All customers have the right to choose the most suitable version according to their need after buying our study materials. The PDF version of the SC-401 Study Materials has many special functions, including download the demo for free, support the printable format and so on.

## Microsoft Administering Information Security in Microsoft 365 Sample Questions (Q194-Q199):

### NEW QUESTION # 194

You have a Microsoft 365 ES subscription

You need to implement Endpoint data loss prevention (Endpoint DLP) to meet the following requirements:

- \* Ensure that users can upload data to only two sites named Site1 and Site2.
- \* Prevent users from pasting data to two search engines named Search1 and Search2.
- \* Minimize the number of policies and groups.

What is the minimum number of sensitive service domain groups and Endpoint DLP policies required? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

**Answer:**

Explanation:

Explanation:

Create one service domain group (Allow list) containing Site1 and Site2 and configure the policy action "Allow upload only to sensitive service domains".

Create a second service domain group (Block list) containing Search1 and Search2 and configure the policy action to block paste (clipboard) to these domains.

A single Endpoint DLP policy can enforce multiple activities (upload to cloud service domains + clipboard to specific domains), so only one policy is required.

Refs: Microsoft Learn - Endpoint DLP: Configure service domains and policy actions (upload/clipboard restrictions) (Purview > Data loss prevention > Endpoint DLP settings and policies).

### NEW QUESTION # 195

You have a Microsoft 365 E5 subscription. Microsoft Privacy Risk Management licenses are assigned to all users.

You need to review and delete all the personal data that relates to a former employee. The solution must minimize administrative effort.

What should you do first?

- A. From Data matching, add a personal data schema for the data profile.
- B. Create an eDiscovery (Standard) case.
- **C. Create a retention policy.**
- D. Purchase a Microsoft Privacy Subject Rights Requests license.

**Answer: C**

### NEW QUESTION # 196

You have a Microsoft 365 E5 subscription.

You have a Microsoft Purview Advanced Message Encryption branding template named OME1.

You need to create a Microsoft Exchange Online mail flow rule to apply OME1 to email.

How should you configure the rule? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

**Answer:**

Explanation:

Explanation:

### NEW QUESTION # 197

HOTSPOT

You have a Microsoft 365 E5 subscription. The subscription contains devices that are onboarded to Microsoft Purview and configured as shown in the following table.

The subscription contains the users shown in the following table.

You need to review the activities.

What should you use for each user? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

**Answer:**

Explanation:

Explanation:

User1: Since the Microsoft Purview browser extension is installed on Device1, AI-related activity performed by User1 (generating an image using a generative AI website) can be reviewed in Activity explorer in DSPM for AI.

User2: Since Device2 does not have the Microsoft Purview browser extension installed, AI-related activity cannot be tracked in DSPM for AI. Instead, Audit log search should be used to review activity such as using Microsoft 365 Copilot.

User3: Since Device3 has the Microsoft Purview browser extension installed, AI-related activity (browsing sample content on a generative AI website) can be reviewed using Activity explorer in DSPM for AI.

## NEW QUESTION # 198

### HOTSPOT

You have a Microsoft 365 E5 subscription.

You need to implement a compliance solution that meets the following requirements:

# Captures clips of key security-related user activities, such as the exfiltration of sensitive company data.

# Integrates data loss prevention (DLP) capabilities with insider risk management.

What should you use for each requirement? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.
