Salesforceは、業界全体の企業に顧客関係管理（CRM）ソリューションを提供するクラウドベースのソフトウェア会社です。Salesforce管理者として、お客様は組織内のSalesforceプラットフォームの実装とメンテナンスを成功させる責任があります。Salesforce認定管理者認定は、Salesforceの管理と構成における知識とスキルをテストするように設計されています。

Salesforce Certified Administrator 認定 Salesforce-Certified-Administrator 試験問題 (Q99-Q104):

質問 #99

Northern Trail Outfitters (NTO) has deployed my domain. The Chief Marketing Officer wants to make sure that all of the Salesforce

users log in using the branded login URL. There needs to be a grace period for the user's bookmarks to be updated. How should the administrator configure the policies in my domain settings?

- A. Set the login policy to prevent login from <https://login.salesforce.com>
- **B. Set the redirect policy to Redirect with a warning to the same page within the domain.**
- C. Set the login policy to require login from <https://nto.my.salesforce.com>
- D. Set the Redirect policy to Do Not redirect.

正解: B

解説:

Explanation

To make sure that all of the Salesforce users log in using the branded login URL after deploying my domain, and give them a grace period for updating their bookmarks, the administrator should set the Redirect policy to Redirect with a warning to the same page within the domain. This will redirect users who try to log in from <https://login.salesforce.com> or another domain to <https://nto.my.salesforce.com>, and show them a warning message that they need to update their bookmarks. Setting the Login policy or preventing login from <https://login.salesforce.com> will not redirect users or give them a warning. Filtering with Form Factor will not affect login URL.

質問 # 100

The marketing team wants a new picklist value added to the Campaign Member Status field for the upsell promotional campaign. Which two solutions should the administrator use to modify the picklist field values?

Choose 2 answers

- A. Mass modify the Campaign Member Statuses related list.
- **B. Edit the picklist values for the Campaign Status in object Manager.**
- **C. Modify the picklist value on the Campaign Member Statuses related list**
- D. Add the Campaign Member Statuses related list to the Page Layout.

正解: B、C

解説:

Explanation

Campaign Status is a standard picklist field on the Campaign object that indicates whether a campaign is planned, in progress, completed, or aborted. Campaign Member Status is a custom picklist field on the Campaign Member object that indicates how a person responded to a campaign, such as sent, responded, registered, attended, etc. To add a new picklist value for Campaign Status, you need to edit the field in Object Manager. To add a new picklist value for Campaign Member Status, you need to modify the field on the Campaign Member Statuses related list on the Campaign page layout. References:

質問 # 101

Users at Universal Containers would like to visually see the sales stages on an Opportunity page. The administrator is configuring path for Opportunities.

Which is an important consideration for path configuration?

- A. Kanban views for Path must be configured manually.
- B. Celebrations are unable to be added to a path.
- C. The Owner field can be edited in the key fields Panel.
- **D. Path can include guidance and key fields for each stage.**

正解: D

解説:

Explanation

Path is a feature that can be used to visually see the sales stages on an opportunity page. Path can include guidance and key fields for each stage to help users move opportunities along the sales process. Guidance can provide tips, policy information, or best practices for each stage. Key fields can display important fields that users need to fill in or update for each stage.

質問 # 102

The administrator at universal containers has a screen flow that helps users create new leads.

When lead source is "Search Engine", the administrator needs to require the user to choose a specific search engine from a picklist. If lead source is not "Search Engine", this picklist should be hidden.

How should the administrator complete this requirement?

- A. Use an assignment element, one for when lead source is "Search Engine" and one for everything else.
- B. Assign a decision element to direct the user to a second screen to hold specific search engine only when a lead source is "Search Engine".
- C. Configure a picklist for specific search engine, and use a validation rule to conditionally show only when lead source is "Search Engine"
- **D. Create a picklist for specific search engine, and set conditional visibility so that is only shown when lead source is "Search Engine".**

正解: D

解説:

Explanation

To require users to choose a specific search engine from a picklist when lead source is "Search Engine", and hide it otherwise, the administrator should create a picklist for specific search engine on the same screen as lead source, and set conditional visibility so that it is only shown when lead source is "Search Engine". This will make sure that users see only relevant fields based on their input. A decision element will create an extra screen that may disrupt user experience. An assignment element will not affect field visibility. A validation rule will not hide fields but only show errors when values are invalid. References:

質問 # 103

Cloud Kicks wants to try out an app from the AppExchange to ensure that the app meets its needs.

Which two options should the administrator suggest?

Choose two answers

- A. Test Drive in a production org.
- **B. Download into a Trailhead Playground.**
- C. Check edition compatibility.
- **D. Install in a sandbox.**

正解: B、D
