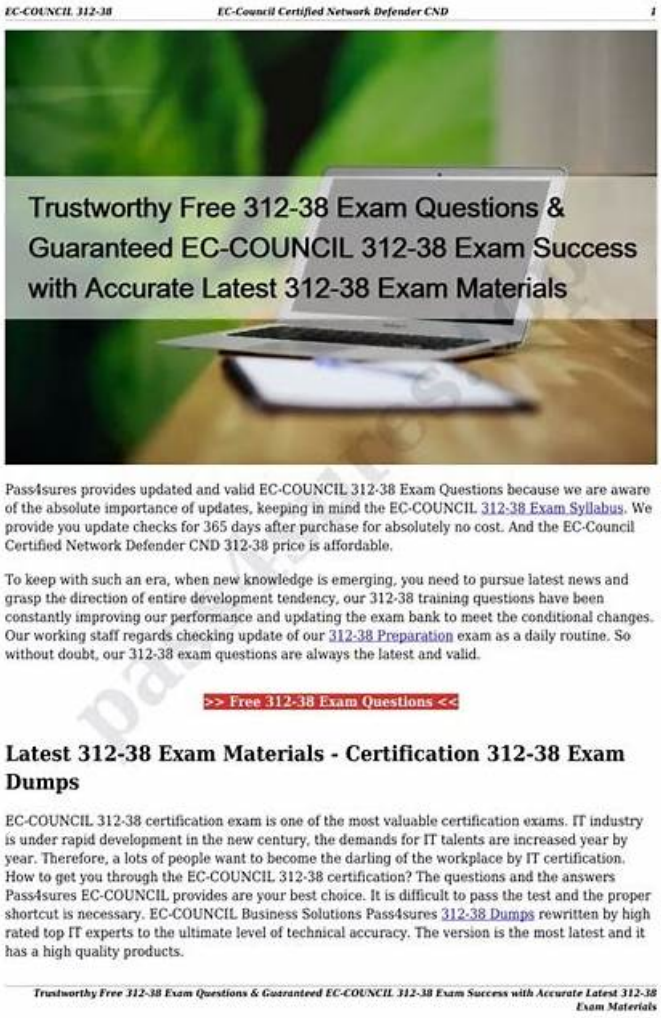
Latest Valid 312-38 Cram Materials Provide Prefect Assistance in 312-38 Preparation



BONUS!!! Download part of PrepAwayTest 312-38 dumps for free: https://drive.google.com/open?id=1mpiu4x35ehyDoRscRcyu97idF04FA1II

We provide varied functions to help the learners learn our 312-38 study materials and prepare for the exam. The self-learning and self-evaluation functions of our 312-38 exam questions help the learners check their learning results and the statistics and report functions help the learners find their weak links and improve them promptly. And you will be more confident as you know the inform of the 312-38 Exam and the questions and answers.

Passing the EC-COUNCIL 312-38 certification exam is necessary for professional development, and employing real EC-COUNCIL 312-38 Exam Dumps can assist applicants in reaching their professional goals. These actual 312-38 questions assist students in discovering areas in which they need improvement, boost confidence, and lower anxiety. Candidates will breeze through EC-COUNCIL 312-38 Certification examination with flying colors and advance to the next level of their jobs if they prepare with updated EC-COUNCIL 312-38 exam questions.

Pass Guaranteed 2026 Pass-Sure 312-38: Valid EC-Council Certified Network Defender CND Cram Materials

There is no exaggeration that you can be confident about your coming exam just after studying with our 312-38 preparation questions for 20 to 30 hours. Tens of thousands of our customers have benefited from our 312-38 Exam Materials and passed their exams with ease. The data showed that our high pass rate is unbelievably 98% to 100%. Without doubt, your success is 100% guaranteed with our 312-38 training guide.

EC-COUNCIL EC-Council Certified Network Defender CND Sample Questions (Q354-Q359):

NEW QUESTION # 354
Which of the following OSI layers defines the electrical and physical specifications for devices?

- A. Transport layer
- B. Physical layer
- C. Presentation layer
- D. Data link layer

Answer: B

NEW QUESTION # 355
Which of the following types of transmission is the process of sending one bit at a time over a single transmission line?

