Which of the following will return results?

- B. 'weekly_sales(3)
- C. 'weekly_sales(3.99, 10)
- D. 'weekly_sales (3.99, 10)

Answer: D

Explanation:
The correct answer is C. 'weekly_sales (3.99, 10)'. This is because search macros accept arguments without quotation marks or dollar signs, and the number of arguments must match the number of parameters defined in the macro. The other options are incorrect because they either use quotation marks or dollar signs around the arguments, or they provide a different number of

arguments than the macro expects. You can learn more about how to use search macros in searches from the Splunk documentation1.
