

Exam VMware 2V0-32.24 Questions Answers, Reliable 2V0-32.24 Test Preparation

BONUS!!! Download part of ValidExam 2V0-32.24 dumps for free: <https://drive.google.com/open?id=1uaHN9M9JNy5Je6u29SAAttRip4GjWRkn>

Additionally, the web-based VMware Cloud Operations 8.x Professional V2 (2V0-32.24) practice test works on all operating systems such as Windows, iOS, Android, and Linux, providing flexibility to users. Browsers including MS Edge, Internet Explorer, Safari, Opera, Chrome, and Firefox also support the online version of the VMware Cloud Operations 8.x Professional V2 (2V0-32.24) practice exam. Features we have discussed in the above section of the ValidExam VMware Cloud Operations 8.x Professional V2 (2V0-32.24) practice test software are present in the online format as well. But the web-based version of the 2V0-32.24 practice exam requires a continuous internet connection.

VMware 2V0-32.24 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">Performance-tuning, Optimization, and Upgrades: This section has no testable objectives and therefore is not directly assessed in the exam.
Topic 2	<ul style="list-style-type: none">Troubleshooting and Repairing: This section of the exam measures skills of Support Engineers and covers the diagnosis and resolution of common performance and configuration issues in vRealize Operations, Log Insight, and Lifecycle Manager. It also includes cluster management options, log bundle generation, password handling, and changing authentication settings, equipping professionals to ensure system reliability.
Topic 3	<ul style="list-style-type: none">Architecture and Technologies: This section of the exam measures the skills of Cloud Architects and covers the core differences between VMware Cloud Management offerings, focusing on SaaS versus on-premises deployments. It introduces the capabilities of vRealize Suite Lifecycle Manager, vRealize Operations, and vRealize Log Insight, helping professionals understand the foundational technologies that support VMware's cloud ecosystem.

Topic 4	<ul style="list-style-type: none"> • Installing, Configuring, and Setting Up: This section of the exam measures skills of Implementation Specialists and covers the end-to-end setup process for vRealize Suite Lifecycle Manager, vRealize Operations, and Log Insight. It includes prerequisites, installation steps (manual and automated), identity and access configuration, environment settings, data sources, content packs, and system integrations to enable a functional cloud management platform.
Topic 5	<ul style="list-style-type: none"> • Planning and Designing: This section of the exam measures the skills of Cloud Architects and covers the architectural models and sizing requirements for vRealize Operations and vRealize Log Insight. It evaluates the ability to choose between standalone, clustered, and high-availability setups, and to plan appropriately based on scenario-based requirements for capacity and deployment type, ensuring well-designed cloud solutions.
Topic 6	<ul style="list-style-type: none"> • Administrative and Operational Tasks: This section of the exam measures skills of Cloud Administrators and covers daily operational tasks such as content and environment management in vRealize Suite Lifecycle Manager. It also includes managing licensing, alert systems, dashboards, metrics, cost assessments, capacity optimization, workload planning, and system monitoring. Additionally, it explores access control, patching, and retention settings in vRealize Log Insight, ensuring ongoing operational excellence across VMware tools.

100% Pass Quiz 2026 VMware 2V0-32.24 – Reliable Exam Questions Answers

When you try our part of VMware certification 2V0-32.24 exam practice questions and answers, you can make a choice to our ValidExam. We will be 100% providing you convenience and guarantee. Remember that making you 100% pass VMware Certification 2V0-32.24 Exam is ValidExam.

VMware Cloud Operations 8.x Professional V2 Sample Questions (Q41-Q46):

NEW QUESTION # 41

Which three filters can be used when adding agents to an agent group in vRealize Log Insight? (Choose three.)

- A. Agent status
- **B. Hostname**
- **C. Agent type**
- D. Logging protocol
- **E. Agent version**
- F. IP address

Answer: B,C,E

Explanation:

Agent type: This filter allows the administrator to group agents by their type, such as virtual, physical, or containerized agents.

Agent version: Filters agents by their version, which can be helpful in ensuring compatibility and updating agents.

Hostname: This filter groups agents based on the hostname of the machines they are installed on, providing more targeted management.

NEW QUESTION # 42

An administrator is setting up vSphere integration for syslog collection from ESXi hosts in vRealize Log Insight.

Which one is the correct permission required in vSphere?

- A. Security profile and firewall.Configuration
- **B. Host.Configuration.Change Settings**
- C. Host.Network Configuration.Configuration
- D. Configuration.AdvancedSettings.Host

Answer: B

Explanation:

To configure vSphere integration for syslog collection from ESXi hosts in vRealize Log Insight, the administrator needs the Host.Configuration.Change Settings permission. This permission allows the user to modify the settings for the host, including configuring syslog settings, which are required for sending logs to vRealize Log Insight.

NEW QUESTION # 43

Which three factors determine the size of vRealize Operations deployment? (Choose three.)

- A. Size of attached Cloud Proxies
- **B. Number of Agents**
- **C. Number of Metrics**
- D. Size of monitored vCenter Servers
- E. Number of Remote Collectors
- **F. Number of Objects**

Answer: B,C,F

Explanation:

Number of Objects

vRealize Operations sizing is fundamentally driven by how many infrastructure and application objects (VMs, hosts, datastores, etc.) are being monitored - each additional object consumes CPU, memory, and storage resources on the cluster.

Number of Agents

When using Application Remote Collectors, the total count of agents (for OS and application#level metrics) per node directly affects capacity planning, as each agent connection incurs processing and storage overhead.

Number of Metrics

The volume of distinct metrics collected (across all adapters and agents) determines database size and I/O load; sizing guidelines specify maximum collected#metric counts per node to ensure performance.

NEW QUESTION # 44

Which statement represents a use case for VMware Skyline?

- A. Provide a single management pane of glass for customer's assets across multiple VMware cloud solutions.
- B. Collect and analyze logs from VMware products and automatically notify the customer about any potential issues.
- C. Provide a single point of management for customer's licenses across different VMware on-premises and cloud products.
- **D. Proactively identify potential problems and help improve the resolution time by collecting, aggregating, and analyzing product usage data.**

Answer: D

Explanation:

VMware Skyline is designed to proactively identify potential issues by collecting and analyzing product usage data from VMware environments. It helps improve resolution times by providing actionable insights and recommendations, allowing administrators to address issues before they escalate. This predictive capability enhances system performance and reduces downtime.

NEW QUESTION # 45

Which option represents a use case of vRealize Log Insight?

- A. Auto-scale applications as a response of log pattern identification.
- B. Analyze communications between applications to facilitate micro-segmentation.
- **C. Intelligently group log sources standard output to rapidly understand issues.**
- D. Evaluate the historical utilization of resources to generate a projection of the future workload.

Answer: C

Explanation:

vRealize Log Insight is primarily used for log management and analytics, helping administrators efficiently aggregate, search, and

analyze log data from various sources. Chosen option describes the core functionality of vRealize Log Insight, where it intelligently groups and aggregates log sources to help users quickly understand issues, identify patterns, and troubleshoot problems effectively.

NEW QUESTION # 46
