## Get The UP-To-Date Microsoft AZ-700 Exam Questions

There are a lot of experts and professors in our company. All AZ-700 study torrent of our company are designed by these excellent experts and professors in different area. We can make sure that our Microsoft AZ-700 test torrent has a higher quality than other study materials. The aim of our design is to improving your learning and helping you gains your Designing and Implementing Microsoft Azure Networking Solutions AZ-700 Certification in the shortest time. If you long to gain the certification, our Designing and Implementing Microsoft Azure Networking Solutions guide torrent will be your best choice.

## Microsoft Designing and Implementing Microsoft Azure Networking Solutions Sample Questions (Q261-Q266):

### NEW QUESTION # 261

You have an Azure subscription that contains multiple virtual machine scale sets and multiple Azure load balancers. The load balancers balance traffic across the scale sets.

You plan to deploy Azure Front Door to load balance traffic across the load balancers.

You need to identify which Front Door SKU to configure, and what to use to route the traffic to the load balancers. The solution must minimize costs.

What should you identify? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

**Answer:**

Explanation:

□

### NEW QUESTION # 262

You have an on-premises network.

You have an Azure subscription that contains the resources shown in the following table.

□ You need to implement an ExpressRoute circuit to access the resources in the subscription. The solution must ensure that the on-premises network connects to the Azure resources by using the ExpressRoute circuit.

Which type of peering should you use for each connection? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

□

**Answer:**

Explanation:

□

Explanation:

□

### NEW QUESTION # 263

You are implementing the virtual network requirements for VM Analyze.

What should you include in a custom route that is linked to Subnet2? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

□

**Answer:**

Explanation:

□

Explanation

Graphical user interface, text, application Description automatically generated

□

### NEW QUESTION # 264

You have an Azure subscription that contains a virtual network gateway named VNetGwy1. VNetGwy1 has a public IP address of 20.25.32.214.

You need to query the health probe of VNetGwy1.

How should you complete the URI? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

□

**Answer:**

Explanation:

□

Explanation

□

### NEW QUESTION # 265

You have an Azure subscription that contains the resources shown in the following table.

□ Subshell contains Three virtual machines that host an app named App1. App1 is accessed by using the SFTP protocol.

From NSG1, you configure an inbound security rule named Rule2 that allows inbound SFTP connections to ASG1.

You need to ensure that the inbound SFTP connections are managed by using ASG1. The solution must minimize administrative effort.

What should you do?

- A. From ASG1, modify the role assignments.
- B. From Subnet1 create a subnet delegation.
- C. From each virtual machine, associate the network interface to ASG1
- D. From NSG1, modify the priority of Rule2.

**Answer: C**
