Explanation

Requirements	Action
Configure overdelivery/underdelivery percent.	On the Purchase order form, purchase order lines fast tab, configure the overdelivery field. On the Purchase order form, purchase order lines fast tab, configure the underdelivery field. On the Sales order form, sales order line fast tab, configure the overdelivery field. On the Sales order form, sales order line fast tab, configure the underdelivery field.
Notify user about required approval.	Register the product and post the receipt list. Register the product on a purchase order line and post a receipt. Receive a product on a transfer order. Register the product on an Arrival journal and post a journal.

NEW QUESTION # 363

:116

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

A company has an agreement to pay royalties to a third party for use of their logo.

A royalty contract must be setup so that the third party paid monthly. The payment is based on invoiced sales.

You need to create a royalty contract and create monthly Accounts payable to the third party.

Solution: Add line items to a royalty contract with the associated customer and create sales orders for the items.

Does the solution meet the goal?

- A. Yes
- B. No

Answer: B

Explanation:
