NEW QUESTION # 244

The Administrator at Universal Container wants to add branding to salesforce.

Which two considerations should the administrator keep in mind?

Choose 2 Answers

- A. Themes apply to salesforce classic and to the salesforce mobile app.
- **B. Chatter external users see the built-in Lightning theme only.**
- C. Up to 150 custom themes can be created, modified, or cloned from the built-in themes.
- **D. Only one theme can be active at a time, and a theme applies to the entire org.**

Answer: B,D

Explanation:

Explanation

Themes are a way to customize the look and feel of Salesforce by changing the colors, images, and logos that appear on Lightning Experience pages. However, there are some limitations and considerations when using themes, such as: only one theme can be active at a time, and a theme applies to the entire org; themes apply only to Lightning Experience and do not affect Salesforce Classic or the Salesforce mobile app; up to 300 custom themes can be created, modified, or cloned from the built-in themes; Chatter external users see the built-in Lightning theme only and cannot see custom themes. NEW QUESTION # 245

An administrator at Universal Containers has been asked to prevent users from accessing Salesforce from outside of their network. What are two considerations for this configuration?

Choose 2 answers

- A. IP address restrictions are set on the profile or globally for the org
- B. Restrict U2F Security Keys on the user's profile to enforce login hours.
- C. Enforce Login IP Ranges on Every Request must be selected to enforce IP restrictions.
- D. Assign single sign-on to a permission set to allow users to log in when outside the network.

Answer: A,B

Explanation:

Explanation

Two considerations for preventing users from accessing Salesforce from outside of their network are:

IP address restrictions are set on the profile or globally for the org, which limit login access based on IP ranges specified by an administrator Restrict U2F Security Keys on the user's profile to enforce login hours, which require users to use security keys during certain hours of day Assigning single sign-on to a permission set or enforcing Login IP Ranges on Every Request will not prevent users from accessing Salesforce from outside of their network.
