

# Interactive 1Z1-771 Practice Exam - 1Z1-771 Latest Exam Question

BONUS!!! Download part of Itexamguide 1Z1-771 dumps for free: [https://drive.google.com/open?id=1VJEj2UjdGGCQ-6xpq\\_FBiQj4ZF2J6lI](https://drive.google.com/open?id=1VJEj2UjdGGCQ-6xpq_FBiQj4ZF2J6lI)

As long as you get to know our 1Z1-771 exam questions, you will figure out that we have set an easier operation system for our candidates. Once you have a try, you can feel that the natural and seamless user interfaces of our 1Z1-771 study materials have grown to be more fluent and we have revised and updated 1Z1-771 learning braindumps according to the latest development situation. Without doubt, we are the best vendor in this field and we also provide the first-class service for you.

We offer you free update for one year after purchasing, that is to say, in the following year, you will get the updated version for 1Z1-771 learning materials for free. And our system will immediately send the latest version to your email address automatically once they update. What's more, the 1Z1-771 Learning Materials are high quality, and it will ensure you to pass the exam successfully. Pass guarantee and money back guarantee if you can't pass the exam.

## Newest Oracle Interactive 1Z1-771 Practice Exam Are Leading Materials & Authoritative 1Z1-771: Oracle APEX Cloud Developer Professional

The experts in our company have been focusing on the 1Z1-771 examination for a long time and they never overlook any new knowledge. The content of our 1Z1-771 study materials has always been kept up to date. Don't worry if any new information comes out after your purchase of our 1Z1-771 Practice Braindumps. We will inform you by E-mail when we have a new version and send it to you right away. So as long as you buy our 1Z1-771 learning guide, you can always have the latest exam questions and answers.

### Oracle 1Z1-771 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"><li>Migrating Application Development Between Environments: This section measures the abilities of DevOps Engineers in managing application deployments. It includes exporting and importing application artifacts, performing remote deployments, and maintaining working copies to ensure smooth transitions between development environments.</li></ul>
Topic 2	<ul style="list-style-type: none"><li>Adding Computations, Processes, Validations, and Branches: This section measures the knowledge of Backend Developers in implementing application logic. It focuses on configuring computations, processes, validations, and page branches to automate workflows and ensure data integrity.</li></ul>
Topic 3	<ul style="list-style-type: none"><li>Creating and Using Dynamic Actions and Plug-ins: This section tests the expertise of Developers in implementing dynamic actions. It covers configuring event-driven behaviors and integrating plug-ins to create responsive and interactive application features.</li></ul>
Topic 4	<ul style="list-style-type: none"><li>Managing Application Data: This section evaluates the expertise of Data Engineers in handling application data. It covers using collections, managing REST-enabled SQL references, integrating REST Data Sources, and synchronizing data across different environments.</li></ul>

