And our staffs are only waiting for you online.

## SAP Certified Associate - WalkMe Digital Adoption Consultant Sample Questions (Q54-Q59):

### NEW QUESTION # 54

Which two types of WalkMe content can make up an Onboarding Task?

- **A. Smart Walk-Thrus and Resources**
- B. Resources and Shuttles
- C. SmartTips and Launchers
- D. Smart Walk-Thrus and Shuttles

**Answer: A**

Explanation:

An Onboarding Task in WalkMe is a collection of steps or content designed to guide users through a set of actions to complete an onboarding process. The two types of WalkMe content that can be included in an Onboarding Task are Smart Walk-Thrus, which provide step-by-step guidance through processes, and Resources, which link to help articles or external documentation to support onboarding. These content types are versatile and align with the goal of guiding users through critical tasks.

The other options are incorrect:

- \* SmartTips and Launchers(A) are not part of Onboarding Tasks; SmartTips are field-specific, and Launchers trigger other content.
- \* Resources and Shuttles(C) are partially correct, but Shuttles only navigate to pages, not guide through tasks.
- \* Smart Walk-Thrus and Shuttles(D) are also partially correct, but Shuttles are not task components.

Extract from Official WalkMe Documentation:

According to the WalkMe Editor User Guide (SAP WalkMe Digital Adoption Consultant Study Guide, Section 1.8: Onboarding Tasks):

"Onboarding Tasks consist of Smart Walk-Thrus, which guide users through processes, and Resources, which provide supplementary help content to complete onboarding." The course *Getting Started with Building WalkMe Solutions* states: "Build Onboarding Tasks using Smart Walk-Thrus for process guidance and Resources for additional support, ensuring users have the tools to complete onboarding." Option B, Smart Walk-Thrus and Resources, is the correct answer.

References:

SAP WalkMe Digital Adoption Consultant Study Guide, Section 1.8: Onboarding Tasks.

WalkMe Editor User Guide, "Creating Onboarding Tasks" Section.

Course: *Getting Started with Building WalkMe Solutions*, Module 9: Onboarding Solutions.

### NEW QUESTION # 55

In the Editor, a Shuttle has a full green circle next to it when looking at the Production environment. How would you describe the status of this Shuttle?

- A. Archived in Production
- **B. Published to Production**
- C. Published to Production but has been modified
- D. Draft mode in Test

**Answer: B**

Explanation:

In the WalkMe Editor, a full green circle next to a content item, such as a Shuttle, in the Production environment indicates that the item is Published to Production and is live for end users. This status confirms that the Shuttle has been successfully deployed without subsequent modifications or archiving.

The other options are incorrect:

\* Draft mode in Test (A) would show a different icon (e.g., gray or yellow) in the Test environment.

\* Archived in Production (B) would show an archived status, not a green circle.

\* Published but modified (C) would display a modified indicator, not a full green circle.

Extract from Official WalkMe Documentation:

According to the WalkMe Editor User Guide (SAP WalkMe Digital Adoption Consultant Study Guide, Section 1.10: Publishing and Status):

"A full green circle in the Production environment indicates that the content item, such as a Shuttle, is published and active for end users." The course *Getting Started with Building WalkMe Solutions* states:

"Check the status icon in the Editor: a full green circle in Production means the content is live and published without pending changes." Option D correctly describes the Shuttle's status.

References:

SAP WalkMe Digital Adoption Consultant Study Guide, Section 1.10: Publishing and Status.

WalkMe Editor User Guide, "Content Status Indicators" Section.

Course: *Getting Started with Building WalkMe Solutions*, Module 12: Managing Content Status.

### NEW QUESTION # 56

When are SmartTip validation rules evaluated?

- A. When the user refreshes the page.
- **B. When the user enters content into a field and then clicks or tabs outside of the field.**
- C. When the user enters content into a field.
- D. When the user clicks into a field.

**Answer: B**

### NEW QUESTION # 57

Which steps would you take to publish items to Production that you add to the user-facing Menu in the Menu Organizer?

- A. Changing the name of an added item in the Menu Organizer publishes it to Production.
- B. Adding items to the user-facing Menu are automatically published to Production.
- C. Adding an item to the user-facing Menu and clicking Save automatically publishes it to Production.
- **D. Manually publishing the item to Production after adding it to the Menu Organizer and saving it.**

**Answer: D**

Explanation:

In WalkMe, adding items to the user-facing Menu via the Menu Organizer does not automatically publish them to Production. After adding and saving items in the Menu Organizer, Builders must manually publish the changes to the Production environment using the WalkMe Editor's publish feature. This ensures that only reviewed and tested content is deployed, maintaining control over what end users see.

The other options are incorrect:

- \* Option A is wrong because adding items requires manual publishing.
- \* Option B is incorrect, as renaming doesn't trigger publishing.
- \* Option D is false, as saving in the Menu Organizer doesn't publish to Production.

Extract from Official WalkMe Documentation:

According to the WalkMe Editor User Guide (SAP WalkMe Digital Adoption Consultant Study Guide, Section 1.5: WalkMe Menu):

"After adding items to the Menu Organizer and saving changes, manually publish the updated Menu to Production using the Editor's publish feature to make it available to end users." The course Getting Started with Building WalkMe Solutions states:

"To deploy Menu changes, add and save items in the Menu Organizer, then manually publish them to Production to ensure controlled deployment." Option C correctly describes the publishing process.

References:

SAP WalkMe Digital Adoption Consultant Study Guide, Section 1.5: WalkMe Menu.

WalkMe Editor User Guide, "Publishing Menu Changes" Section.

Course: Getting Started with Building WalkMe Solutions, Module 4: Managing the WalkMe Menu.

#### NEW QUESTION # 58

Why is it recommended to disable the multi-language Manual Toggle when using the multi-language Auto-Toggle?

- **A. To prevent conflicts where the user's Manual Toggle choice overrides the Auto-Toggle settings**
- B. Because Manual Toggle consumes more resources than Auto-Toggle
- C. Because the Manual Toggle and Auto-Toggle can cause the page to refresh unexpectedly
- D. To ensure that the Manual Toggle is only available for administrators

**Answer: A**

#### NEW QUESTION # 59

.....

Every mock exam session will have time limit to train you excel in managing time during your actual Prepare for your SAP Certified Associate - WalkMe Digital Adoption Consultant (C-WME-2506) Exam Questions.
