ATLASSIAN ACP-100 (Jira Administrator) Exam is a powerful certification program designed to assess the ability of professionals to administer, configure and manage the Atlassian Jira platform. ACP-100 exam provides a comprehensive assessment of the skills and knowledge needed to configure Jira according to the changing business needs, maintaining user management and security configurations, custom field, and workflow configurations among others. The ACP-100 Certification helps organizations ensure that their designated Jira administrators are competent and sufficiently qualified to operate Atlassian Jira in diverse environments.

## ATLASSIAN Jira Administration for Data Center Sample Questions (Q44-Q49):

### NEW QUESTION # 44

Two projects were created as follows:

You need to create project ENG3. You want it to have the same component names as ENG1 but the same schemes as ENG2. How should ENG3 be created?

- A. from the Kanban project template
- B. from the Scrum project template
- C. with a shared configuration with ENG2
- D. with a shared configuration with ENG1

**Answer: C**

#### NEW QUESTION # 45

You inherited a mature Jira instance with hundreds of projects and associated schemes. You are trying to optimize the administration of the instance.

You need to create a new project and determine which schemes to apply.

Select the two best approaches. (Choose two.)

- A. Evaluate existing shared schemes based on common project category or other criteria.
- B. Attempt to generalize existing schemes with project roles and share those.
- C. Use the Scheme Helper admin tool to see which combinations of schemes are compatible.
- D. Use one of the project templates other than Jira Default Schemes.
- E. Create a project using the Jira Default Schemes and then create new schemes to avoid sharing conflicts.
- F. Create a custom project template that uses the most common shared schemes.

**Answer: A,C**

#### NEW QUESTION # 46

Contractors will begin using your Jira instance.

You receive the following requirements for them:

□ How should you manage global permissions for the contractors user group?

- A. Grant them the Manage Group Filter Subscriptions permission.
- B. Grant them the Browse Users permission.
- C. Grant them the Create Shared Objects permission.
- D. Grant them the Jira System Administrators permission.
- E. Grant them the Bulk Change permission.

**Answer: B**

#### NEW QUESTION # 47

You are prompted to perform a re-index after you have made configuration changes to a very large Jira instance.

Which reason would justify re-indexing only a project instead of a full re-index of the instance?

- A. Only project users would be affected by the re-index.
- B. Workflow changes were limited to the project's unique workflow.
- C. Time tracking was modified for the project.
- D. Only custom fields used by the project were modified.

**Answer: D**

Explanation:

#### NEW QUESTION # 48

Your administration project is configured as follows:

\* there are three issue types that all share a single workflow

\* all project users are members of the Project Users project role

\* all members of the Administrators project role have the Set Issue Security permission

\* project administrators are the only users who can create issues

You are tasked with replacing the Project Users project role with three distinct team project roles, each solely responsible for one of the issue types.

Which additional requirement can be met by individual workflows per issue type?

- A. Only members of the dedicated teams should be able to view and work on the issues they are responsible for.
- **B. The reporter and current assignee of each issue should always have access to view it.**
- C. Individual notifications should be sent out depending on the selected issue type.
- D. Each issue type needs a dedicated set of individual project components.
- E. The system field Component/s needs to be required when creating two out of the three existing issue types.

**Answer: B**

## NEW QUESTION # 49
