Our website is considered one of the best website where you can save extra money by getting one-year of free updates after buying the AP-213 Dumps PDF files.

## Salesforce Manufacturing Cloud Accredited Professional Sample Questions (Q62-Q67):

### NEW QUESTION # 62

After selecting the manufacturing template in the community creation wizard, which tool can be used to customize in the site?

- A. Experience Builder
- B. Process Builder
- C. Template Builder
- D. Site Builder
- E. Partner Builder

**Answer: A**

Explanation:

Experience Builder is the tool that can be used to customize the site after selecting the manufacturing template in the community creation wizard. Experience Builder is a point-and-click tool that lets you create pixel-perfect, responsive, and dynamic digital experiences for your customers, partners, and employees. You can use Experience Builder to customize the layout, branding, navigation, components, pages, and permissions of your site. You can also preview and publish your changes, and monitor the performance and usage of your site. References: Create the Manufacturing Partner Template and Add Partner Users - Salesforce, Create an LWR Site in Experience Cloud - Salesforce Developers, Experience Builder - Salesforce Help

### NEW QUESTION # 63

Universal Containers' field reps want to have a more accurate picture of their distributor's business. The field rep will compare and update expected versus actual order values during the next visit.

Which Manufacturing Cloud object should the consultant configure to give field reps this ability?

- A. Generic Visit Key Performance Indicator
- B. Account Relationship
- C. Advanced Account Forecast

**Answer: A**

Explanation:

The Advanced Account Forecast object is used to track the expected and actual order values for each account and product family. It allows field reps to compare the forecasted and actual order values for each account and product family, and update them as needed. The Advanced Account Forecast object also enables field reps to collaborate with their distributors and align on the sales agreements, orders, and brand-promotion campaigns. References: Meet Manufacturing Cloud, Strengthen Relationships with Partners

### NEW QUESTION # 64

Service agents at Universal Containers have requested the ability to access the latest updates to a sales agreement when navigating from the customer interaction related to the account.

What should a Manufacturing Cloud consultant recommend to meet their requirement?

- A. Create a new timeline with the Sales Agreement as the related object and add the timeline to the Account page in Lightning App Builder.
- B. Add the Sales Agreement related list to the Engagement Interaction record page in Lightning App Builder.
- C. Add the Sales Agreement related list to the Account record page in Lightning App Builder.

**Answer: C**

Explanation:

To allow the Service Agents to access the latest updates to a sales agreement when navigating from the customer interaction related to the account, the Manufacturing Cloud consultant should recommend adding the Sales Agreement related list to the Account record page in Lightning App Builder. This way, the Service Agents can see the sales agreements associated with the account and view their status, terms, and schedules.

The Sales Agreement related list is available for the Account object by default and can be added to the Account page layout using the Lightning App Builder. References: Sales Agreements Overview, Customize Record Pages with the Lightning App Builder

### NEW QUESTION # 65

Sales Management has decided that the Account Managers should be measured on a CSAT target. Which option describes the steps the Admin should take to meet this requirement?

- A. Add a picklist value 'CSAT' to the Type Field and add Target Type = Other, on the Account Target object
- B. Add a picklist value on the Measure field with Label = CSAT and add Measure Type = Other, on the Account Manager Target object
- C. Add a picklist value on the Measure Type field with Label = CSAT and add Target Type = Other, on the Account Manager object
- D. Add a picklist value 'CSAT' to the Measure field and add Measure Type = CSAT, on the Target object

**Answer: B**

Explanation:

The Account Manager Target object represents a target created by an account manager for a fiscal year, measure, and target value<sup>1</sup>. To measure the account managers on a CSAT target, the admin should add a picklist value on the Measure field with Label = CSAT and add Measure Type = Other, on the Account Manager Target object. This way, the account managers can create and assign targets for the CSAT measure to their direct reports<sup>2</sup>. The other options are incorrect because they either use the wrong object, field, or value for the CSAT target. References: Create and Assign Targets, Set Up and Configure Account Manager Targets, Discuss Salesforce Manufacturing-Cloud-Professional Exam Topic 1 Question 19, Manufacturing Cloud Developer Guide

#### **NEW QUESTION # 66**

A manufacturing company makes parts designed to go into finished goods (like a cell phone). However, the company sells to distributors and contract manufacturers who make the phone for the phone brand company.

The manufacturing company is not the only approved supplier of the part.

Which feature of Manufacturing Cloud should the manufacturing company utilize to help with future opportunity planning?

- A. Use Sales Agreements with distributors to manage commits on products and align orders by part number to the forecast with the orders.
- **B. Use Program Based Business to maintain phone brand demand and leverage actuals against different distributors or contract manufacturers.**
- C. Use Advanced Forecasting to set the plan by part for each of the phone brands and align orders by part number to the forecast with the orders.

**Answer: B**

Explanation:

Program Based Business is a feature of Manufacturing Cloud that allows manufacturers to track and manage the demand from their end customers (such as phone brands) and compare it with the actual orders from their channel partners (such as distributors or contract manufacturers). This feature helps manufacturers to plan for future opportunities, optimize their inventory and production, and increase their market share. Program Based Business enables manufacturers to:

Create programs that represent the end customer demand for a specific product or product family over a period of time.

Associate sales agreements and orders with programs to track the actual performance against the program demand.

Use program analytics to monitor the program health, identify gaps and risks, and take corrective actions.

Use program forecasts to generate account forecasts based on the program demand and actuals. References: Program Based Business Overview, Create a Program, Associate Sales Agreements and Orders with Programs, Use Program Analytics, Use Program Forecasts.
