## SAP Valid C\_BCBTM\_2509 Test Labs: SAP Certified Associate - Positioning SAP Business Transformation Management Solutions - RealVCE Ensure you Pass Exam

As we all know, HR form many companies hold the view that candidates who own a C\_BCBTM\_2509 professional certification are preferred, because they are more likely to solve potential problems during work. And the C\_BCBTM\_2509 certification vividly demonstrates the fact that they are better learners. Concentrated all our energies on the study C\_BCBTM\_2509 learning guide we never change the goal of helping candidates pass the exam. Our C\_BCBTM\_2509 test questions' quality is guaranteed by our experts' hard work. So what are you waiting for? Just choose our C\_BCBTM\_2509 exam materials, and you won't be regret.

### SAP Certified Associate - Positioning SAP Business Transformation Management Solutions Sample Questions (Q22-Q27):

#### NEW QUESTION # 22

What roles do SAP Business Transformation Management solutions play in transformation scenarios?  
(Note: There are 2 correct answers to this question.)

- A. They support change management.
- B. They analyze as-is processes and IT landscapes only.
- C. They provide a data-driven approach for Enterprise Observability.
- D. They are limited to the operate phase of transformations.

**Answer: A,C**

Explanation:

SAP Business Transformation Management (BTM) Solutions are designed to guide organizations through the complete transformation lifecycle, from strategy and planning to implementation and adoption. They combine process analysis, enterprise architecture management, and user adoption capabilities through solutions such as SAP Signavio, SAP LeanIX, and WalkMe. "SAP's Business Transformation Management Solutions deliver an integrated, data-driven foundation that provides visibility, transparency, and governance across all phases of business transformation while supporting organizational change management."

Reference:

Supporting Change Management (Answer B):

A core objective of SAP BTM solutions is to enable and sustain change across people, processes, and technology. Through SAP Signavio's collaborative design tools and WalkMe's adoption capabilities, organizations can manage stakeholder engagement,

communication, and behavior alignment effectively.

"BTM Solutions provide tools to manage the human side of transformation, ensuring that employees adapt successfully to new processes and technologies." Providing a Data-Driven Approach for Enterprise Observability (Answer C):

BTM Solutions deliver data-based visibility into business and IT landscapes through SAP LeanIX and SAP Signavio integration. This allows organizations to observe and measure transformation progress, dependencies, and business value using live data.

"SAP BTM Solutions integrate business process intelligence with enterprise architecture management, providing a data-driven approach to enterprise observability for informed transformation decisions." Why Other Options Are Incorrect:

A: Incorrect - BTM Solutions are not limited to the operate phase; they span discover, design, deliver, and run phases of transformation.

D: Incorrect - They analyze both as-is and to-be states to enable continuous improvement and future-state optimization.

Therefore, the verified and correct answers according to SAP BTM documentation are:

B: They support change management.

C: They provide a data-driven approach for Enterprise Observability.

### NEW QUESTION # 23

What are the core solutions provided by SAP LeanIX?

(Note: There are 2 correct answers to this question.)

- A. Enterprise Architecture Management
- B. SAP Signavio Journey Modeler
- C. Technology Risk and Compliance
- D. SAP Commerce Cloud

**Answer: A,C**

Explanation:

SAP LeanIX is an integral part of SAP's Business Transformation Management (BTM) portfolio. It provides visibility and control over an organization's IT landscape, supporting enterprise architecture, technology risk management, and transformation planning.

"SAP LeanIX delivers comprehensive Enterprise Architecture Management (EAM) and Technology Risk and Compliance capabilities that enable organizations to align IT with business goals and manage technology landscapes efficiently." Reference:

Enterprise Architecture Management (Answer B):

This solution allows organizations to document, visualize, and analyze their application and technology landscape to support informed decision-making during transformation.

"With Enterprise Architecture Management, customers gain transparency into their application portfolios, dependencies, and business capabilities to optimize transformation efforts." Technology Risk and Compliance (Answer D):

This module helps identify and mitigate technology-related risks, ensuring compliance with internal and external standards while maintaining operational resilience.

