Professional Valid CDFOM Vce & Trusted New CDFOM Test Braindumps & New CDFOM 100% Accuracy

After you purchase our CDFOM study materials, we will provide one-year free update for you. Within one year, we will send the latest version to your mailbox with no charge if we have a new version of CDFOM learning materials. We will also provide some discount for your updating after a year if you are satisfied with our CDFOM Exam Questions. And if you find that your version of the CDFOM practice guide is over one year, you can enjoy 50% discount if you buy it again.

EXIN Certified Data Center Facilities Operations Manager Sample Questions (Q53-Q58):

NEW QUESTION # 53

Key Performance Objectives (KPOs) need to be defined.

What is a suitable time period for KPOs?

- A. Only monthly
- B. Weekly, monthly and yearly
- C. Only yearly
- D. Only weekly

Answer: B

Explanation:

KPOs are strategic and operational performance objectives that must support:

- * Daily operations
- * Weekly operational control
- * Monthly service reporting
- * Quarterly reviews
- * Annual strategic planning

EPI emphasizes that performance objectives must be measurable across multiple timeframes, depending on the operational layer:

- * Weekly# short-term operational checks
- * Monthly# service-level analysis and trend review
- * Yearly# strategic improvement and long-term performance planning

Therefore, weekly, monthly, and yearly intervals are all suitable for KPOs.

Thus, Dis is correct.

EPI DCFOM-Aligned Reference Concepts (Paraphrased)

- * Performance measurement occurs across multiple time horizons.
- * KPOs must be aligned to operational, tactical, and strategic levels.

NEW QUESTION # 54

What is defined by the Recovery Time Objective (RTO)?

- A. The time within which the impacts of not resuming activities would become unacceptable to the organization
- B. The maximum age of the data to be restored in case of a disaster
- C. The prioritized timeframes for resuming disrupted activities at a specified minimum acceptable capacity
- D. The minimum level of service required to be operational again

Answer: C

Explanation:

In organizational resilience and business continuity planning, the Recovery Time Objective (RTO) is a core metric used to determine the acceptable downtime for each business function.

EPI defines RTO as the:

"Targeted duration within which disrupted services or processes must be restored to a minimum acceptable operational level after a disaster." Key points:

- * Timeframe for Recovery The RTO identifies how quickly a facility, system, or service must be restored before the outage causes unacceptable consequences.
- * Minimum Service Capacity The RTO refers to restoring operations at a minimum acceptable level, not full normal operations.
- * Business Impact Analysis (BIA) Output RTO is derived during BIA where criticality and dependencies of business processes are assessed and prioritized.
- * Prioritization of Resources RTO informs disaster recovery planning, resource allocation, and restoration sequencing.

Therefore, the correct definition matches:

D - "The prioritized timeframes for resuming disrupted activities at a specified minimum acceptable capacity." Why the other options are incorrect:

- * A describes the MTPD (Maximum Tolerable Period of Disruption).
- * B describes elements of the Minimum Business Continuity Objective (MBCO).
- * C describes the Recovery Point Objective (RPO).

EPI DCFOM-Aligned Reference Concepts (Paraphrased, Not Verbatim)

- * RTO defines the permitted downtime for a service.
- * RTO is linked to minimum acceptable capability after recovery.
- * RTO is determined through BIA.

NEW QUESTION # 55

In document management, what is the objective of the publication process?

- A. To create a document following the rules of the document management system
- B. To comply with the document management system requirements
- **C. To ensure the correct version is available in all required locations**
- D. To archive documents for easy retrieval

Answer: C

Explanation:

The publication process in document management ensures that:

- * The correct, approved version of a document is released.
- * It is distributed to all required locations (physical or digital).
- * Outdated versions are removed from circulation.
- * Staff always use the correct operating procedures and guidelines.

Why other options are incorrect:

- * A: Compliance is a by-product, not the objective.
- * B: Creation happens before publication.
- * D: Archiving is part of the document retirement process, not publication.

Thus, C is the correct answer.

EPI DCFOM-Aligned Reference Concepts (Paraphrased)

- * Publication ensures the latest controlled documents are available where needed.
- * Document control prevents use of outdated or incorrect procedures.

NEW QUESTION # 56

What is the main reason for (senior) management to be scheduled into the 'on-duty' roster?

- **A. It involves management when incidents are escalating**
- B. It provides management better insights with the number of incidents occurring
- C. It assists management in optimally reviewing monitoring thresholds
- D. It provides management hands-on experience solving incidents.

Answer: A

Explanation:

Senior management is included in the duty roster to support escalation procedures.

In EPI's operational model:

- * Managers are not part of routine monitoring or incident handling.
- * Their role is to intervene only when an incident escalates beyond operational authority, such as major outages, SLA-impacting events, or high-risk situations.
- * Management provides decision-making, authorization, and resource allocation during escalations.

Why other options are incorrect:

- * A: Managers should not gain "hands-on" experience during incidents.
- * B: Incident reporting already provides insights; no roster needed.
- * D: Monitoring thresholds are reviewed separately, not via duty rosters.

Thus, C is correct.

EPI DCFOM-Aligned Reference Concepts (Paraphrased)

- * Management is involved in the escalation layer, not daily operations.
- * Duty rosters ensure proper escalation handling and governance.

NEW QUESTION # 57

Key Performance Objectives (KPOs) need to be defined.

What is a suitable time period for KPOs?

- A. Only monthly
- **B. Weekly, monthly and yearly**
- C. Only yearly
- D. Only weekly

Answer: B

NEW QUESTION # 58

.....

For years our team has built a top-ranking brand with mighty and main which bears a high reputation both at home and abroad. The sales volume of the CDFOM test practice guide we sell has far exceeded the same industry and favorable rate about our CDFOM learning guide is approximate to 100%. Why the clients speak highly of our CDFOM reliable exam torrent? Our dedicated service, high quality and passing rate and diversified functions contribute greatly to the high prestige of our CDFOM exam questions.