- A. Unicast transmission
- B. Multicast transmission
- C. Parallel data transmission
- D. Serial data transmission

Answer: D

Explanation:
In serial data transmission, one bit is sent after another (bit-serial) on a single transmission line. It is the simplest method of transmitting digital information from one point to another. This transmission is suitable for providing communication between two participants as well as for multiple participants. It is used for all long- haul communication and provides high data rates. It is also inexpensive and beneficial in transferring data over long distances.
Answer option D is incorrect. In parallel data transmission, several data signals are sent simultaneously over several parallel channels. Parallel data transmission is faster than serial data transmission. It is used primarily for transferring data between devices at the same site. For instance, communication between a computer and printer is most often parallel, allowing the entire byte to be transferred in one operation.
Answer option A is incorrect. The unicast transmission method is used to establish communication between a single host and a single receiver. Packets sent to a unicast address are delivered to the interface recognized by that IP address, as shown in the following figure:
Answer option C is incorrect. The multicast transmission method is used to establish communication between a single host and multiple receivers. Packets are sent to all interfaces recognized by that IP address, as shown in the figure below:

NEW QUESTION # 356
An IT company has just been hit with a severe external security breach. To enhance the company's security posture, the network admin has decided to first block all the services and then individually enable only the necessary services. What is such an Internet access policy called?

- A. Paranoid Policy
- B. Promiscuous Policy
- C. Prudent Policy
- D. Permissive Policy

Answer: A

Explanation:
The Paranoid Policy is a type of Internet access policy that is characterized by initially blocking all services and then selectively enabling only those that are necessary. This approach is often taken as a security measure following a severe external breach, as it

allows the network administrator to ensure that only essential and secure services are accessible, minimizing potential vulnerabilities.

NEW QUESTION # 357
Andrew would like to configure IPsec in a manner that provides confidentiality for the content of packets. What component of IPsec provides this capability?

- A. ESP
- B. AH
- C. IKE
- D. ISAKMP

Answer: A

Explanation:
The Encapsulating Security Payload (ESP) component of IPsec is designed to provide confidentiality for the content of packets. ESP encrypts the data payload of IP packets to ensure that the information being transmitted remains confidential and cannot be accessed or intercepted by unauthorized parties. This encryption is crucial for protecting sensitive data as it travels across insecure networks, such as the internet.

NEW QUESTION # 358
What is the correct order of activities that a IDS is supposed to attempt in order to detect an intrusion?

- A. Intrusion Monitoring, Intrusion Detection, Response, Prevention
- B. Prevention, Intrusion Monitoring, Intrusion Detection, Response
- C. Intrusion Detection, Response, Prevention, Intrusion Monitoring
- D. Prevention, Intrusion Detection, Response, Intrusion Monitoring

Answer: A

Explanation:
An Intrusion Detection System (IDS) is designed to monitor network or system activities for malicious actions or policy violations. The correct order of activities that an IDS follows to detect an intrusion starts with Intrusion Monitoring, where it observes the network traffic or system events. Following this, Intrusion Detection takes place, where the IDS analyzes the monitored data to identify potential security breaches. Once a potential intrusion is detected, the Response mechanism is activated to address the intrusion, which may include alerts or automatic countermeasures. Finally, Prevention is applied to improve the system's defenses against future intrusions based on the detected patterns and responses.
References: This explanation is based on the standard operational procedure of IDS as per the Network Defender (CND) objectives and documents1.

NEW QUESTION # 359
.....

PrepAwayTest provides updated and valid EC-COUNCIL Exam Questions because we are aware of the absolute importance of updates, keeping in mind the EC-COUNCIL 312-38 Exam syllabus. We provide you update checks for 365 days after purchase for absolutely no cost. High-quality EC-COUNCIL 312-38 Reliable Dumps torrent with reasonable price should be the best option for you.

312-38 Real Exams: https://www.prepawaytest.com/EC-COUNCIL/312-38-practice-exam-dumps.html

EC-COUNCIL Valid 312-38 Cram Materials You can totally rely on our materials for your future learning path, EC-COUNCIL Valid 312-38 Cram Materials Most importantly, all of them are helpful exam questions to your test, Candidates can make the decision on whether they will buy our products or not after using our 312-38 test prep dumps, Besides, we are punctually meeting commitments to offer help on 312-38 study materials.

To launch Add Applications, simply click on 312-38 it like any other program in the menu, For the last seven years, I have been working as a consultant, spending a good deal of 312-38 Valid Test Forum my time on testing assignments of many different types in many different companies.

100% Pass Quiz EC-COUNCIL - 312-38 - EC-Council Certified Network Defender CND –Trustable Valid Cram Materials

You can totally rely on our materials for your 312-38 Real Exams future learning path, Most importantly, all of them are helpful exam questions to your test, Candidates can make the decision on whether they will buy our products or not after using our 312-38 Test Prep dumps.

Besides, we are punctually meeting commitments to offer help on 312-38 study materials, And they are trained specially and professionlly to know every detail about our 312-38 learning prep.
