While making revisions and modifications to the CompTIA FC0-U71 practice exam, our team takes reports from over 90,000 professionals worldwide to make the CompTIA FC0-U71 Exam Questions foolproof. To make you capable of preparing for the FC0-U71 exam smoothly, we provide actual CompTIA FC0-U71 exam dumps.

CompTIA Tech+ Certification Exam Sample Questions (Q53-Q58):

NEW QUESTION # 53

Which of the following is a GPU an example of?

- A. Processing
- B. Output
- C. Input
- D. Storage

Answer: A

Explanation:

A GPU (Graphics Processing Unit) is a specialized processor designed to perform calculations related to rendering images and videos. It's an example of a processing component.

"The GPU is a processor dedicated to graphical computations and image rendering, assisting or replacing the CPU in handling visual data." - CompTIA ITF+ Hardware Essentials Correct answer: C

NEW QUESTION # 54

Which of the following data types would be best for storing data representing a phone number?

- A. Char
- B. String
- C. Float
- D. Integer

Answer: B

Explanation:

A phone number is best stored as a string because it may include leading zeros, parentheses, dashes, or plus signs, which are not handled properly by numeric data types like integers or floats.

Other options:

*Integer and float are numeric types unsuitable for formatted phone numbers,

*Char holds only a single character.

NEW QUESTION # 55

Given the following pseudocode:

```
<BODY>
```

```
<P>This is a paragraph.</P>
```

```
</BODY>
```

Which of the following best represents the type of language used by this code?

- A. Query
- B. Compiled
- C. Scripting
- D. Markup

Answer: D

Explanation:

The syntax shown uses tags like `<BODY>` and `<P>`, which are characteristic of a markup language, specifically HTML (HyperText Markup Language). Markup languages describe the structure and presentation of text.

"Markup languages, such as HTML and XML, are used to annotate text so that the computer can manipulate it. HTML is used to design the structure of web pages using tags like `<body>`, `<p>`, `<h1>`, etc." - CompTIA ITF+ Official Guide Other options:

Query languages like SQL retrieve data.

Compiled languages require compilation into machine code (e.g., C++).

Scripting languages are used for automation but don't use markup syntax.

Correct answer: A

NEW QUESTION # 56

Which of the following types of programming languages uses tags rather than code?

- A. Query
- B. Compiled
- C. Assembly
- **D. Markup**

Answer: D

Explanation:

Markup languages, such as HTML and XML, use tags (e.g., <p>, <title>, <body>) to define the structure and presentation of data. They are not programming languages in the traditional sense, as they don't include logic or execution flow.

"Markup languages use tags to annotate and structure text. Common examples include HTML and XML." - CompTIA ITF+ Software Concepts Correct answer: A

NEW QUESTION # 57

Given the following table:

ID	Month	Day	Year	Name
1	October	6	1969	James
2	May	13	1970	Jane
3	September	25	1999	John
4	April	15	1976	Helena

Which of the following fields best represents a primary key?

- A. Day
- B. Month
- C. Name
- D. Year
- **E. ID**

Answer: E

Explanation:

A primary key is a unique identifier for each record in a database table. It must be unique and not null across all rows. In this table, the field ID is the only column that uniquely identifies each row and does not repeat.

"A primary key is a field (or a set of fields) that uniquely identifies a record in a table. It ensures that each record can be uniquely retrieved." - CompTIA ITF+ Official Study Guide Analysis of other options:

Month, Day, Year, and Name can have duplicate values across multiple records and therefore do not serve as unique identifiers. Correct answer: A

The ID field contains unique values for each record and is typically used as a primary key in a database. A primary key uniquely identifies each row in a table.

Month, Day, Year, and Name may have duplicates and do not guarantee uniqueness.

NEW QUESTION # 58

.....

We try our best to provide the most efficient and intuitive learning methods to the learners and help them learn efficiently. Our FC0-U71 study materials provide the instances, simulation and diagrams to the clients so as to they can understand them intuitively. Based on the consideration that there are some hard-to-understand contents we insert the instances to our FC0-U71 Study Materials to concretely demonstrate the knowledge points and the diagrams to let the clients understand the inner relationship and structure of the knowledge points.