Topic 5	<ul style="list-style-type: none"> <li>Implementing Security in Your Application: This section evaluates the knowledge of Security Specialists in securing APEX applications. It covers authentication schemes, authorization controls, and session state protection to ensure application security and user access management.</li> </ul>
Topic 6	<ul style="list-style-type: none"> <li>Getting Started with Oracle APEX on the Oracle Autonomous Database: This section of the exam measures the skills of APEX Developers in understanding Oracle APEX and its core components. It covers the creation and management of workspaces, providing an overview of how APEX integrates with the Oracle Autonomous Database to streamline application development.</li> </ul>
Topic 7	<ul style="list-style-type: none"> <li>Extending Application Capabilities: This section measures the skills of APEX Developers in enhancing application functionality. It includes sending automated emails, implementing plug-ins, and utilizing automation features to improve efficiency and extend capabilities.</li> </ul>
Topic 8	<ul style="list-style-type: none"> <li>Developing Reports: This section assesses the skills of Report Developers in creating interactive reports and dashboards. It involves customizing reports, working with faceted search pages, integrating smart filters, and designing visually appealing data presentations using Oracle APEX.</li> </ul>
Topic 9	<ul style="list-style-type: none"> <li>Using SQL Workshop: This section evaluates the expertise of Database Developers in managing database objects using SQL Workshop. It includes creating and modifying database structures, running SQL commands and scripts, and efficiently loading and unloading data through the Data Workshop utility to simplify database interactions.</li> </ul>
Topic 10	<ul style="list-style-type: none"> <li>Managing Pages and Regions: This section measures the knowledge of UI Designers in structuring application layouts. It covers creating different types of pages and regions, managing page components within Page Designer, and ensuring an optimized user interface for applications.</li> </ul>
Topic 11	<ul style="list-style-type: none"> <li>Creating an APEX Application: This section tests the abilities of Application Developers in building APEX applications. It focuses on creating applications from existing tables and external files, providing a fundamental understanding of the App Builder tool and its role in application development.</li> </ul>
Topic 12	<ul style="list-style-type: none"> <li>Leveraging Generative AI in Oracle APEX: This section tests the knowledge of AI Developers in integrating AI-powered features within APEX applications. It involves using APEX Assistant for code generation, creating AI-driven data models, and implementing AI-powered text generation using dynamic actions.</li> </ul>
Topic 13	<ul style="list-style-type: none"> <li>Implementing Navigation in Your Application: This section assesses the skills of UX Designers in designing smooth application navigation. It includes configuring shared components, setting up search functionalities, and enhancing user experience with intuitive navigation structures.</li> </ul>
Topic 14	<ul style="list-style-type: none"> <li>Creating and Using Forms: This section evaluates the proficiency of Form Developers in designing user-friendly forms. It covers creating interactive grids, developing simple forms linked to reports, and implementing master-detail forms for effective data management.</li> </ul>
Topic 15	<ul style="list-style-type: none"> <li>Using Themes and Theme Styles: This section tests the abilities of UI Designers in applying visual themes to applications. It involves selecting and customizing themes, using Theme Roller for design adjustments, and creating template components for consistent branding.</li> </ul>
Topic 16	<ul style="list-style-type: none"> <li>Creating Progressive Web Apps: This section assesses the skills of Web Developers in building Progressive Web Applications (PWAs). It includes enhancing application accessibility, implementing push notifications, and optimizing applications for seamless cross-device experiences.</li> </ul>
Topic 17	<ul style="list-style-type: none"> <li>Adding Additional Pages to Your Application: This section assesses the skills of Application Developers in expanding application functionalities. It involves creating Oracle JET charts, calendars, trees, and maps to enhance data visualization and user interaction.</li> </ul>
Topic 18	<ul style="list-style-type: none"> <li>Creating Application Page Controls: This section tests the abilities of Frontend Developers in implementing interactive page elements. It includes creating page-level items, buttons, and controls that enhance navigation and user interaction within APEX applications.</li> </ul>

## Oracle APEX Cloud Developer Professional Sample Questions (Q20-Q25):

### NEW QUESTION # 20

Which two statements are true about the APEX\_MAIL API?

- A. You can receive emails using the APEX\_MAIL package in an Oracle APEX application.
- B. You can add files as attachments to your emails using the APEX\_MAIL package.
- C. The APEX\_MAIL package supports sending emails only to Oracle database users.
- D. You can send emails using the APEX\_MAIL package from an Oracle APEX application.

**Answer: B,D**

Explanation:

The APEX\_MAIL API facilitates email functionality:

A . You can add files as attachments: Using APEX\_MAIL.ADD\_ATTACHMENT (e.g., APEX\_MAIL.ADD\_ATTACHMENT(p\_mail\_id, p\_attachment, p\_filename)), you can attach BLOBs (e.g., PDFs) to emails.

C . You can send emails: APEX\_MAIL.SEND (e.g., APEX\_MAIL.SEND(p\_to => 'user@example.com', p\_body => 'Hello')) sends emails from APEX, leveraging the configured mail server.

B . You can receive emails: False; APEX\_MAIL is send-only; receiving requires custom integration (e.g., IMAP).

D . Only to Oracle database users: False; emails can go to any valid address, not just database users.

Pitfall: Ensure the mail queue is processed (APEX\_MAIL.PUSH\_QUEUE) for timely delivery.

### NEW QUESTION # 21

Which three statements are true about Data Workshops in Oracle APEX?

- A. You can load or unload a single table at a time.
- B. You can unload data from a new or existing table.
- C. You can load data into a new or existing table.
- D. You can load or unload multiple tables at a time.

**Answer: A,B,C**

Explanation:

Data Workshop in SQL Workshop is a powerful tool for importing/exporting table data:

B . You can load or unload a single table at a time: The wizard focuses on one table per operation. For loading, you upload a file (e.g., CSV) and map it to a single table; for unloading, you select one table to export (e.g., EMP to CSV). This granularity ensures precision and simplicity.