"Technology Risk and Compliance enables continuous monitoring of technology standards, risks, and compliance requirements to maintain stability during business transformation." Incorrect Options:

A (SAP Signavio Journey Modeler) belongs to the SAP Signavio suite, not LeanIX.

C (SAP Commerce Cloud) is part of SAP Customer Experience (CX) solutions, unrelated to LeanIX's transformation and architecture management focus.

Therefore, the correct and verified answers from SAP BTM documentation are:

B: Enterprise Architecture Management

D: Technology Risk and Compliance

### NEW QUESTION # 24

Which use cases are central to SAP LeanIX solutions?

(Note: There are 2 correct answers to this question.)

- A. Application Portfolio Management
- B. Blockchain Analytics
- C. Spend Management
- D. Technology Risk and Compliance

**Answer: A,D**

Explanation:

SAP LeanIX is primarily focused on providing Enterprise Architecture Management (EAM) and Technology Risk and Compliance

(TRC) capabilities, both essential for enabling data-driven transparency and governance in transformation projects.

"Core SAP LeanIX use cases include Application Portfolio Management (APM) and Technology Risk & Compliance (TRC), which help organizations streamline IT landscapes and mitigate risks." Reference:

Application Portfolio Management (Answer B):

SAP LeanIX enables organizations to document, analyze, and optimize their application landscape to ensure efficiency and alignment with business goals.

"The Application Portfolio Management use case helps enterprises assess application value, cost, and redundancy, improving decision-making and IT governance." Technology Risk and Compliance (Answer C):

This feature supports continuous evaluation of IT technology standards and compliance requirements, helping to manage risk exposure and regulatory alignment during transformation.

"Technology Risk and Compliance offers visibility into technology obsolescence, compliance, and cybersecurity risks to support resilient IT operations." Incorrect Options:

A: Spend management belongs to SAP Ariba and SAP Concur, not LeanIX.

D: Blockchain analytics is not a LeanIX function; LeanIX focuses on architecture and compliance, not blockchain technologies.

Verified Correct Answers:

B: Application Portfolio Management

C: Technology Risk and Compliance

### NEW QUESTION # 25

What does WalkMe Discovery help organizations achieve?

- A. Translates all tools into multiple languages automatically
- B. Automates training development processes
- C. Identifies underutilized tools and compliance risks
- D. Enhances employee satisfaction scores by 50%

**Answer: C**

Explanation:

WalkMe Discovery is a key component of the SAP Business Transformation Management (BTM) suite through SAP's partnership with WalkMe. It is designed to provide visibility into the digital application landscape and analyze software usage across the enterprise.

"WalkMe Discovery automatically discovers all web-based applications used across the organization, revealing underutilized tools, shadow IT, and potential compliance risks." Reference:

The tool allows transformation leaders to map actual system usage, understand license utilization, and identify areas of inefficiency or non-compliance, which directly supports SAP's Business Transformation Management (BTM<sup>2</sup>) framework goals for transparency and optimization.

"By identifying unused or redundant applications, WalkMe Discovery helps organizations reduce costs and mitigate compliance risks as part of their transformation initiatives." Option A (translation automation) and C (automated training development) are functions more aligned with WalkMe Digital Adoption Platform (DAP), not the Discovery module.

"While the WalkMe DAP provides in-app guidance and user training automation, Discovery focuses on discovering and analyzing app usage." Option D (enhancing satisfaction by 50%) is not a defined or measurable objective of the Discovery module; SAP does not claim specific numerical outcomes related to satisfaction.

Therefore, the correct answer - verified from SAP's official transformation documentation and WalkMe integration materials - is B: Identifies underutilized tools and compliance risks.

### NEW QUESTION # 26

What is the primary purpose of WalkMe's Digital Adoption Platform (DAP)?

- A. To automate recruitment processes
- B. To reduce digital friction and guide users through complex software
- C. To implement advanced hardware solutions
- D. To manage payroll systems efficiently

**Answer: B**

Explanation:

The WalkMe Digital Adoption Platform (DAP) is designed to improve the user experience by reducing friction when interacting with digital systems. It provides on-screen guidance, automation, and analytics that help users complete tasks accurately and efficiently.
