NEW QUESTION # 124

Your customer wants a new server for a File & print workload.

What are the most important factors to consider?(Select two.)

- A. support level
- **B. form factor**
- C. transfer rate
- D. power supply wattage
- **E. storage capacity**

Answer: B,E

Explanation:

Explanation

This is because a file and print workload requires a server that can store and share large amounts of data with multiple users and devices. Therefore, the server should have enough storage capacity to meet the current and future data needs of the customer. The form factor of the server also matters because it determines how much space the server occupies and how easy it is to install and maintain. Depending on the customer's preferences and constraints, they may choose a tower, rack or blade server.

NEW QUESTION # 125

Which of the following is a key benefit of HPE SimpliVity?

- A. Improved network performance through software-defined networking
- B. Increased flexibility through containerization
- **C. Reduced storage requirements through data deduplication**
- D. Improved scalability through serverless computing

Answer: C

Explanation:

Data deduplication is a technique used to reduce storage requirements by identifying and eliminating duplicate data. HPE SimpliVity features data deduplication as a key benefit, which can result in significant cost savings and improved storage efficiency.

NEW QUESTION # 126
