## 最優質的HP HPE7-A03考試重點是行業領先材料&授權的HPE7-A03: Aruba Certified Campus Access Architect Exam

如果你參加HP HPE7-A03認證考試，你選擇VCESoft就是選擇成功！祝你好運。

## 最新的 Aruba Certified Professional HPE7-A03 免費考試真題 (Q24-Q29):

### 問題 #24

identify the stakeholders when gathering information for the network design and new IDF/MDF design.  
(Select two.)

- A. Facility manager
- B. Help desk manager
- C. Chief Financial Officer
- D. Network Operations manager

答案：B,D

### 解題說明：

When designing a network and considering new Intermediate Distribution Frame/Main Distribution Frame (IDF/MDF) deployments, it's essential to gather information from various stakeholders to ensure the design meets all operational and organizational requirements. According to Aruba Campus Access learning resources, the Help Desk Manager and Network Operations Manager are crucial stakeholders in this process.

The Help Desk Manager provides insights into common issues, user complaints, and service requests, which can influence network design decisions to improve user experience and operational efficiency. The Network Operations Manager, on the other hand, offers a technical perspective on network management, maintenance requirements, and operational challenges. Engaging with these stakeholders ensures that the network design is aligned with both user needs and technical operational standards, contributing to a more resilient, efficient, and user-friendly network infrastructure.

#### 問題 #25

ACME retail has 38 locations spread out across Ave US states and two provinces in Canada. They are looking to grow 20% over the next two years. They have an HO with a staff of 200 employees. The organization has eight Regional Managers and two VPs who work from home and the road. Stores typically have 17 employees on average per location.

The two warehouses have a remote loading system and 20 employees each to load the trucks and fulfill the online orders. The warehouse has 40-foot ceilings and large metal racks to store inventory. The main location is 240K sq ft (22300 st) m) and the Canadian warehouse is 130K sq ft (12100 sq m). The forklifts on the loading docks are equipped with a wireless tablet on board. A typical store is reportedly about 60,000 sq ft (5575 sqm) and smaller stores are planned at 25,000 sq ft

2320 sq m. The locations need to expand the abilities to vendors that need to add setup displays or Interactive kiosks in the stores. The current Infrastructure was installed in 2015 and used wireless N technology in a coverage model. The wiring is Cat5, and they are unsure of the fiber connections. The inventory is all placed on the floor when it is delivered to the local store.

Inventory control is handled through Zebra barcode scanners, and they have had a lot of issues in getting signals throughout the stores and this makes monthly inventory difficult. The organization has a small help desk to troubleshoot issues that happen at the retail locations and PC support for the office. The company is looking to upgrade away from the current pbx system later this year. With the need to grow and cut costs, they are interested in moving the data to the cloud but need to get almost real-time inventory control for the online service to function.

The network has all been wired over the last ten years, but with the new systems being all wireless, they have seen the trend to offer wireless to all the vendors for their needs but also would like to allow employees, guests, and contractors all to use it. With the new IT director starting next week, the project has been set by the CTO of the company. The marketing group has asked how they can interact with the customers and get more info, while the IT support desk needs to cut staff in half.

The office has an MDF and two IDF's located on floors one and two. The HOF is in the basement, and you have multiple WAN circuits for the HO links. Each store has a local handoff from the cable company (ethernet) in the middle of the store in the office, so distance for the wiring is not an issue.

The customer has budget concerns but does want something that could last 7+ years.

Which two projects does the customer have in the planning state? (Select two)

- A. new POS system
- B. kiosks/display station
- C. VoIP upgrade
- D. Inventory Control System

答案: C,D

解題說明:

ACME Retail is in the planning stages of upgrading their current PBX system to a VoIP system, as indicated by their intention to move away from the existing PBX system later in the year. This upgrade is part of their overall network infrastructure overhaul to incorporate modern best practices. Additionally, the company is facing challenges with their current inventory control system, particularly with Zebra barcode scanners having signal issues throughout the stores, making monthly inventory processes difficult. Improving the inventory control system to achieve almost real-time inventory for their online service is a critical aspect of their growth and cost-cutting strategy, hence it's in the planning stage as well.

The customer has budget concerns but does want something that could last 7+ years.

What are two primary concerns of the Stakeholder' (Select two.)

