Always remember that PRINCE2 Practitioner Exam PRINCE2Practitioner exam questions change.

PRINCE2 Practitioner Exam Sample Questions (Q30-Q35):

NEW QUESTION # 30

Additional Information

Extract from the Communication Management Strategy.

The project information in the table below is true, but it may not be recorded under the correct heading or be in the correct document.

Using the Project Scenario, select the appropriate response to each of the following 5 questions which have been raised by the Project Board.

The project is now at the end of the initiation stage. Having decided that the Calendar project is a relatively simple project, the Project Manager combined the Starting Up a Project process and the Initiating a Project process. No Project Brief has been produced. Instead the Project Manager used the project mandate to produce a simple Project Initiation Documentation (PlO). The PlO includes the Business Case, a product checklist and several Product Descriptions, Including the Project Product Description. Short sections are also included for each of the strategies and the controls to be applied. The Project Manager has elected to use the Daily Log to record all risks, issues, lessons and quality results.

After the initiation stage there will be two further stages during which a small number of Work Packages will be authorized. While these are being managed, the Project Manager will hold regular checkpoints, which will support the production of weekly Highlight Reports to the Project Board.

No Benefits Review Plan has been developed. Where should the schedule of benefit reviews be recorded?

- A. As deliverables of the project, all benefit reviews should be scheduled and documented in the Project Plan during initiation.
- B. Benefit reviews should be planned and recorded in the simple PID.
- C. Small projects do not require a schedule of benefit reviews as only one review is required towards the end of the project and this should be documented within the Business Case.

Answer: B

NEW QUESTION # 31

Scenario

A photographer from Portraits Ltd, a professional photographic company, has taken on the role of Team Manager after taking some time to understand the requirements of the project. A contract for their services has been set up and is being monitored by the Purchasing Manager and a Work Package has been agreed. This contract specifies that the photographer must arrange a meeting with the Engineering Manager to establish a schedule for the photo sessions to minimize the impact on the Engineering staff. This meeting should have occurred by now.

The Engineering Manager was made aware of this requirement but when asked he reported that he has received no communication from the photographer. The Project Manager has tried to call the photographer and has had no response. The Project Manager believes there is a risk that Portraits Ltd are overbooking work and prioritizing other clients' work. If Portraits ltd do not deliver on schedule the project will be delayed and the expected benefits will be reduced.

The contract is to be reviewed and Portraits Ltd reminded of their agreement.

The project is now in stage 2. The Project Manager has heard about the possibility of a competitor also producing a calendar to be delivered earlier than the target date for this project. There is a threat that the early release of a competitor's calendar may weaken the impact of the MNO Manufacturing Company calendar, thereby reducing the anticipated benefits of the Calendar project.

Which 2 statements should be recorded under the Roles and responsibilities heading?

- A. Risk tolerances are allocated to each stage by the Project Manager.
- B. Project Assurance will ensure that project risks are identified, assessed and controlled according to the agreed risk management procedure.
- C. Each risk will be assigned a risk owner.
- D. An external consultant is to facilitate a risk identification workshop.
- E. Risks exceeding the agreed project risk tolerance will be reported to the Project Board.

Answer: B,E

NEW QUESTION # 32

Who is responsible for appointing the Project Manager?

- A. Project Assurance
- B. The Project Board
- C. The Executive
- D. Corporate or Programme Management

Answer: C

NEW QUESTION # 33
HOTSPOT
Scenario
A photographer from Portraits Ltd, a professional photographic company, has taken on the role of Team Manager after taking some time to understand the requirements of the project. A contract for their services has been set up and is being monitored by the Purchasing Manager and a Work Package has been agreed. This contract specifies that the photographer must arrange a meeting with the Engineering Manager to establish a schedule for the photo sessions to minimize the impact on the Engineering staff. This meeting should have occurred by now.

The Engineering Manager was made aware of this requirement but when asked he reported that he has received no communication from the photographer. The Project Manager has tried to call the photographer and has had no response. The Project Manager believes there is a risk that Portraits Ltd are overbooking work and prioritizing other clients' work. If Portraits ltd do not deliver on schedule the project will be delayed and the expected benefits will be reduced.

The contract is to be reviewed and Portraits Ltd reminded of their agreement.

The project is now in stage 2. The Project Manager has heard about the possibility of a competitor also producing a calendar to be delivered earlier than the target date for this project. There is a threat that the early release of a competitor's calendar may weaken the impact of the MNO Manufacturing Company calendar, thereby reducing the anticipated benefits of the Calendar project.

Column 1 contains a number of risk responses identified by the Project Manager following an assessment of this risk. Column 2 contains a list of threat response types. For each risk response in Column 1, select from Column 2 the type of response it represents. Each option from Column 2 can be used once, more than once or not at all.

Column 1 contains a number of possible risk responses to the above risk. For each risk response, select from Column 2 the appropriate risk threat response type that it represents. Each selection from Column 2 can be used once, more than once or not at all.

NEW QUESTION # 34
Scenario
Additional Information
Product Description

Quality notes from the Daily Log
The Director of Information Technology Division (DIT) has been asked to ensure that any changes to the outsourced staff employment contracts adhere to employment law. The DIT will review future job descriptions of the transferred staff before the final contract is signed with the selected service provider.

The service level agreement between MFH and the selected service provider will specify the type and quality of service required.

The selected service provider must follow the industry standards for providing outsourced services.

MFH has a quality management system which contains a document control procedure for all its documentation, however this does not include change management.

All project documents will be subject to a quality review. Nominated products will require a formal approval record signed-off by the quality review chair.

Extract from the draft Quality Management Strategy (may contain errors) Introduction
1. This document defines the approach to be taken to achieve the required quality levels during the project.
2. The Project Board will have overall responsibility for the Quality Management Strategy.
3. Project Assurance will provide assurance on the implementation of the Quality Management Strategy.
Quality management procedure - Quality standards
4. The selected service provider will operate to industry standards for providing outsourced services.
5. MFH document standards will be used.
Records
6. A Quality Register will be maintained to record the planned quality events and the actual results from the quality activities.
7. Configuration Item Records will be maintained for each product to describe its status, version and variant.
8. Approval records for products that require them will be stored in the quality database.
Roles and responsibilities
9. The DIT will check that the employment contracts for outsourced staff adhere to employment law.

10. Team Managers will provide details of quality checks that have been carried out.
11. Team Managers will ensure that the Quality Register is updated with the names of team members who are involved in the review process.
12. The Senior User will review the Product Descriptions of the products to be produced by the selected service provider to ensure that they can be achieved.

The service level agreement looks like any other MFH document.

- A. Accept this error as a concession.
- B. Raise an issue (off-specification).
- C. Obtain agreement from the Director of Facilities Division to redesign the service level agreement within the remaining +2 days tolerance.
- D. No action required.

Answer: D

NEW QUESTION # 35

......
