SAP Certified Associate - Positioning SAP Business Suite via SAP Financial Management Solutions Sample Questions (Q52-Q57):

NEW QUESTION # 52

What are the five key pillars of SAP Financial Management Solutions to support the business needs of CFOs?

- A. Accounting & Financial Close, Field Service Management, Financial Planning & Analysis, Quote-to- Cash, Treasury & Working Capital.
- B. Financial Planning & Analysis, Governance, Risk & Compliance, Integrated Business Planning, Quote- to-Cash, Treasury & Working Capital.
- C. Accounting & Financial Close, Financial Planning & Analysis, Governance, Risk & Compliance, Quote-to-Cash, Inventory Management & Stock Control.
- **D. Accounting & Financial Close, Financial Planning & Analysis, Governance, Risk & Compliance, Quote-to-Cash, Treasury & Working Capital.**

Answer: D

Explanation:

Comprehensive and Detailed 150 to 250 words of Explanation From Positioning SAP Business Suite via SAP Financial Management Solutions documents:

SAP structures its Financial Management portfolio around five strategic pillars designed to cover the end-to- end responsibilities of the modern CFO. These pillars include:

* Accounting & Financial Close: Focused on the "Record-to-Report" process, ensuring a fast, accurate, and compliant closing cycle using the Universal Journal.

* Financial Planning & Analysis (FP&A): Enabling continuous planning, budgeting, and forecasting combined with real-time performance analysis.

* Governance, Risk & Compliance (GRC): Protecting the business by embedding automated controls, identity governance, and international trade compliance into operations.

* Quote-to-Cash: Managing the entire lifecycle of a sale, from initial offer to revenue recognition and cash collection, supporting modern subscription-based models.

* Treasury & Working Capital: Optimizing liquidity, managing financial risks, and ensuring efficient bank connectivity and cash flow.

These pillars represent the holistic "Office of the CFO" strategy. Options like Field Service Management (A), Inventory Management (C), or Integrated Business Planning (D) are important operational areas within the broader SAP ERP ecosystem, but they are not categorized as the five core pillars specifically defined for Financial Management Solutions when positioning the suite to finance leadership.

NEW QUESTION # 53

What are the primary advantages of the Invoice-to-Pay (I2P) process within SAP S/4HANA Finance?

- A. It automates manual tasks related to accounts receivable and financial reconciliation.
- B. It aims to enhance working capital management through managing outgoing invoicing and customer.
- C. It enhances procurement through standalone systems, independent of accounts payable operation.
- **D. It works across Accounts Payable, Payment Management, and Supplier Management to streamline operation.**

Answer: D

Explanation:

Comprehensive and Detailed 150 to 250 words of Explanation From Positioning SAP Business Suite via SAP Financial Management Solutions documents:

The Invoice-to-Pay (I2P) process in SAP S/4HANA Finance is a critical component of the "Expenditure Management" lifecycle. Its primary advantage is its holistic integration; it works across Accounts Payable, Payment Management, and Supplier Management to create a seamless, end-to-end workflow. Unlike legacy environments where these functions are disconnected, SAP provides a unified platform where an invoice is automatically matched against purchase orders and receipts (3-way match), verified for compliance, and scheduled for payment based on optimized cash flow strategies.

By streamlining these operations, I2P reduces the "cost per invoice" and ensures that the company can take advantage of early-payment discounts, which directly impacts the bottom line. Furthermore, it incorporates Supplier Management to ensure that vendor data is accurate and that payments are sent to validated accounts, reducing the risk of payment fraud. This integrated approach provides the CFO with complete visibility into upcoming liabilities and cash requirements. Option B describes the "Invoice-to-Cash" (Accounts Receivable) process, and Option A describes a siloed approach which is the opposite of SAP's value proposition of an "Integrated Digital Core." Therefore, the strength of the SAP I2P process lies in its ability to harmonize all aspects of the outgoing payment cycle into a single, automated, and secure operation.

NEW QUESTION # 54
