
- D. Use the Einstein game mechanics feature for implementing gamification.

Answer: A

Explanation:

A recommended approach for implementing gamification is to use the Missions feature to assign badges to members automatically. Missions are a feature that allows you to create challenges and rewards for your site members based on their actions and behaviors. You can use Missions to define criteria and actions that trigger badges, points, or ranks for your members. For example, you can create a Mission that awards a badge to a member who posts a question, comments on an answer, or likes a post.

NEW QUESTION # 45

Northern Trail Outfitters (NTO) is considering how to manage its accounts for the B2B portion of its business.

NTO uses person accounts for its B2C business, and business accounts with related contacts for its B2B business. NTO has several B2B customer accounts that are very large. These accounts have child accounts that represent departments and opportunities at the department level that will need to be visible to users at the parent account level. NTO has Customer Community Plus licenses.

How should NTO manage its accounts in its Partner Community?

- A. Extend the Standard Role Hierarchy setting departments as child accounts.
- B. Enable the External Account Hierarchy setting departments as child accounts.
- C. Use the Business Accounts and Contacts with Sharing Sets to grant additional record access as needed.
- D. Since NTO has person accounts, it cannot use the External Account Hierarchy and will need to use groups and sharing rules to grant the required record access.

Answer: B

Explanation:

This option allows NTO to manage its B2B accounts with multiple levels of hierarchy and grant record access based on the account relationship. External Account Hierarchy is a feature that enables this functionality for Customer Community Plus users. With this feature, users can view and edit records associated with their own account and any child accounts in the hierarchy.

NEW QUESTION # 46

Universal Containers (UC) maintains multiple customer experiences, but only one profile for No customer has access to more than one experience. Which two steps should the UC admin take to grant access to each customer?

Choose 2 answers

- A. Create a permission Set
- B. Select a permission set for a given experience
- C. Select the profile for a given experience
- D. Edit the applicable user profile

Answer: B,C

Explanation:

Two steps that the UC admin should take to grant access to each customer are B and C. To grant access to an Experience Cloud site, you need to assign a license type, a profile, and a permission set to each user. A license type determines what features and functionality a user can access on the site. A profile determines what objects and fields a user can see and edit on the site.

A permission set determines what additional permissions and settings a user can have on the site. To assign a profile and a permission set for a given experience, you need to select them from the drop-down menus in the Admin Workspace of your Experience Builder tool.

NEW QUESTION # 47

.....
