Achieving a Scrum SSM certification demonstrates a person's commitment to professional development and continuous learning. SSM (6.0) - SAFe® Scrum Master certification allows Scrum Masters to demonstrate their knowledge and expertise in a SAFe environment and is highly valued by organizations that are implementing SAFe methodologies. Scrum SSM certified professionals are in high demand, and the certification can significantly boost a person's career prospects.

Scrum SSM certification exam covers a wide range of topics related to Agile methodologies, including Scrum principles and practices, Agile planning, Agile estimation, Agile metrics, Agile roles and responsibilities, and Agile ceremonies. SSM Exam is designed to test the candidate's knowledge and understanding of these topics, as well as their ability to apply them in real-world scenarios. SSM (6.0) - SAFe® Scrum Master certification is recognized globally and provides professionals with the knowledge and skills they need to excel in their careers as Scrum Masters or Agile coaches. The Scrum SSM certification exam is a valuable asset for organizations that want to implement Agile methodologies in their projects and boost their productivity and efficiency.

SSM Latest Exam Camp | Practical SSM Information

For our PDF version of our SSM practice materials has the advantage of printable so that you can print all the materials in SSM study engine to paper. Then you can sketch on the paper and mark the focus with different colored pens. This will be helpful for you to review the content of the materials. If you are busy with work and can't afford a lot of spare time to review, you can choose the other two versions of our SSM Exam Questions: Software and APP online versions.

To be eligible for the Scrum SSM Certification Exam, individuals must have completed the SAFe 5 Scrum Master course and have at least one year of experience working as a Scrum Master in a SAFe environment. SSM Exam is designed to be challenging, with a passing score of 73% required to earn certification.

Scrum SSM (6.0) - SAFe® Scrum Master Sample Questions (Q44-Q49):

NEW QUESTION # 44

Which statement describes how Kanban Teams handle velocity in SAFe during PI Planning?

- A. They use throughput as an indication of their velocity
- B. They participate in scoring Business Value; however, they have a different measure than velocity
- C. They need to estimate their velocity in story points
- D. They use cycle time because it is more objective and based on actual timestamps

Answer: A

NEW QUESTION # 45

One of the Scrum Master's main responsibilities is to communicate with management and outside stakeholders to help the team in what way?

- A. Manage the Iteration Planning Backlog
- B. Split bigger work items where necessary
- C. Accept stories
- D. Protect them from uncontrolled addition of work

Answer: D

NEW QUESTION # 46

What is one example of Scrum Masters/Team Coaches helping without diminishing the commitment of others?

- A. Encouraging handoffs so each team member contributes to the work
- B. Demoing the team's completed work
- C. Facilitating necessary meetings for the team
- D. Coaching the team to refrain from relying on external resources

Answer: C

Explanation:

One example of Scrum Masters/Team Coaches helping without diminishing the commitment of others is facilitating necessary meetings for the team. Facilitating means providing guidance and support to the team in conducting effective and productive meetings, such as Iteration Planning, Daily Stand-up, Iteration Review, and Iteration Retrospective¹. Facilitating does not mean taking over the meeting or making decisions for the team. Rather, it means creating a safe and respectful environment, ensuring clear and shared objectives, encouraging participation and collaboration, managing time and agenda, resolving conflicts and issues, and summarizing outcomes and action items^{2,3}. By facilitating necessary meetings for the team, Scrum Masters/Team Coaches help the team to achieve their goals, improve their processes, and deliver value to the customers and the organization^{1,4}. At the same time, they respect and empower the team's autonomy, self-organization, and self-management, and do not interfere with their commitment or accountability^{1,4}.

NEW QUESTION # 47

What is one way a Scrum Master/Team Coach can support productive team Backlog Refinement sessions?

- A. Generate ideas for Stories with the team before refinement
- B. Assure teammates that they will be heard
- C. Ensure subject matter experts are invited
- D. Create a reusable agenda for the team ahead of time

Answer: C

Explanation:

One way a Scrum Master/Team Coach can support productive team Backlog Refinement sessions is to ensure subject matter experts are invited. Subject matter experts (SMEs) are people who have specialized knowledge or skills related to the domain or technical aspects of the product or solution. They can provide valuable input and feedback to the team during Backlog Refinement, such as clarifying requirements, validating assumptions, identifying dependencies, and suggesting solutions. SMEs can also help the team to split, estimate, and prioritize the backlog items more effectively and accurately. By inviting SMEs to the Backlog Refinement sessions, the Scrum Master/Team Coach can facilitate better collaboration, communication, and alignment among the team and the stakeholders.
