NEW QUESTION # 16

For Product Owners to succeed, the entire organization must respect their decisions.

- A. TRUE
- B. FALSE

Answer: A

NEW QUESTION # 17

You manage a product group in an organization. A Scrum Master is concerned with the very low availability of the Product Owner for her team. The Product Owner has subject matter expertise that is very difficult to duplicate or replace, but he has several other important responsibilities as well. The Scrum Master has discussed her concern with the Product Owner, but the Developers are still struggling to deliver value without additional guidance from the Product Owner. The Scrum Master is asking you for some guidance. What is the best way for you to help the Scrum Master? (choose the best answer)

- A. Help the Product Owner's manager find a different Product Owner, who can dedicate the time needed, and help this new Product Owner come up to speed on the new product as quickly as possible.
- B. Offer to work with her, the Product Owner, and his manager, to find a way to ensure that the Product Owner's participation level is high enough to ensure that value can be delivered by the Scrum Team.
- C. Help the Scrum Master to find a delegate who can join the Scrum Team to work with the Product Owner and represent business priorities when the Product Owner cannot be present.
- D. Recommend to the Scrum Master that she helps the Developers to do their best, document their decisions, and escalate problems to you.

Answer: B

Explanation:

The Product Owner plays a crucial role in ensuring that the Scrum Team is delivering value. By working with the Product Owner's manager, you can help prioritize the Product Owner's availability and ensure that the team gets the guidance they need.

NEW QUESTION # 19

You are an Agile Leader working with five Scrum Teams. One of the Scrum Team requires a new working environment to replicate the production environment and help the team perform security and performance testing. The strict company policies allow creating new environments only for actual production purposes and not for any testing. Security and performance testing are needed as part of the Team's Definition of Done before the completed work can be shippable.

How would you manage this situation? Select two possible answers.

- A. Extend the Sprint to focus on security and performance testing.
- B. Work with the Scrum Team to see how they can do the testing in their existing development environment. They should try to replicate the production environment as much as possible.
- C. Support the needs of the team. Work with the senior management to get the environment approved.
- D. Ask the Scrum Team to come up with alternate solutions to resolve this issue themselves. You will support them as needed.
- E. Remove security and performance testing from the Definition of Done.

Answer: B,D
