This Microsoft PL-900 practice exam software tracks your progress and performance, allowing you to see how much you've improved over time. We frequently update the Microsoft PL-900 Practice Exam software with the latest Microsoft PL-900 DUMPS PDF.

## Microsoft PL-900 Content Outline

To all students studying for the Microsoft PL-900 test, here's a summary of the topics to focus on:

### Describing the Business Value of Power Platform

This topic will confirm if an exam-taker understands the value and capabilities of Power Platform services, their security and administration, and the benefits of using this product to extend business solutions. Skills covered in this domain include data analysis, the creation of flows, using connectors, and making chatbots. Utilizing Power Automate, understanding of the impact the Power Platform has on other services, and skills in the apps' and users' management are also required. Finally, one should be proficient in DLP policies, privacy support, and others.

## Microsoft Power Platform Fundamentals Sample Questions (Q227-Q232):

### NEW QUESTION # 227

You create a model-driven app. You need to determine which customization can be made to table forms.

Statements	Yes	No
A form can be made visible only to users who have been assigned a specific security role.	<input type="radio"/>	<input type="radio"/>
The label of a column on a form can be different than the column display name.	<input type="radio"/>	<input type="radio"/>
You can edit the system view named Quick Find to change the title and subtitle displayed for records in a look-up column.	<input type="radio"/>	<input type="radio"/>

 Microsoft

**Answer:**

Explanation:

Statements	Yes	No
A form can be made visible only to users who have been assigned a specific security role.	<input checked="" type="checkbox"/>	<input type="radio"/>
The label of a column on a form can be different than the column display name.	<input checked="" type="checkbox"/>	<input type="radio"/>
You can edit the system view named Quick Find to change the title and subtitle displayed for records in a look-up column.	<input type="radio"/>	<input checked="" type="checkbox"/>

### NEW QUESTION # 228

You have a Power BI report.

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

Statement	Yes	No
You can export data from a visualization in a Power BI report.	<input type="radio"/>	<input type="radio"/>
You can show the data behind a visual report on your screen without exporting the data.	<input type="radio"/>	<input type="radio"/>
You must export data to view supporting data for a KPI.	<input type="radio"/>	<input type="radio"/>

**Answer:**

Explanation:

Statement	Yes	No
You can export data from a visualization in a Power BI report.	<input checked="" type="checkbox"/>	<input type="radio"/>
You can show the data behind a visual report on your screen without exporting the data.	<input type="radio"/>	<input checked="" type="checkbox"/>
You must export data to view supporting data for a KPI.	<input checked="" type="checkbox"/>	<input type="radio"/>

Explanation

Statement	Yes	No
You can export data from a visualization in a Power BI report.	<input type="radio"/>	<input type="radio"/>
You can show the data behind a visual report on your screen without exporting the data.	<input checked="" type="checkbox"/>	<input type="radio"/>
You must export data to view supporting data for a KPI.	<input type="radio"/>	<input type="radio"/>

Box 1: Yes

If you'd like to see the data that Power BI uses to create a visualization, you can display that data in Power BI.

You can also export that data to Excel as an .xlsx or .csv file. The option to export the data requires a Pro or Premium license and edit permissions to the dataset and report.

Note: Export data from a Power BI dashboard

\* Select the ellipsis in the upper-right corner of the visualization.

\* Choose the Export data icon.

\* Power BI exports the data to a .csv file. If you've filtered the visualization, then the app will filter the downloaded data.

\* Your browser will prompt you to save the file. Once saved, open the .csv file in Excel.

Box 2: No

Underlying data: Select this option if you want to see the data in the visual and additional data from the model (see chart below for details). If your visualization has an aggregate, selecting Underlying data removes the aggregate. When you select Export, Power BI exports the data to an .xlsx file and your browser prompts you to save the file. Once saved, open the file in Excel.

Box 3: Yes

A KPI dataset needs to contain goal values for a KPI. If your dataset doesn't contain goal values, you can create them by adding an Excel sheet with goals to your data model or PBIX file.