C . You can unload data from a new or existing table: Unloading (exporting) works on any table in the schema, whether newly created (e.g., via Quick SQL) or pre-existing (e.g., DEPT). The "Unload" option generates a file (e.g., CSV, JSON) from the table's data.

D . You can load data into a new or existing table: Loading supports creating a new table from the uploaded file (e.g., CSV defines NEW\_EMP) or appending/overwriting an existing one (e.g., EMP). The wizard prompts for table creation or selection.

A . You can load or unload multiple tables at a time: False; Data Workshop processes one table per wizard run. Multiple tables require separate operations or custom SQL scripts.

Technical Insight: Loading uses APEX\_DATA\_LOADING internally, parsing files into rows, while unloading leverages APEX\_DATA\_EXPORT. For example, uploading emp.csv with "Create New Table" generates a table with inferred columns.

Use Case: Migrating EMP data from a legacy system (CSV) into APEX, then exporting it later for analysis.

Pitfall: Multi-table operations need SQL Scripts or external tools like SQL Developer.

### NEW QUESTION # 22

What do you achieve by performing the "Refresh Working Copy" task?

- A. Get the latest updates from the Main application.
- B. Merge the Working Copy changes with the Main application.
- C. Update the changes from one Working Copy to another.

**Answer: A**

Explanation:

Working Copies in APEX allow safe experimentation:

C . Get the latest updates from the Main application: "Refresh Working Copy" (in App Builder > Working Copies) pulls changes from the Main application into the Working Copy, ensuring it reflects the latest state (e.g., new pages, fixes) without overwriting Working Copy changes.

A . Merge with Main: Merging is a separate "Merge Working Copy" task.

B . Update between Working Copies: Not supported; refreshing is Main-to-Working only.

Practical note: Use this to sync collaborative development efforts.

### NEW QUESTION # 23

The Movies faceted search report is filtered only when the Apply button for a selected facet is clicked. What must be done in the Page Designer so that report filtering is automatically executed when any facet value is selected?

- A. Navigate to the faceted search region Attributes, and turn off the Show Facet Name attribute.
- **B. Navigate to the faceted search region Attributes, and disable the Batch Facet Changes attribute.**
- C. Navigate to each facet and then in the Property Editor, turn on Client-Side Filtering.

#### Answer: B

Explanation:

By default, faceted search can "batch" changes, requiring an "Apply" button click to filter the report. To enable automatic filtering: Disable the Batch Facet Changes attribute: In Page Designer, under the Faceted Search region's Attributes, setting "Batch Facet Changes" to "No" ensures the report refreshes immediately when a facet value is selected, improving responsiveness. This triggers an AJAX call to update the report without a manual submit.

Show Facet Name: This controls facet label visibility, unrelated to filtering behavior.

Client-Side Filtering: This applies to Interactive Reports/Grids, not faceted search regions, and isn't the correct solution here.

This adjustment enhances the user experience by providing instant feedback.

### NEW QUESTION # 24

Which search type in keywords do they represent in Oracle Text?

- A. List
- B. Standard
- **C. Oracle Text**

#### Answer: C

Explanation:

In Oracle APEX, when configuring search functionality (e.g., in reports or faceted search), "Oracle Text" refers to a specific search type leveraging the Oracle Text engine. This is a powerful full-text search capability built into Oracle Database, supporting keyword-based searches, fuzzy matching, and indexing.

Standard: A basic SQL-based search (e.g., LIKE), not tied to Oracle Text.

List: Not a search type; it might refer to a UI component or LOV, not a search mechanism.

Oracle Text: Explicitly uses the CONTAINS operator and text indexes (e.g., CONTEXT or CTXCAT) for advanced search features, ideal for large datasets or complex queries.

This choice impacts performance and accuracy, especially in text-heavy applications.

### NEW QUESTION # 25

.....

About the upcoming 1Z1-771 exam, do you have mastered the key parts which the exam will test up to now? Everyone is conscious of the importance and only the smart one with smart way can make it. When new changes or knowledge are updated, our experts add additive content into our 1Z1-771 latest material. They have always been in a trend of advancement. Admittedly, our 1Z1-771 Real Questions are your best choice. We also estimate the following trend of exam questions may appear in the next exam according to syllabus. So they are the newest and also the most trustworthy 1Z1-771 exam prep to obtain.
