# Valid NCP-US Exam Pdf & New NCP-US Dumps Free

What's more, part of that PrepAwayTest NCP-US dumps now are free: https://drive.google.com/open?id=1g-atKrYl_qbLXPqwAO_Oi3LK8g85tvJq

PrepAwayTest NCP-US product in above-mentioned three formats carries most probable real exam questions. Every person who attempts the exam has different preparation style. Some want to do in-depth study while some prefer quick Nutanix Certified Professional - Unified Storage v6.5 test preparation. PrepAwayTest has introduced these three formats so every applicant of the test can prepare as per unique learning styles. In addition, we offer up to 1 year of free questions updates, free demos, discounts, and a 24/7 customer support. Don't miss these incredible offers. Purchase real exam questions today.

Many don't find real Nutanix Certified Professional - Unified Storage v6.5 exam questions and face loss of money and time. PrepAwayTest made an absolute gem of study material which carries actual Nutanix Certified Professional - Unified Storage v6.5 (NCP-US) Exam Questions for the students so that they don't get confused in order to prepare for Nutanix Certified Professional - Unified Storage v6.5 (NCP-US) exam and pass it with a good score. The NCP-US practice test questions are made by examination after consulting with a lot of professionals and receiving positive feedback from them.

Reliable Nutanix NCP-US Exam Study Material from PrepAwayTest

Career grooming with NCP-US exams are your right. Rather, it has become necessary in the most challenging scenario of enterprises. Like most of the professionals, you might find it tough and beyond your limits. Here comes the role of PrepAwayTest NCP-US Dumps to encourage you and make it possible for you to step ahead with confidence. The growing network of our clientele proves that our dumps work wonders and help you gain a definite success in your NCP-US certification exams.

Nutanix Certified Professional - Unified Storage v6.5 Sample Questions (Q62-Q67):

NEW QUESTION # 62
An administrator is implementing two production networks for Nutanix Objects:
Objects Storage Network (internal)
Objects Public Network (external)In which two ways is it recommended the administrator configure these networks? (Choose two.)

- A. Objects Storage Network on a different network to the Controller VM (CVM).
- B. Objects Storage Network and Objects Public Network on the same Virtual Network.
- C. Objects Storage Network and Objects Public Network on different Virtual Networks.
- D. Objects Storage Network on the same network as the Controller VM (CVM).

Answer: A,C

NEW QUESTION # 63

A company uses a Nutanix 3-node cluster environment. In Prism Pro, the Capacity Runway shows these capacity values:
Max Capacity: 6 TiB
Effective Capacity 4 TiB
The company wants to upgrade the environment to use an RF3 container and also requires all cluster nodes to be the same model,
What must the effective capacity Of the Nutanix cluster be to support the new RF3 container?

- A. 6 TiB
- B. 9 TiB
- C. 10 TIB
- D. 4 TiB

Answer: B

Explanation:
To support a new RF3 container, the effective capacity of the Nutanix cluster must be at least three times the size of the data that needs to be stored on it3. This is because RF3 means that each data block is replicated three times across different nodes or blocks for fault tolerance3.
This is because if you have 4 TiB of effective capacity with RF2 (which means each data block is replicated twice), then you need 9 TiB of effective capacity with RF3 (which means each data block is replicated three times).

NEW QUESTION # 64

A DevOps engineer needs to backup a newly-deployed NKE development cluster that contains persistent volumes with MySQL Data.
Which solution should the DevOps engineer use?

- A. Files
- B. Storage Container
- C. Volumes
- D. Objects

Answer: C

Explanation:
Nutanix Volumes is a block storage service that provides persistent storage for containerized applications running on Nutanix Kubernetes Engine (NKE). The NKE clusters are deployed with a Nutanix CSI driver that natively integrates with Volumes to enable backup and disaster recovery capabilities. Files is a file storage service that supports SMB and NFS protocols. Objects is an object storage service that supports S3-compatible APIs. Storage Container is a logical grouping of physical disks in a cluster.

NEW QUESTION # 65

What process is initiated when a share is protected for the first time?

- A. The share is created on the recovery site with a similar configuration.
- B. A local snapshot is created for the share.
- C. A remote snapshot is created for the share.
- D. Share data movement is started to the recovery site.

Answer: B

NEW QUESTION # 66

An administrator needs to enable a Nutanix feature that will ensure automatic client reconnection to shares whenever there are intermittent server-side networking issues and FSVM HA events. Which Files feature should the administrator enable?

- A. Persistent File Handles
- B. Multi-Protocol Shares
- C. Connected Shares
- D. Durable File Handles

Answer: D