Note: A Key Performance Indicator (KPI) is a visual cue that communicates the amount of progress made toward a measurable goal.

### NEW QUESTION # 229

A company uses Power Apps.

You need to perform administrative tasks for the company.

Which admin centers should you use? To answer, drag the appropriate admin centers to the correct requirements. Each admin center may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Admin centers	Answer Area	Requirement	Microsoft Admin center
Azure Active Directory		Create user accounts for Power Apps.	Admin center
Dynamics 365 Admin center			
Power Apps Admin center		Assign the Environment Maker role to a user.	Admin center
Power BI Admin portal			

### Answer:

Explanation:

Admin centers	Answer Area	Requirement	Admin center
Azure Active Directory		Create user accounts for Power Apps.	Azure Active Directory
Dynamics 365 Admin center			
Power Apps Admin center		Assign the Environment Maker role to a user.	Power Apps Admin center
Power BI Admin portal

### NEW QUESTION # 230

A company is building a Power Apps portal.

You need to select out-of-the-box portal types to meet the company's requirements.

Which portal types should you use? To answer, drag the appropriate portal types to the correct requirements.

Each portal type may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Portal types	Answer Area	Requirement	Portal type
partner portal		Collaboratively onboard new suppliers and distributors.	Portal type
community portal			
portal from blank		Publish a blog post announcing new suppliers.	Portal type
customer self-service portal			

**Answer:**

Explanation:

Portal types	Answer Area	Portal type
Requirement		
partner portal	Collaboratively onboard new suppliers and distributors.	partner portal
community portal		
portal from blank	Publish a blog post announcing new suppliers.	community portal
customer self-service portal		

Explanation

Requirement	Portal type
Collaboratively onboard new suppliers and distributors.	partner portal
Publish a blog post announcing new suppliers.	community portal

Box 1: Partner portal

A partner portal allows every organization with resellers, distributors, suppliers, or partners to have real-time access to every stage of shared activities.

Box 2: Community portal

A community portal leverages peer-to-peer interactions between customers and experts to organically grow the catalog of available knowledge from knowledge base articles, forums, and blogs as well as providing feedback through comments and ratings.

### NEW QUESTION # 231

A company plans to use Power Apps to connect to a series of custom services. There are no connectors available for the custom services.

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

Statement	Yes	No
Custom connectors for customer-specific services do not require review and certification by Microsoft.	<input type="radio"/>	<input type="radio"/>
You can build a custom connector once and reuse the connector for Power Apps and Microsoft Flow.	<input type="radio"/>	<input type="radio"/>
You can make custom connectors publicly available for all Power Platform users without having Microsoft certify the connector.	<input type="radio"/>	<input type="radio"/>

**Answer:**

Explanation:

Yes

No

Custom connectors for customer-specific services do not require review and certification by Microsoft.

You can build a custom connector once and reuse the connector for Power Apps and Microsoft Flow.

You can make custom connectors publicly available for all Power Platform users without having Microsoft certify the connector.

Explanation

Statement	Yes	No
Custom connectors for customer-specific services do not require review and certification by Microsoft.	<input checked="" type="radio"/>	<input type="radio"/>
You can build a custom connector once and reuse the connector for Power Apps and Microsoft Flow.	<input checked="" type="radio"/>	<input type="radio"/>
You can make custom connectors publicly available for all Power Platform users without having Microsoft certify the connector.	<input type="radio"/>	<input checked="" type="radio"/>

Box 1: Yes

Only if you would like to share your connector with all users of Logic Apps, Microsoft Flow, and PowerApps, you can submit your connector for Microsoft certification. Microsoft will review your connector.

Box 2: Yes

Connectors created in Microsoft Flow are available in PowerApps. Likewise, connectors created in PowerApps are available in Microsoft Flow.

Box 3: No

If you would like to share your connector with all users of Logic Apps, Microsoft Flow, and PowerApps, you can submit your connector for Microsoft certification. Microsoft will review your connector.
