

Network Appliance NS0-005 Test Vce & Certification NS0-005 Questions

[Pass Network Appliance NS0-005 Exam | Latest NS0-005 Dumps & Practice Exams - Cert007](#)

communication with the clients using NFS or SMB protocols. ONTAP software also provides features such as data protection, efficiency, security, and performance for NAS workloads.
References = NetApp ONTAP, Provision NAS storage for both Windows and Linux using both NFS and SMB

6. Which two NetApp products offer hardware encryption? (Choose two.)
- A. NetApp Storage Encryption (NSE)
 - B. NVMe self-encrypting drives (SED)
 - C. NetApp Aggregate Encryption (NAE)
 - D. NetApp Volume Encryption (NVE)

Answer: A

Explanation:

NetApp Storage Encryption (NSE) and NVMe self-encrypting drives (SED) are two NetApp products that offer hardware encryption. Hardware encryption is a method of encrypting data at the disk level using a hardware-accelerated mechanism. NSE requires all drives in an HA pair to be purpose-built, self-encrypting drives. These drives perform the data encryption themselves through a hardware-accelerated mechanism. Because of the hardware acceleration, NSE systems usually outperform NVE systems when encrypting data. NVMe self-encrypting drives (SED) are a type of NSE drives that use the NVMe protocol to provide high performance and low latency. NVMe SEDs are supported on select NetApp AFF systems.

7. Which NetApp BlueXP product enables a customer to provide read and write access to remote Windows servers from a centralized data store?
- A. BlueXP copy and sync
 - B. BlueXP edge caching
 - C. BlueXP tiering
 - D. Cloud Volumes ONTAP

Answer: B

Explanation:

BlueXP edge caching is a NetApp BlueXP product that enables a customer to provide read and write access to remote Windows servers from a centralized data store. BlueXP edge caching allows you to cache data from a BlueXP volume or a Cloud Volume ONTAP system on a local Windows server, which improves the performance and availability of your applications. You can also sync the cached data back to the source volume, ensuring data consistency and protection.

References = BlueXP edge caching overview, BlueXP edge caching documentation, BlueXP edge caching: Accelerate access to your data

8. A customer wants to use cloud storage as part of their data strategy. Their existing storage is a mixture of NFS and SMB workloads. The customer wants a managed service to help provision these resources. Which solution should the customer choose?

As long as you study with our NS0-005 exam braindumps for 20 to 30 hours that we can claim that you will pass the exam for sure. We really need this efficiency. Perhaps you have doubts about this "shortest time." I believe that after you understand the professional configuration of NS0-005 Training Questions, you will agree with what I said. What our NS0-005 study materials contain are all the real questions and answers that will come out in the real exam.

Network Appliance NS0-005 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"> • Infrastructure: This domain covers foundational concepts including basic infrastructure components, data management principles, virtualization technologies, and AI fundamentals relevant to storage environments.
Topic 2	<ul style="list-style-type: none"> • Intelligent Data Infrastructure: This domain addresses advanced solutions including cyber resiliency, data mobility, hybrid cloud protection, storage architectures, and flexible consumption models for NetApp.

- Data Storage Software: This domain focuses on NetApp's core software platforms including SANtricity, ONTAP, and StorageGRID, along with the data management tools used to operate these systems.

NS0-005 Exam Simulation: NetApp Technology Solutions Professional Exam & NS0-005 Training Materials

A certification is not only an affirmation to your ability but also can help you enter a better company and improve your salary. NS0-005 exam cram can help you get your certification successfully. We have a professional team to collect and research the latest information for the exam, and we offer you free update for 365 days after payment, so that you can obtain the latest information. In order to build up your confidence for NS0-005 Exam Braindumps, we are pass guarantee and money back guarantee if you fail to pass the exam.

Network Appliance NetApp Technology Solutions Professional Exam Sample Questions (Q22-Q27):

NEW QUESTION # 22

You want to use the Cloud Manager solution to deploy Cloud Volumes ONTAP in your public cloud environment. In this scenario, what is deployed first to accomplish this task?

- A. ONTAP System Manager
- B. Acquisition Unit
- C. Connector
- D. Active IQ Unified Manager

Answer: C

NEW QUESTION # 23

Which NetApp technology is optimized for end-to-end NVMe performance?

- A. NetApp AFF A-Series
- B. NetApp SolidFire
- C. NetApp E-Series
- D. NetApp FAS9000

Answer: A

NEW QUESTION # 24

Which NetApp tool enables customers to address risk factors and opportunities to improve system availability, security, and performance?

- A. BlueXP ransomware protection
- B. Cloud Insights Storage Workload Security
- C. BlueXP copy and sync
- D. Active IQ Digital Advisor

Answer: D

Explanation:

Active IQ Digital Advisor, also integrated into NetApp BlueXP™, is a NetApp tool that enables customers to address risk factors and opportunities to improve system availability, security, and performance. Active IQ Digital Advisor uses artificial intelligence to provide insights, guidance, and actions based on the data collected from your NetApp systems and services. Active IQ Digital Advisor helps you to monitor the health, capacity, efficiency, and protection of your storage environment, as well as to identify and resolve issues, optimize performance, and plan for future needs.

References = NetApp Active IQ - Actionable Intelligence, Active IQ Documentation, Active IQ Digital Advisor

NEW QUESTION # 25

You have a centralized data center running NetApp ONTAP. Your business is deploying a new IoT solution directly managed by the Azure IoT hub. You want to store data in the cloud for use with data analytics.

Which NetApp solution would accomplish this task?

- A. Cloud Insights
- **B. Cloud Volumes ONTAP**
- C. Cloud Secure
- D. Cloud Backup Service

Answer: B

NEW QUESTION # 26

A user at a company drags a folder with critical data to another location by mistake, and users can no longer access it. The storage administrator cannot restore the last Snapshot copy, because critical file changes will be lost.

Which NetApp cloud data service can the administrator use to identify the folder move activity?

- A. ONTAP System Manager
- **B. Cloud Insights Storage Workload Security**
- C. Active IQ Unified Manager
- D. Active IQ digital advisor

Answer: B

Explanation:

A). Cloud Insights Storage Workload Security: This service is designed to provide real-time monitoring and alerting of user activities and file movements. Cloud Insights Storage Workload Security can help track user actions, including file or folder moves, deletions, and other modifications. This level of detailed monitoring is crucial in situations where you need to understand what changes were made to the data, by whom, and when, especially without restoring data from backups.

NEW QUESTION # 27

.....

After you pass the test NS0-005 certification, your working abilities will be recognized by the society and you will find a good job. If you master our NS0-005 quiz torrent and pass the exam it proves that you have excellent working abilities and can be suitable for a good job. You will earn a high salary in a short time. Besides, you will get a quick promotion in a short period because you have excellent working abilities and can do the job well. You will be respected by your colleagues, your boss, your relatives, your friends and the society. All in all, buying our NS0-005 Test Prep can not only help you pass the exam but also help realize your dream about your career and your future. So don't be hesitated to buy our NS0-005 exam materials and take action immediately.
