New CTAL_TM_001 Test Preparation, CTAL_TM_001 Pdf Files

Normally IT workers have two purposes to test for certification: one is just for certification as of job demand; two is setting one goal for striving. Why do you try our CTAL_TM_001 new exam guide materials? Our products are valid tested by more than 6000 candidates and can help you clear exam certainly. Forget your puzzled and distressed mood, choosing our ISTQB CTAL_TM_001 new exam guide materials will help you success without any doubt.

ISTQB Certified Tester Advanced Level - Test Manager Sample Questions (Q56-Q61):

NEW QUESTION # 56
The test improvement project will take place in an organization developing a safety-critical avionics application. Which one of the following standards do you believe would be most appropriate to take into account for compliance during your assignment? 1 credit

- A. ISO 9126
- B. BS 7925/2
- C. DO-178B

- D. IEEE 829

Answer: C

Explanation:

NEW QUESTION # 57
What is the purpose of lest control?

- A. To take corrective actions required to meet the test objectives
- B. To return the test environment to its starting state and data
- C. To monitor the testing
- D. To project detect trends and outcomes

Answer: A

Explanation:
* Definition:
* Test control involves monitoring and taking actions to align testing with objectives, addressing deviations in test progress or outcomes.
* Evaluation of Options:
* A. To monitor the testing:
* Incorrect. Monitoring is part of the process but does not define the purpose of test control.
* B. To return the test environment to its starting state and data:
* Incorrect. This pertains to test environment setup or cleanup, not test control.
* C. To project detect trends and outcomes:
* Incorrect. Detecting trends is part of monitoring, not control.
* D. To take corrective actions required to meet the test objectives:
* Correct. Test control is proactive, focusing on corrective measures to ensure test objectives are met (Syllabus section TM-1.5.3).

NEW QUESTION # 58
What is the purpose of tracking efficiency metrics for a formal review?

- A. These metrics can be used to determine the quality of the reviewed object.
- B. These metrics can be used to determine who participated in the review.
- C. These metrics can be used to determine if the review was a good use of resources.
- D. These metrics can be used to determine the speed with which defects were fixed.

Answer: C

Explanation:
Efficiency metrics for a formal review are used to measure the cost-effectiveness of the review process, such as the time spent on the review, the number of defects found, and the return on investment1. These metrics can help to evaluate if the review was a good use of resources, such as human effort, money, and tools.
Therefore, option B is the correct answer. Option A is incorrect because efficiency metrics do not track who participated in the review, but rather how they performed. Option C is incorrect because efficiency metrics do not measure the quality of the reviewed object, but rather the quality of the review process. Option D is incorrect because efficiency metrics do not measure the speed with which defects were fixed, but rather the speed with which defects were detected. NEW QUESTION # 59
Which of the following would you expect to see in the master test plan? 1 credit

- A. A detailed identification of the resources that will carry out structural testing in the first iteration.

- B. A list of the names of the testers who will carry out the performance testing for the final iteration.
- C. The test approach that will be applied at system integration testing.
- D. A description of how the test cases are cross-referenced to requirements in the test management tool.

Answer: C

NEW QUESTION # 60
Your organization is considering using open-source tools. You have been told you need to be aware of the terms of the GNU general public license.
What is the basic concept of this license? [1]

- A. If you're going to distribute the software, you need to do so with the same terms as were applied when you received the software.
- B. A small license fee must be paid to the supplier of the software.
- C. Anyone can use the software anytime for any reason.
- D. You are allowed to use the software internally, but it cannot be incorporated into any product for which you will receive a profit.

Answer: A

Explanation:
The GNU General Public License (GPL) is a free, copyleft license that allows users to change and share all versions of a program. The basic concept of the GPL is that if you distribute the software, you must do so under the same license terms as when you received it. This ensures that the freedoms to use, study, share, and modify the software are preserved1.
