## 効果的CIPM | ユニークなCIPM専門知識訓練試験 | 試験の準備方法 Certified Information Privacy Manager (CIPM)模擬解説集

IT領域での主要な問題が質と実用性が欠くということを我々ははっきり知っています。Tech4ExamのIAPPのCIPMの試験問題と解答はあなたが必要とした一切の試験トレーニング資料を準備して差上げます。実際の試験のシナリオと一致で、選択問題(多肢選択問題)はあなたが試験を受かるために有効な助けになれます。Tech4ExamのIAPPのCIPM「Certified Information Privacy Manager (CIPM)」の試験トレーニング資料は検証した試験資料で、Tech4Examの専門的な実践経験に含まれています。

## IAPP Certified Information Privacy Manager (CIPM) 認定 CIPM 試験問題 (Q158-Q163):

### 質問 # 158

#### SCENARIO

Please use the following to answer the next QUESTION:

Perhaps Jack Kelly should have stayed in the U.S. He enjoys a formidable reputation inside the company, Special Handling Shipping, for his work in reforming certain "rogue" offices. Last year, news broke that a police sting operation had revealed a drug ring operating in the Providence, Rhode Island office in the United States. Video from the office's video surveillance cameras leaked to news operations showed a drug exchange between Special Handling staff and undercover officers.

In the wake of this incident, Kelly had been sent to Providence to change the "hands off" culture that upper management believed had let the criminal elements conduct their illicit transactions. After a few weeks under Kelly's direction, the office became a model of efficiency and customer service. Kelly monitored his workers' activities using the same cameras that had recorded the illegal conduct of their former co-workers.

Now Kelly has been charged with turning around the office in Cork, Ireland, another trouble spot. The company has received numerous reports of the staff leaving the office unattended. When Kelly arrived, he found that even when present, the staff often spent their days socializing or conducting personal business on their mobile phones. Again, he observed their behaviors using surveillance cameras. He issued written reprimands to six staff members based on the first day of video alone.

Much to Kelly's surprise and chagrin, he and the company are now under investigation by the Data Protection Commissioner of Ireland for allegedly violating the privacy rights of employees. Kelly was told that the company's license for the cameras listed facility security as their main use, but he does not know why this matters. He has pointed out to his superiors that the company's training programs on privacy protection and data collection mention nothing about surveillance video.

You are a privacy protection consultant, hired by the company to assess this incident, report on the legal and compliance issues, and recommend next steps.

Knowing that the regulator is now investigating, what would be the best step to take?

- **A. Consult an attorney experienced in privacy law and litigation.**
- B. Negotiate the terms of a settlement before formal legal action takes place.
- C. If you know the organization is guilty, advise it to accept the punishment.
- D. Use your background and knowledge to set a course of action.

正解: A

解説:

This answer is the best step to take knowing that the regulator is now investigating, as it can help the organization to obtain legal advice and representation on how to respond to and cooperate with the investigation, as well as how to defend or resolve any potential claims or disputes that may arise from the incident. Consulting an attorney experienced in privacy law and litigation can also help the organization to understand its rights and obligations under the applicable laws and regulations, as well as the possible outcomes and consequences of the investigation. An attorney can also assist the organization in preparing and submitting any required documents or evidence, communicating with the regulator or other parties, negotiating a settlement or agreement, or challenging or appealing any decisions or actions taken by the regulator. ## 質問 # 159

### SCENARIO

Please use the following to answer the next question:

As the director of data protection for Consolidated Records Corporation, you are justifiably pleased with your accomplishments so far. Your hiring was precipitated by warnings from regulatory agencies following a series of relatively minor data breaches that could easily have been worse. However, you have not had a reportable incident for the three years that you have been with the company. In fact, you consider your program a model that others in the data storage industry may note in their own program development.

You started the program at Consolidated from a jumbled mix of policies and procedures and worked toward coherence across departments and throughout operations. You were aided along the way by the program's sponsor, the vice president of operations, as well as by a Privacy Team that started from a clear understanding of the need for change.

Initially, your work was greeted with little confidence or enthusiasm by the company's "old guard" among both the executive team and frontline personnel working with data and interfacing with clients. Through the use of metrics that showed the costs not only of the breaches that had occurred, but also projections of the costs that easily could occur given the current state of operations, you soon had the leaders and key decision-makers largely on your side. Many of the other employees were more resistant, but face-to-face meetings with each department and the development of a baseline privacy training program achieved sufficient "buy-in" to begin putting the proper procedures into place.

Now, privacy protection is an accepted component of all current operations involving personal or protected data and must be part of the end product of any process of technological development. While your approach is not systematic, it is fairly effective.

You are left contemplating: What must be done to maintain the program and develop it beyond just a data breach prevention program? How can you build on your success? What are the next action steps?

What stage of the privacy operational life cycle best describes Consolidated's current privacy program?

- A. Respond
- B. Assess
- **C. Sustain**
- D. Protect

正解: C

## 質問 # 160

Which is TRUE about the scope and authority of data protection oversight authorities?

- A. The Office of the Privacy Commissioner (OPC) of Canada has the right to impose financial sanctions on violators.
- B. All authority in the European Union rests with the Data Protection Commission (DPC).
- C. The Asia-Pacific Economic Cooperation (APEC) Privacy Frameworks require all member nations to designate a national data protection authority.
- **D. No one agency officially oversees the enforcement of privacy regulations in the United States.**

正解: D

解説:

The true statement about the scope and authority of data protection oversight authorities is that no one agency officially oversees the enforcement of privacy regulations in the United States. Unlike other regions, such as the European Union or Canada, the United States does not have a comprehensive federal privacy law or a single national data protection authority. Instead, it has a patchwork of sector-specific and state-level laws and regulations, enforced by various federal and state agencies, such as the Federal Trade Commission (FTC), the Department of Health and Human Services (HHS), the Department of Commerce (DOC), etc. Additionally, individuals can also bring private lawsuits against organizations that violate their privacy rights. References: [Data Protection Authorities], [Privacy Law in the United States]

質問 # 161

What is one reason the European Union has enacted more comprehensive privacy laws than the United States?

- A. To ensure there is adequate funding for enforcement
- B. To ensure adequate enforcement of existing laws
- C. To allow separate industries to set privacy standards
- **D. To allow the free movement of data between member countries**

正解: D

質問 # 162

Which of the following controls does the PCI DSS framework NOT require?

- A. Maintain an information security policy.
- B. Maintain a vulnerability management program.
- **C. Implement strong asset control protocols.**
- D. Implement strong access control measures.

正解: C
