(NCP-US) exam. While attempting the exam, take heed of the clock ticking, so that you manage the Nutanix Certified Professional - Unified Storage v6.5 (NCP-US) questions in a time-efficient way. Even if you are completely sure of the correct answer to a question, first eliminate the incorrect ones, so that you may prevent blunders due to human error.

## Nutanix Certified Professional - Unified Storage v6.5 Sample Questions (Q95-Q100):

### NEW QUESTION # 95

Which tool allows a report on file sizes to be automatically generated on a weekly basis?

- A. File Analytics
- B. Data Lens
- C. Files Console via Prism Element
- D. Files view in Prism Central

**Answer: B**

### NEW QUESTION # 96

An administrator created a bucket for an upcoming project where internal users as well as an outside consultant .... Object Browser. The administrator needs to provide both internal and consultant access to the same bucket.

The organization would like to prevent internal access to the consultant, based on their security policy.

Which two items are required to fulfill this requirement (Choose two.)

- A. Configure Directory Services under the Access Keys section
- B. Generate access keys using third-party software.
- C. Install third-party software for bucket access to all users.
- D. Generate access keys based on directory and email-based users.

**Answer: A,D**

### NEW QUESTION # 97

An administrator has been requested to set up a Files instance in a Nutanix environment. After testing data in the environment, it was determined an estimated 4,000 connections on average will be needed per node. What is the proper memory sizing that the administrator should use to configure this environment?

- A. 32 GiB RAM per node
- B. 128 GiB RAM per node
- C. 40 GiB RAM per node
- D. 96 GiB RAM per node

**Answer: D**

### NEW QUESTION # 98

An administrator is upgrading Files and receives the following error message:  
failed to reach fileserver.

In which way should the administrator resolve this issue?

- A. SSH into the FSVM and execute command minewa stop fsm
- B. SSH into FSVM using Internal IP and execute cluster status
- C. SSH into the FSVM and execute command cluster restart
- D. SSH into FSVM using Internal IP and execute command cluster start

**Answer: B**

Explanation:

According to Nutanix Support & Insights1, 'The issue might occur because of the following. Nutanix files node (fsvms) might not be up or accessible.' Therefore, the administrator should SSH into FSVM using Internal IP and execute cluster status to check if the

FSVM is running and reachable.

### NEW QUESTION # 99

An administrator configured WORM on an existing Objects bucket at 4 p.m. on Monday. During the configuration, the administrator did not select Enable Version. At 8 a.m. the next morning, a ticket was submitted to update the bucket to include versioning. What are the correct steps to make the requested change?

- A. Disable WORM and reconfigure with Enable Version and Enable WORM checked as it has been less than 24 hours since WORM was enabled.
- B. Create a new bucket with Enable Version selected and migrate all data since versioning cannot be changed after 12 hours once WORM is enabled.
- C. Create a bucket with Enable Version selected and migrate all data since versioning cannot be changed immediately after WORM is enabled.
- D. update the WORM settings to Enable Version as that setting can be turned on at any point after WORM is enabled.

**Answer: A**

Explanation:

According to the Nutanix Unified Storage (NCP-US) v6 documentation, once WORM (Write-Once-Read-Many) has been enabled on an Objects bucket, versioning cannot be immediately enabled. Instead, the WORM configuration must be disabled and then re-enabled, this time with Enable Version and Enable WORM checked. Since the administrator did not select Enable Version during the initial configuration, this step is necessary in order to enable versioning.

<https://portal.nutanix.com/page/documents/solutions/details?targetId=NVD-2151-Unified-Storage:data-immutability-and-versioning.html> You can disable WORM within 24 hours of enabling it on a bucket1. This will allow you to change the versioning settings on the bucket.

### NEW QUESTION # 100

.....

The information technology market has become very competitive. Nutanix NCP-US technologies and services are constantly evolving. Therefore, the Nutanix NCP-US certification has become very important to advance one's career. Success in the Nutanix Certified Professional - Unified Storage v6.5 NCP-US exam validates and upgrades your skills in Nutanix NCP-US technologies.
