It means we will provide the new updates freely for you later.

Salesforce Certification Preparation for Service Cloud Consultant Sample Questions (Q157-Q162):

NEW QUESTION # 157

what approach should a consultant use to ensure that knowledge search only display articles for a service agents product specialization ?

- A. create a data category for each product assign data categories to service agents.
- B. Create an article action for each record type;assign record types to service agents
- C. Create a permission set for each record type ;assign permissions to service agents
- D. Create a page layout for each record type ;assign layouts to service agents

Answer: A

Explanation:

Creating a data category for each product and assigning data categories to service agents is an approach that can ensure that knowledge search only displays articles for a service agent's product specialization. Data categories are classifications that can be used to organize and filter knowledge articles by topic or type. Data category visibility can be set for each user profile or permission set to control which data categories are accessible for each user.
