

# DevOps-Foundation First-grade Certification Exam Cost - 100% Pass Quiz Peoplecert DevOps-Foundation

P.S. Free 2026 Peoplecert DevOps-Foundation dumps are available on Google Drive shared by ValidVCE:  
[https://drive.google.com/open?id=1Y3OILNChXmS-QSysYHYF\\_Uq2ciM-PM1h](https://drive.google.com/open?id=1Y3OILNChXmS-QSysYHYF_Uq2ciM-PM1h)

Many platforms are offering "ValidVCE" study material for the Peoplecert DevOps-Foundation certification exam. But most of them are not valid and people who study with them fail in the PeopleCert DevOps Foundationv3.6Exam (DevOps-Foundation) Exam and lose their resources. "ValidVCE" offers actual Peoplecert DevOps-Foundation Exam Questions that will help you pass the exam on the first try and save your money. These DevOps-Foundation questions are compiled under the guidance of thousands of professionals from around the world.

If you want to be a leader in some industry, you have to continuously expand your knowledge resource. Our ValidVCE always updates the exam dumps and the content of our exam software in order to ensure the DevOps-Foundation exam software that you have are the latest and comprehensive version. No matter which process you are preparing for DevOps-Foundation Exam, our exam software will be your best helper. As the collection and analysis of our DevOps-Foundation exam materials are finished by our experienced and capable IT elite.

## DevOps-Foundation Actual Exams | DevOps-Foundation Free Brain Dumps

Passing the DevOps-Foundation exam is your best career opportunity. The rich experience with relevant certificates is important for enterprises to open up a series of professional vacancies for your choices. Our website's DevOps-Foundation learning quiz bank and learning materials look up the latest questions and answers based on the topics you choose. This choice will serve as a breakthrough of your entire career, so prepared to be amazed by high quality and accuracy rate of our DevOps-Foundation Study Guide.

## Peoplecert PeopleCert DevOps Foundationv3.6Exam Sample Questions (Q80-Q85):

### NEW QUESTION # 80

An organization is using ChatOps to improve communication and collaboration.

How can this organization transfer incident-related data from its chat client to its IT service management tool?

- A. Use an Application Programming Interface (API)
- B. It doesn't need to as ChatOps is only used for minor incidents
- C. None of the above

- D. Manually cut and paste the data

**Answer: A**

Explanation:

ChatOps is the integration of chat platforms with tools and workflows, allowing teams to manage operations and incidents directly through chat.

\* Using an API (Application Programming Interface) is the correct, scalable way to transfer incident-related data automatically from chat clients to ITSM (IT Service Management) tools, preserving traceability and reducing manual errors.

Why not manual cut/paste?

Manual processes are error-prone and slow; DevOps aims for automation and integration.

Extract-style reference:

"APIs enable seamless transfer of information between ChatOps platforms and ITSM tools, supporting automation, accuracy, and auditability in incident management."

-DevOps Handbook; ChatOps: Managing Operations and Collaboration in the Cloud, Jason Hand PeopleCert DevOps Foundation v3.6: Promotes APIs for integration, automation, and collaboration.

### NEW QUESTION # 81

What is NOT a feature of Safety Culture?

- A. Blameless post-mortems
- **B. Creating Single Points of Failures (SPOFs)**
- C. Giving thanks for learning opportunities
- D. Valuing incidents

**Answer: B**

Explanation:

Creating Single Points of Failure (SPOFs) is not a feature of Safety Culture—in fact, it's the opposite.

\* Safety Culture in DevOps promotes blameless post-mortems, valuing incidents as learning opportunities, and thanking contributors for uncovering weaknesses.

\* SPOFs increase risk and discourage experimentation.

Extract-style reference:

"Safety Culture is built on blamelessness, psychological safety, and learning from failure, not punishment.

SPOFs are an anti-pattern that increases fragility."

-The DevOps Handbook

PeopleCert DevOps Foundation v3.6: Stresses the importance of a safe, collaborative environment for innovation.

### NEW QUESTION # 82

What is NOT a type of IT work?

- **A. Manufacturing**
- B. Unplanned work
- C. Planned work
- D. Business projects

**Answer: A**

Explanation:

Manufacturing is not a type of IT work in DevOps.

DevOps classifies IT work as:

\* Business projects: New value-creating work.

\* Planned work: Routine, repeatable tasks (maintenance, upgrades).

\* Unplanned work: Incidents, emergencies, support.

Extract-style reference:

"IT work includes business projects, planned work, and unplanned work. Manufacturing is an analogy for flow, but not a category of IT work itself."

-The Phoenix Project

PeopleCert DevOps Foundation v3.6: Recognizes these three categories to manage and improve IT workloads.

### NEW QUESTION # 83

Which of the following are benefits of automation?

- A. Decreased security and risk mitigation
- B. More frequent and turbulent releases
- C. Higher quality and faster recovery
- D. Fewer errors and slower lead time

**Answer: C**

### NEW QUESTION # 84

What is the BEST description of the Theory of Constraints?

- A. A methodology for shortening feedback loops so that IT is able to understand and respond faster to customer needs
- B. A methodology for encouraging experimentation and learning so that organizations can identify constraints and practice for failure
- C. A methodology for identifying the most important limiting factor that stands in the way of achieving a goal
- D. A methodology for designing and implementing the processes that underpin deployment pipelines

**Answer: C**

Explanation:

Theory of Constraints is a methodology that seeks to identify the single, most important limiting factor (constraint) in a process and systematically improve it until it's no longer the limiting factor.

Extract-style reference:

"The Theory of Constraints provides a powerful framework for identifying bottlenecks (constraints) that limit system performance and focusing improvement efforts on these areas to maximize throughput."

-Goldratt's Theory of Constraints

DevOps Foundation syllabus discusses this as a foundational Lean concept, directly applicable to software delivery pipelines, where delays or resource shortages can restrict overall throughput.

### NEW QUESTION # 85

.....

Revised and updated according to the syllabus changes and all the latest developments in theory and practice, our DevOps-Foundation dumps are highly relevant to what you actually need to get through the certifications tests. Moreover they impart you information in the format of DevOps-Foundation questions and answers that is actually the format of your real certification test. Hence not only you get the required knowledge but also find the opportunity to practice real exam scenario. For consolidation of your learning, our DevOps-Foundation Dumps PDF file also provide you sets of practice questions and answers. Doing them again and again, you enrich your knowledge and maximize chances of an outstanding exam success.
