Virginia Insurance Virginia Life, Annuities, and Health Insurance Examination Series 11-01 Sample Questions (Q348-Q353):

NEW QUESTION # 348

At policy delivery, to ensure that the insured has NOT experienced adverse medical conditions since the time of application for life insurance, the insured may be required to sign a:

- A. Notice of information practices
- B. Disclosure notice
- C. Conditional receipt
- **D. Statement of good health**

Answer: D

Explanation:

Virginia Code § 38.2-3106 governs life insurance delivery, where insurers may require a statement of good health (option B) at policy issuance to confirm no material health changes occurred since the application (e.g., a new cancer diagnosis). This signed document protects the insurer from undisclosed risks between underwriting and delivery, potentially voiding coverage if false (subject to incontestability, § 38.2-3105).

Option A (disclosure notice) relates to privacy or policy terms, not health updates. Option C (conditional receipt) is issued at application with premium payment, providing temporary coverage, not a delivery requirement. Option D (notice of information practices) informs about data use (per § 38.2-604), not health status. The study guide likely illustrates this with a scenario-e.g., an insured signing to confirm no heart attack post-application-making B the standard practice.

NEW QUESTION # 349

Long-term care insurance policies may exclude coverage for all of the following EXCEPT:

- A. Self-inflicted injury
- B. Alcohol and drug dependency
- C. War and acts of war
- **D. Senile dementia**

Answer: D

Explanation:

Virginia's long-term care (LTC) rules allow certain exclusions (e.g., war, alcoholism/drug addiction, intentionally self-inflicted injury) but prohibit disease-specific exclusions for conditions like Alzheimer's or senile dementia. Exact extract: "No long-term care insurance policy or certificate may exclude or limit coverage for Alzheimer's disease, senile dementia, organic brain disorder, or other demonstrable organic disease." Permitted exclusions include: "loss resulting from war or act of war," "alcoholism and drug addiction," and "intentionally self-inflicted injury." Reference:

NEW QUESTION # 350

In health insurance, the insuring clause:

- A. Is part of the application
- B. Explains how the premium was determined by the insurer
- **C. Contains a general definition of the coverage provided**
- D. Provides a list of member hospitals

Answer: C

Explanation:

The insuring clause in a health insurance policy is a key provision that outlines the general terms of the coverage provided by the

insurer. It typically includes a broad description of what the policy covers and the conditions under which benefits will be paid. It does not contain a list of specific hospitals, nor does it detail how premiums are determined or act as part of the application.

NEW QUESTION # 351

(Which of the following is a characteristic of a profit-sharing retirement plan?)

- A. Employees can opt out of participating
- **B. Employees are unable to contribute**
- C. Employers must determine a set contribution amount
- D. Employers may not offer other plans

Answer: B

Explanation:

A profit-sharing plan is an employer-sponsored qualified retirement plan in which the employer makes discretionary contributions based on company profits. Under Virginia exam standards and federal retirement plan rules covered in licensing materials, only the employer contributes to a traditional profit-sharing plan. Employees do not make direct salary deferral contributions as they would in a 401(k) plan. This makes option A correct.

The employer is not required to make a contribution every year, nor is the employer required to contribute a fixed amount. Contributions can vary year to year depending on business performance, which makes option D incorrect. Employers are allowed to offer other retirement plans alongside a profit-sharing plan, so option B is incorrect. Participation rules are typically defined by plan eligibility requirements rather than employee opt-out provisions, making option C inaccurate. Profit-sharing plans are attractive to employers because of flexibility in contributions and favorable tax treatment, while employees benefit from employer-funded retirement savings.

NEW QUESTION # 352

The prevention and correction of dental and oral irregularities through the use of mechanical corrective devices is called:

- A. Periodontics
- B. Endodontics
- C. Prosthodontics
- **D. Orthodontics**

Answer: D

Explanation:

In the context of health insurance, particularly dental coverage, Virginia Code § 38.2-3407.1 et seq. governs mandated benefits, though dental specifics often appear in policy riders or standalone plans. Orthodontics (option A) is the branch of dentistry focused on preventing and correcting irregularities of the teeth and jaws using mechanical devices like braces or aligners, precisely matching the question's description. Endodontics (option B) deals with the tooth's interior (e.g., root canals), not mechanical correction of alignment. Periodontics (option C) addresses gum diseases and supporting structures, not tooth positioning. Prosthodontics (option D) involves replacing missing teeth with prosthetics (e.g., dentures), not correcting irregularities mechanically. The study guide likely defines these terms in a health insurance section, emphasizing orthodontics' role in alignment correction—both preventive (e.g., avoiding bite issues) and corrective—making A the clear answer. Examples like braces for malocclusion reinforce this distinction from other specialties.

NEW QUESTION # 353

.....

We have installed the most advanced operation system in our company which can assure you the fastest delivery speed on our Virginia-Life-Annuities-and-Health-Insurance learning guide, you can get immediately our Virginia-Life-Annuities-and-Health-Insurance training materials only within five to ten minutes after purchase after payment.
