1Z0-1114-25 Accurate Answers | 1Z0-1114-25 Valid Test Papers

2026 Latest DumpsKing 1Z0-1114-25 PDF Dumps and 1Z0-1114-25 Exam Engine Free Share: https://drive.google.com/open?id=1zAMfNMNqGszdmkjpERypHATF6w3Vskdm

To increase people's knowledge and understanding of this 1Z0-1114-25 exam, so as to improve and direct your practice, our experts made the 1Z0-1114-25 study questions diligently and assiduously all these years. Our 1Z0-1114-25 practice materials are successful measures and methods to adopt. They also make new supplementary 1Z0-1114-25 learning materials and add prediction of market trend happened in this exam.

Oracle 1Z0-1114-25 Exam Syllabus Topics:

Topic	Details
Topic 1	• Designing and Developing Redwood Applications: This section measures the skills of Redwood Application Developers and Product Designers in designing and developing applications using Redwood patterns, templates, and components. It focuses on utilizing Redwood page templates, exploring specifications through the Redwood Reference Application, and building applications that align with Oracle's Redwood design system.
Topic 2	• Developing Fusion Apps with Visual Builder Studio: This section tests the knowledge of Fusion App Developers and Development Operations Engineers in leveraging Visual Builder Studio features. It includes configuring service connections, managing code with Git repositories, handling branches and merge requests, and managing builds, pipelines, and deployments to streamline application development workflows.

Topic 3	• The Redwood Experience: This section of the exam measures the skills of UX Designers and Application Developers in understanding the need for a modern applications platform. It explains the building blocks of Oracle's Redwood design system, focusing on its role in delivering a consistent and intuitive user experience across applications.
Topic 4	• Configuring Oracle Fusion Cloud Extensions with Visual Builder Studio: This section evaluates the expertise of Fusion Application Developers and Cloud Extension Specialists in using Oracle Visual Builder Studio (VBS) as a development platform for creating and modifying Oracle SaaS applications. It covers extending existing SaaS pages, creating new Redwood pages or apps for SaaS data, and building mashup applications that integrate SaaS and external data sources.

Oracle 1Z0-1114-25 Exam Questions are Real, Valid, and Verified by Experts

That is the reason DumpsKing has compiled a triple-formatted 1Z0-1114-25 exam study material that fulfills almost all of your preparation needs. The Oracle 1Z0-1114-25 Practice Test is compiled under the supervision of 90,000 Oracle professionals that assure the passing of the Oracle Redwood Application 2025 Developer Associate (1Z0-1114-25) exam on your first attempt.

Oracle Redwood Application 2025 Developer Associate Sample Questions (Q17-Q22):

NEW QUESTION # 17
The Data Grid page pattern allows for complex data collections in pages. It uses the data management page template, which encapsulates the Advanced Collection Container component, a Data Grid component, and optional drawers in case you need extended options to review information or include transactional subflows related to the Data Grid. What are the two available positions for drawers in the Data Grid pattern? (Choose two.)

- A. End position
- B. Bottom position
- C. Start position
- D. Top position

Answer: A,C

Explanation:
Full Detailed in Depth Explanatio n:
The Data Grid page pattern in Redwood, built on the data management page template, incorporates the Advanced Collection Container and Data Grid components. Optional drawers can be added to provide additional context or transactional subflows related to the grid data. According to the Redwood Pattern Book, these drawers can be positioned at the "Start" (left side in LTR languages) or "End" (right side in LTR languages) of the page layout. These positions align with Redwood's responsive design principles, allowing drawers to slide in from the sides to maximize usability on various screen sizes. Top (C) and Bottom (D) positions are not supported for drawers in this pattern, as they are typically reserved for headers, footers, or other UI elements in Redwood's design system.

NEW QUESTION # 18
While using the Simple Create and Edit Page Template Pattern, which dynamic component can be used in the "main" slot?

- A. Dynamic Table
- B. Dynamic Section Binding
- C. Dynamic Form
- D. Dynamic Field Binding
- E. Dynamic Container

Answer: C

Explanation:
Full Detailed in Depth Explanatio n:
The Simple Create and Edit template uses a Dynamic Form (D) in the "main" slot for data entry/editing. Other options (A, B, C, E) don't fit this purpose.

NEW QUESTION # 19

Which two tools allow UI/UX Designers to reuse Redwood's shared libraries and templates for projects and products?

- A. Figma
- B. PowerPoint
- C. Adobe XD
- D. Marvel
- E. UXPin

Answer: A,C

Explanation:
Full Detailed in Depth Explanatio n:
Redwood supports Adobe XD (B) and Figma (C) with shared libraries for design consistency. UXPin (A), Marvel (D), and PowerPoint (E) aren't integrated.

NEW QUESTION # 20

You are looking to create a foldout layout in a page emulating the one in Oracle Fusion Cloud Apps. How will you do it?

- A. Use JavaScript code to animate the various panels on your page
- B. Use a Welcome template and add the foldout template inside it
- C. Use the Horizontal Foldout page template pattern

Answer: C

Explanation:
Full Detailed in Depth Explanatio n:
The Horizontal Foldout template (C) in Redwood mimics Fusion Apps' foldout layout. JavaScript (A) is unnecessary, and Welcome template (B) doesn't fit.

NEW QUESTION # 21

Which is the correct sequence of steps in the Design process?

- A. Understand the statement, articulate the problem, identify the Redwood Page templates to use, add the detail and refine the design, specify the design for development, and monitor engagement in the real world
- B. Articulate the vision, understand the problem, identify the Redwood Page templates to use, add the detail and refine the design, specify the design for development, and monitor engagement in the real world
- C. Articulate the vision, identify the Redwood Page templates, understand the problem, add the detail and refine the design, specify the design for development, and monitor engagement in the real world
- D. Understand the problem, articulate the vision, identify the Redwood Page templates to use, add the detail and refine the design, specify the design for development, and monitor engagement in the real world

Answer: D

Explanation:
Full Detailed in Depth Explanatio n:
The Redwood design process, as outlined in Oracle's Redwood documentation, follows a structured approach to ensure a user-centered and iterative design. The correct sequence starts with "Understand the problem" (to define the challenge), followed by "Articulate the vision" (to set goals), "Identify the Redwood Page templates to use" (to select appropriate patterns), "Add the detail and refine the design" (to iterate), "Specify the design for development" (to hand off to developers), and "Monitor engagement in the real world" (to evaluate post-launch). Option D reflects this logical flow. Option A reverses the initial steps, Option B uses incorrect terminology ("Understand the statement"), and Option C misorders understanding the problem after template selection, which disrupts the process.

NEW QUESTION # 22

......

As is known to us, the leading status of the knowledge-based economy has been established progressively. It is more and more important for us to keep pace with the changeable world and improve ourselves for the beautiful life. So the 1Z0-1114-25 certification has also become more and more important for all people. Because a lot of people long to improve themselves and get the decent job. In this circumstance, more and more people will ponder the question how to get the 1Z0-1114-25 Certification successfully in a short time.
