## Free PDF Quiz 2026 Microsoft MB-800: Microsoft Dynamics 365 Business Central Functional Consultant Pass-Sure Valid Test Bootcamp

In order to make all customers feel comfortable, our company will promise that we will offer the perfect and considerate service for all customers. If you buy the MB-800 training files from our company, you will have the right to enjoy the perfect service. If you have any questions about the MB-800 learning materials, do not hesitate and ask us in your anytime, we are glad to answer your questions and help you use our MB-800 study questions well. We believe our perfect service will make you feel comfortable when you are preparing for your MB-800 exam and you will pass the MB-800 exam.

The Microsoft MB-800 Exam is an excellent opportunity if you're a Functional Consultant who wants to skill up, rank up and earn more. In connection with the rapid development of Microsoft technology, most leading organizations demand that the skills and knowledge of their employees grow and improve as well. So, considering the fact that our world is a fast-paced one, the benefit of staying on top of new information in your field becomes more glaring. One sure way to scale up is to skill up or earn a certification known as Microsoft Certified: Dynamics 365 Business Central Functional Consultant Associate.

## Microsoft Dynamics 365 Business Central Functional Consultant Sample

## Questions (Q99-Q104):

### NEW QUESTION # 99

You are implementing Dynamics 365 Business Central for a customer. The local currency code (LCY) for the company is set to US dollars (\$).

The customer plans to set up a bank account. The customer provides the following information for the account:

Account number

Name

Address

Bank account posting group

The account must meet the following requirements:

Use US dollars.

Use 9075 as the number of the next bank account statement for reconciliation in Business Central.

You need to set up the account for the customer.

Which values should you use? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

**Answer:**

Explanation:

### NEW QUESTION # 100

You need to configure the purchase order process to meet the auditor's requirements.

Which four actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

**Answer:**

Explanation:

- 1 - Change the Purchase Order to a Status of Released
- 2 - Create a warehouse receipt
- 3 - Add Items, including Quantity, to the lines
- 4 - Select Post and Receive

### NEW QUESTION # 101

You need to configure the new customer creation process.

Which two areas must you configure? Each correct answer presents part of the solution NOTE: Each correct selection is worth one point.

- A. Permissions
- B. Responsibility center
- C. Configuration template
- D. Configuration worksheet

**Answer: C,D**

Explanation:

The requirement is to configure the new customer creation process in Dynamics 365 Business Central. The goal is to make sure that when users quickly add new customers (for example, at the Cash & Carry desk), all required fields and correct defaults are consistently applied.

1. Configuration Worksheet (B)

The Configuration Worksheet is used in RapidStart Services to plan and manage setup data across tables.

It lets you map out which tables (e.g., Customers, Vendors, Items) you want to configure and load master data into.

For customer creation, this ensures that the Customer table and related setup tables are properly configured before using templates.

This acts as the foundation of the process: deciding what must be included in the customer creation workflow.

2. Configuration Template (C)

Configuration Templates define default values for new master data records (e.g., customers, vendors, items).

For example, when creating a new customer, the template can pre-fill fields like:

Posting groups

Payment terms

Customer source dimension

Responsibility center (if required)

This ensures consistency and reduces errors when users add new customers.

In this scenario, since the company wants fast and accurate customer creation, templates are essential.

Why not A (Responsibility center)?

Responsibility centers are used to manage operations by location, department, or profit center.

They are useful for reporting and segregation of transactions, but not mandatory for customer creation setup.

Why not D (Permissions)?

Permissions define who can create or modify customers.

While important for security, this is not part of the configuration process for ensuring consistent field population and defaults in customer creation.
