

GH-900練習問題 & GH-900全真模擬試験

2026年CertJukenの最新GH-900 PDFダンプおよびGH-900試験エンジンの無料共有: https://drive.google.com/open?id=1kl-XX_dtQLKvL4HBFqWakG3zRnv3jpwv

多くの人は自分の能力を向上させる方法を模索しています。では、どうしたらいいですか？一番よい方法はGH-900試験参考書を買うことです。GH-900試験参考書を30時間ぐらい勉強したら、GH-900試験に参加できます。そして、彼らは無事にGH-900試験に合格しました。本当に驚きました！

Microsoft GH-900 認定試験の出題範囲:

トピック	出題範囲
トピック 1	• Modern Development: This domain assesses abilities of DevOps Engineers and Continuous Integration Specialists in implementing modern development practices. It emphasizes understanding DevOps principles and leveraging GitHub Actions for automation and CI • CD pipeline implementation. Candidates also learn GitHub's tools and best practices for conducting and managing code reviews.

トピック 2	• Collaboration Features: This section measures skills of Software Engineers and Team Leads and covers collaborative workflows using GitHub. It includes forking repositories, creating and managing pull requests, reviewing and merging code changes, and using GitHub Actions to support CI • CD pipelines. Candidates also explore project management features such as creating and managing issues, using labels, milestones, and project boards, and tracking progress through GitHub Projects.
トピック 3	• Privacy, Security, and Administration: This domain measures skills of Security Administrators and Organization Managers in securing and administering GitHub environments. It covers ensuring repository security through branch protection rules, using security tools like Dependabot, managing access and permissions at repository and organization levels, creating and managing organizations, setting up organization-level security, and overseeing teams and members.
トピック 4	• Project Management: This section is designed for Project Coordinators and Product Managers and focuses on using GitHub Projects for project management. Candidates learn to create and manage GitHub Projects, utilize project boards for organizing tasks, and integrate project workflows with issues and pull requests to maintain project visibility and progress.

GH-900全真模擬試験 & GH-900復習攻略問題

GH-900の実践教材を使用することで、以前に想像していた以上の成果を絶対に得ることができます。GH-900の実際のテストを選択した顧客から収集された明確なデータがあり、合格率は98~100%です。したがって、成功を収めるチャンスは、GH-900ブレイクダンプ資料によって大幅に増加します。さらに、一連の利点があります。したがって、GH-900の実際のテストの重要性は言うまでもありません。今すぐご注文いただいた場合、1年間無料の更新をお送りします。

Microsoft GitHub Foundations 認定 GH-900 試験問題 (Q23-Q28):

質問 # 23

What layouts are available for GitHub Projects?

(Each answer presents a complete solution. Choose three.)

- A. Kanban
- B. Table
- C. Board
- D. Backlog
- E. Roadmap

正解: A、B、C

解説:

GitHub Projects supports various layouts to help teams organize and visualize their work. The available layouts include:

B . Kanban: This is a visual task management tool where tasks are represented as cards and moved across columns that represent different stages of work.

C . Board: This layout is similar to Kanban but can be more flexible, allowing users to set up boards in various ways to suit their workflow needs.

D . Table: The Table layout allows you to view your tasks in a spreadsheet-like format, making it easy to manage and edit large amounts of data at once.

Roadmap and Backlog are not standard layouts provided by GitHub Projects. While these terms might be relevant in other project management contexts, GitHub Projects specifically offers Kanban, Board, and Table layouts.

質問 # 24

Which of the following are displayed in the "Pinned Repositories" section of a GitHub user profile?

- A. Repositories with the highest number of stars

- B. Repositories that were personally selected to be highlighted
- C. Repositories with the most recent activity
- D. Repositories that are owned by organizations in which the user is a member

正解: B

解説:

The "Pinned Repositories" section of a GitHub user profile displays repositories that were personally selected to be highlighted by the user. Users can choose which repositories they want to feature prominently on their profile, regardless of recent activity, star count, or organizational ownership.

質問 # 25

Workflows can reference actions in:

(Each correct answer presents a complete solution. Choose three.)

- A. Any public repository.
- B. The same repository as your workflow file.
- C. An enterprise marketplace.
- D. GitHub Packages.
- E. A published Docker container image on Docker Hub.

正解: A、B、E

解説:

In GitHub Actions workflows, actions can be referenced from various sources depending on the needs of the workflow.

Any Public Repository:

Option A is correct. Actions can be referenced from any public GitHub repository, allowing the reuse of shared actions across multiple projects.

The Same Repository as Your Workflow File:

Option B is correct. Actions stored in the same repository as the workflow file can be referenced directly, which is common for custom actions specific to that project.

A Published Docker Container Image on Docker Hub:

Option E is correct. Workflows can reference actions that are provided as Docker container images hosted on Docker Hub, allowing integration of complex tools and environments.

Incorrect Options:

Option C (GitHub Packages) is incorrect as it is more commonly used for storing and managing dependencies, not actions.

Option D (An enterprise marketplace) is incorrect because GitHub Actions are not directly referenced from an enterprise marketplace but rather from public repositories or Docker images.

質問 # 26

Which of the following information is available by default in a user's GitHub profile?

- A. Public Secure Shell Protocol (SSH) keys
- B. A list of the user's private repositories
- C. Personal biography and profile picture
- D. Email address and password

正解: C

解説:

A user's GitHub profile typically includes public information such as a personal biography, profile picture, and a list of public repositories. More sensitive information, like email addresses and passwords, is not publicly displayed.

Personal Biography and Profile Picture:

Option A is correct because these are standard elements displayed on a user's public GitHub profile. This information is meant to provide a brief introduction to the user and their interests or skills.

Incorrect Options:

Option B is incorrect because public SSH keys may be associated with a user's account but are not displayed by default on the

GitHub Docs: Managing Your Profile

How can a user highlight a post to the top of the Discussions page?

- A. Create an issue from the discussion.
- B. Save the discussion.
- C. Pin the discussion.
- D. Star the discussion.

To highlight a post at the top of the Discussions page on GitHub, you can Pin the discussion. Pinning a discussion ensures it remains prominently visible at the top of the list, making it easier for others to find and participate in that discussion. This is particularly useful for important announcements or frequently referenced topics.
