

2V0-16.25 Latest Materials - Free 2V0-16.25 Sample

P.S. Free & New 2V0-16.25 dumps are available on Google Drive shared by GuideTorrent: https://drive.google.com/open?id=1C78ld__Uhsb-pzrF4sVhBTqgMBx2r09H

As we all know, if everyone keeps doing one thing for a long time, as time goes on, people's attention will go from rising to falling. Experiments have shown that this is scientifically based and that our attention can only play the best role in a single period of time. In reaction to the phenomenon, therefore, the 2V0-16.25 test material is reasonable arrangement each time the user study time, as far as possible let users avoid using our latest 2V0-16.25 Exam Torrent for a long period of time, it can better let the user attention relatively concentrated time efficient learning. The 2V0-16.25 practice materials in every time users need to master the knowledge, as long as the user can complete the learning task in this period, the 2V0-16.25 test material will automatically quit learning system, to alert users to take a break, get ready for the next period of study.

The GuideTorrent is committed to acing the VMware vSphere Foundation 9.0 Administrator (2V0-16.25) exam questions preparation quickly, simply, and smartly. To achieve this objective GuideTorrent is offering valid, updated, and real VMware 2V0-16.25 Exam Dumps in three high-in-demand formats. These VMware vSphere Foundation 9.0 Administrator (2V0-16.25) exam questions formats are PDF dumps files, desktop practice test software, and web-based practice test software.

VMware vSphere Foundation 9.0 Administrator test for engine, 2V0-16.25 VCE test engine

We have always been known as the superior after sale service provider, since we all tend to take lead of the whole process after you choose our 2V0-16.25 exam questions. So you have no need to trouble about our 2V0-16.25 study materials, if you have any questions, we will instantly response to you. Our 2V0-16.25 Training Materials will continue to pursue our passion for better performance and comprehensive service of 2V0-16.25 exam.

VMware vSphere Foundation 9.0 Administrator Sample Questions (Q45-Q50):

NEW QUESTION # 45

An administrator is tasked to install a new VMware ESX host to an existing cluster. When the installation is completed, the host is not able to be reached from the vCenter.

When testing the host's management network, the default gateway, primary DNS, and secondary DNS are all unreachable, and the host name cannot be resolved. The VLAN for the management network is set correctly and the adapters are all connected.

What is the first step in troubleshooting this connectivity issue?

- **A. Verify the correct TCP/IP information is configured.**
- B. Disconnect and reconnect the physical network cable.
- C. Verify the DVS configuration in vCenter.
- D. Reinstall ESX on the host.

Answer: A

Explanation:

When a newly installed ESX host cannot be reached and all basic network tests (gateway, DNS, hostname resolution) fail:

* The first troubleshooting step is to confirm that the management network TCP/IP configuration (IP address, subnet mask, default gateway, DNS servers) is correct.

* If this is misconfigured, the host will not communicate with vCenter or resolve names.

* B. Verify DVS configuration in vCenter# Requires host connectivity first.

* C. Reinstall ESX# Too drastic without confirming networking basics.

* D. Disconnect/reconnect cable# Less likely since VLANs/adapters are reported as connected.

NEW QUESTION # 46

What are the two methods to add a widget to a VMware Cloud Foundation (VCF) Operations for Logs dashboard? (Choose two.)

- **A. Drag and drop the widget in the dashboard design pane.**
- B. Import the widget in the dashboard design pane.
- **C. Create the widget in Explore Logs and click Add to Dashboard.**
- D. Open Management Pack Builder and clone the widget.
- E. Clone the widget from an existing dashboard.

Answer: A,C

Explanation:

Two supported methods exist for adding widgets to VCF Operations for Logs dashboards:

* From Explore Logs- Create a widget (e.g., query result) and select Add to Dashboard. (B)

* Dashboard Design Pane- Use the design interface to drag and drop widgets. (C) Other options:

* A. Clone widget from existing dashboard# Not a supported method.

* D. Import widget in design pane# Import is for dashboards, not individual widgets.

* E. Management Pack Builder# Not related to Logs dashboard widgets.

NEW QUESTION # 47

An administrator is tasked with adding a 96-core VMware ESX host to a VMware vSphere Foundation (VVF)

9.0 vCenter cluster. The vCenter has been previously licensed for 1024 cores and the existing hosts equal 960 cores. The administrator adds the host to the vCenter cluster and places the cluster back into production.

What issue will occur if the administrator performs no additional actions to this vCenter?