- A. cost of solution
- B. future proof
- C. expansion
- D. ease of access

答案： A,B

解題說明：

For the stakeholders at ACME Retail, the primary concerns include the cost of the solution and ensuring that the solution is future-proof. Given the company's budget concerns, it is crucial that the chosen network infrastructure offers a good return on investment and aligns with their financial constraints. At the same time, considering the company's growth plans and the rapid evolution of technology, the solution must be scalable and adaptable to future needs. This involves selecting networking equipment and technologies that can support emerging trends, such as increased wireless device usage, cloud computing, and advanced security requirements, without necessitating frequent, costly upgrades. Balancing these concerns will help ACME Retail achieve its operational goals while positioning itself for sustainable growth and innovation.

#### 問題 #27

The customer recently found out that Aruba OS-CX switches are capable of Application Recognition. What requirements should be fulfilled in order to do this? (Select two.)

- A. 6400 with Aruba CX Advanced License
- B. 6300F/M with Aruba CX Advanced License
- C. 6200F/M with Aruba CX Advanced License
- D. 8360 with Aruba CX Advanced License

答案： A

解題說明：

Aruba OS-CX switches, specifically the Aruba 6400 and 6300F/M models, are designed to support advanced networking features, including Application Recognition, with the Aruba CX Advanced License. The Advanced License enables enhanced capabilities such as deeper visibility into application flows, advanced routing features, and improved network analytics. Application Recognition allows these switches to identify and classify applications running on the network, enabling more intelligent and dynamic network policies and improving overall network performance and security. The requirement for an Aruba CX Advanced License on these specific models ensures that the necessary software features and support are available to leverage Application Recognition capabilities effectively.

ACME Retail is using 4-post racks. Which rack mounting kit is better suited for this project?

- A. optional Aruba Universal 4-post Rack Mount Kit
- B. optional Aruba 2-post Rack Mount Kit
- C. optional Third Party 4-post Rack Mount Kit
- D. included Rack Mounting Kit

答案： A

解題說明：

For a large multinational retail company like ACME Retail that uses 4-post racks in their network infrastructure, the most suitable rack mounting kit would be the optional Aruba Universal 4-post Rack Mount Kit. This kit is designed to provide a secure and stable mounting solution for networking equipment in 4-post rack systems, which are commonly used in enterprise environments for their robustness and ability to support heavier equipment. The Aruba Universal 4-post Rack Mount Kit is versatile and designed to fit a wide range of Aruba switches and networking devices, making it an ideal choice for ACME Retail's project, ensuring compatibility and ease of installation across their various locations.

## 問題 #29

.....

你是其中之一嗎，你是否還在擔心和困惑的各種材料和花哨的培訓課程考試嗎？VCESoft是你正確的選擇，因為我們可以為你提供全面的考試資料，包括問題及答案，也是最精確的解釋，所有這些將幫助你掌握更好的知識，我們有信心你將通過VCESoft的HP的HPE7-A03考試認證，這也是我們對所有客戶提供的保障。

**HPE7-A03題庫更新:** <https://www.vcesoft.com/HPE7-A03-pdf.html>

所以，如果你想參加 HP HPE7-A03 考試，最好利用我們 HP HPE7-A03 題庫資料，因為只有這樣你才能更好地準備 HPE7-A03 考試，因為在HPE7-A03培訓中心會有講師給我們的學習提供專業的指導，一方面可以降低我們的學習難度，另一方面又可以讓我們在學習上少走彎路，綜合提高我們的學習效率，參加HPE7-A03認證的學員必須至少在HP大學或者其授權培訓中心學習壹門課程才能獲得Aruba Certified Campus Access Architect Exam證書，你要相信 HPE7-A03 學習指南可以給你一個美好的未來，VCESoft為考生提供真正有效的考試學習資料，充分利用我們的HP HPE7-A03題庫問題和答案，可以節約您的時間和金錢，我們為幫助考生通過他們第一次嘗試的HPE7-A03考試而感到自豪，在過去兩年裡，HPE7-A03題庫的成功率絕對是令人驚嘆的，這是一個100%保證通過的學習資料。

豹妖王也傳音，妳別這麼看我，挺彥人的，所以，如果你想參加 HP HPE7-A03 考試，最好利用我們 HP HPE7-A03 題庫資料，因為只有這樣你才能更好地準備 HPE7-A03 考試，因為在HPE7-A03培訓中心會有講師給我們的學習提供專業的指導，一方面可以降低我們的學習難度，另一方面又可以讓我們在學習上少走彎路，綜合提高我們的學習效率。
