BCS Foundation Certificate in Business Analysis V4.0 Sample Questions (Q46-Q51):

NEW QUESTION # 46
What does the O' stand for in the CATVVOE analysis?

- A. The owner of the business system under review.
- B. The organisation of the business system under review.
- C. The opportunities for change in the business system under review.
- D. The objectives of the business system under review.

Answer: A

NEW QUESTION # 47
Which of the following approaches is the variation of the Waterfall lifecycle that shows explicitly the link between the analysis stages and the testing stages?

- A. Spiral model
- B. Unified process
- C. Workflow model
- D. V model.

Answer: D

NEW QUESTION # 48
What does vertical traceability trace?

- A. The requirement in the requirements hierarchy
- B. Where a requirement originated
- C. The development and implementation of the requirement
- D. The requirement from inception to delivery

Answer: A

Explanation:
Traceability links requirements to other project artefacts. There are two main types: horizontal and vertical. Horizontal traceability (Option A) links a requirement forward to its design, code, and test cases, and backward to its source (Option D), tracing its lifecycle from inception to delivery. Vertical traceability concerns tracing a requirement up or down the requirements hierarchy (C). This ensures that lower-level requirements (e.g., functional) are aligned with and fully support the higher-level business objectives, policies, and strategy. For example, it traces a solution requirement up to the business requirement it satisfies, validating that every low-level detail is necessary and justified by a high-level business need.
(Reference: BCS Requirements Engineering - Requirements Traceability)

NEW QUESTION # 49

Which of the following terms may be used to describe the attitude of a stakeholder who is NOT in favour of the project but is probably not actively opposed to it?

- A. Opponent.
- B. Blocker.
- C. Neutral.
- D. Critic.

Answer: D

NEW QUESTION # 50