- A. The new ESX host has been limited to 64 cores until more capacity is added to the license to license the host. Once 32 cores or greater is added to the license, the full 96 cores of the new host will be useable.
- **B. The new ESX host will operate in evaluation mode until more capacity is added to the license to license the host. If the host is not licensed when the evaluation period expires, it is disconnected from the vCenter instance.**
- C. The new ESX host will operate in evaluation mode until more capacity is added to the license to license the host. If the host is not licensed when the evaluation period expires, the host will be limited to 64 cores until 32 cores or greater is added

to the license.

- D. No issue will occur. The new host was added to the vCenter cluster successfully and will operate for the valid period of the applied license.

Answer: B

Explanation:

The vSphere Foundation 9.0 licensing model uses per-core licensing.

- * Current license covers 1024 cores.
- * Existing hosts = 960 cores, leaving 64 cores licensed.
- * Adding a 96-core host # 32 cores exceed the license.

Result:

- * The new host runs in evaluation mode.
- * If not licensed after the evaluation period, the host is disconnected from vCenter.

Other options:

- * A. Limited to 64 cores # Not how VMware licensing enforcement works.
- * B. Limited to 64 cores until license upgrade # Incorrect; VMware does not partially disable cores.
- * D. No issue # Incorrect; licensing compliance will cause issues.

NEW QUESTION # 48

An administrator is tasked to configure shared storage for a VMware vSphere Foundation (VVF) cluster at a remote location. The following is available at the remote location:

- * Two ESX servers.
- * Two 1GbE network cards per ESX.
- * One sixteen port 1GbE Switch.
- * One NVMe per ESX for the Operating System.
- * One storage system supporting network and fiber channel capabilities.

What storage protocol must the administrator use at the remote location?

- **A. NFS**
- B. vSAN
- C. Local Storage
- D. Fiber Channel

Answer: A

Explanation:

The scenario:

- * Remote site with 2 ESXi servers, 1GbE networking only.
- * Storage system supports both network (NAS/iSCSI/NFS) and Fiber Channel.
- * Fiber Channel is not feasible (no FC switches/HBAs).
- * vSAN requires more than 2 nodes (minimum 3 for standard vSAN, 2+Witness for 2-node), not mentioned here.

The most suitable solution:

- * Use NFS storage over 1GbE. (D)
- * Provides shared storage accessible to both ESXi hosts.

Other options:

- * A. vSAN # Needs 3+ nodes or a witness, not supported in this config.
- * B. Local storage # Not shared, fails HA/DRS requirements.
- * C. Fiber Channel # Requires HBAs and FC switch, not available.

NEW QUESTION # 49

Which action allows a Content Library in VMware vSphere Foundation (VVF) to be accessed by other VMware vCenter Server instances?

- **A. Publish the Content Library.**
- B. Enable automatic synchronization.
- C. Store the library on a shared NFS datastore.
- D. Store the library on a vSAN datastore.

Answer: A

Explanation:

To allow a Content Library in vSphere Foundation to be accessed by other vCenter Server instances, it must be published.

* Once published, other vCenters can subscribe to the library.

* Synchronization ensures subscribed vCenters receive updated templates and ISOs.

Other options:

* A. Automatic synchronization# Works only for subscribers, not for publishing.

* B. Store on vSAN datastore# Storage choice does not enable multi-vCenter access.

* C. Store on NFS datastore# Similar, datastore type does not matter.

NEW QUESTION # 50

.....

If you want to pass exam and get the related certification in the shortest time, the 2V0-16.25 2V0-16.25 study materials from our company will be your best choice. Although there are a lot of same study materials in the market, we still can confidently tell you that our 2V0-16.25 Study Materials are most excellent in all aspects. With our experts and professors' hard work and persistent efforts, the 2V0-16.25 study materials from our company have won the customers' strong support in the past years.

Free 2V0-16.25 Sample: <https://www.guidetorrent.com/2V0-16.25-pdf-free-download.html>

Our 2V0-16.25 latest exam torrent can boost your confidence and help you prepare thoroughly for the actual test. As a widely recognized certification examination, VMware Free 2V0-16.25 Sample certification exams are becoming more and more popular. Soft (PC Test Engine) of Free 2V0-16.25 Sample - VMware vSphere Foundation 9.0 Administrator VCE files is for candidates who are used to learning on computer. We trust our 2V0-16.25 test braindumps: VMware vSphere Foundation 9.0 Administrator is valid and high quality, most candidates should pass exam certainly.

Jim helps developers make the most of Microsoft technologies. The Valid 2V0-16.25 Real Test lesson covers the role of load balancers, web and application servers, databases, and the underlying systems environment.

Our 2V0-16.25 latest exam torrent can boost your confidence and help you prepare thoroughly for the actual test. As a widely recognized certification examination, VMware certification exams are becoming more and more popular.
