

Trustworthy AZ-204 Dumps & Test AZ-204 Study Guide

What's more, part of that PassLeader AZ-204 dumps now are free: https://drive.google.com/open?id=1ySZofFKiEyRvUWjFeLO2_FA1s02vkOg8

The rapid development of information will not infringe on the learning value of our AZ-204 exam questions, because our customers will have the privilege to enjoy the free update for one year. You will receive the renewal of AZ-204 study files through the email. And our AZ-204 study files have three different version can meet your demands. Firstly, PDF version is easy to read and print. Secondly software version does not limit to the number of installed computers, and it simulates the real AZ-204 Actual Test guide, but it can only run on Windows operating system. Thirdly, online version supports for any electronic equipment and also supports offline use at the same time. For the first time, you need to open AZ-204 exam questions in online environment, and then you can use it offline. All in all, helping our candidates to pass the exam successfully is what we always looking for. AZ-204 actual test guide is your best choice.

In order to meet the demand of all customers and protect your machines network security, our company can promise that our AZ-204 study materials have adopted technological and other necessary measures to ensure the security of personal information they collect, and prevent information leaks, damage or loss. In addition, the AZ-204 Study Materials system from our company can help all customers ward off network intrusion and attacks prevent information leakage, protect user machines network security.

Test AZ-204 Study Guide | Valid AZ-204 Test Review

In today's society, our pressure grows as the industry recovers and competition for the best talents increases. By this way the AZ-204 exam is playing an increasingly important role to assess candidates. Considered many of our customers are too busy to study, the AZ-204 real study dumps designed by our company were according to the real exam content, which would help you cope with the AZ-204 Exam with great ease. The masses have sharp eyes, with so many rave reviews and hot sale our customers can clearly see that how excellent our AZ-204 exam questions are. After carefully calculating about the costs and benefits, our AZ-204 prep guide would be the reliable choice for you, for an ascending life.

Microsoft AZ-204 Exam is intended for developers who have a good understanding of Azure platform services and are familiar with developing applications using Microsoft Azure. AZ-204 exam tests a candidate's ability to design and implement solutions that leverage Azure services, including compute, storage, networking, and security. It also tests their ability to develop, deploy, and

manage Azure-based applications.

Most Suitable Candidates

The ideal candidate for AZ-204 test should have some experience with Microsoft Azure as well as 1 to 2 years of development experience. It will also be helpful if you are knowledgeable in APIs, Azure SDKs, PowerShell, Azure CLI, debugging, and app authentication as well as authorization.

Besides, this Azure Developer Associate certification is also appropriate for applicants who take part in all stages of cloud development: defining and designing requirements, maintenance, deployment, as well as monitoring, and performance tuning.

Microsoft Developing Solutions for Microsoft Azure Sample Questions (Q455-Q460):

NEW QUESTION # 455

You develop several Azure Grid to include hundreds of event types, such as billing, inventory, and shipping updates. Events must be sent to a single endpoint for the Azure Functions app to process. The events must be filtered by event type before processing. You must have authorization and authentication control to partition your tenants to receive the event data. You need to configure Azure Event Grid.

Which configuration should you use? To answer, select the appropriate values in the answer area.

NOTE: Each correct selection is worth one point.

Requirement
Third-party system endpoint to send events

Configuration Value
system topic
system topic
custom topic
event domain
event subscription

Requirement
Azure Functions app endpoint to handle filtered events

Configuration Value
event domain
system topic
custom topic
event domain
event subscription

Answer:

Explanation:

Requirement
Third-party system endpoint to send events

Configuration Value
system topic
system topic
custom topic
event domain
event subscription

Requirement
Azure Functions app endpoint to handle filtered events

Configuration Value
event domain
system topic
custom topic
event domain
event subscription

Explanation:

Answer Area

Requirement
Third-party system endpoint to send events

Configuration Value
system topic

Requirement
Azure Functions app endpoint to handle filtered events

Configuration Value
event domain

NEW QUESTION # 456

You are developing an application to store millions of images in Azure blob storage.

The application has the following requirements:

- * Store the Exif (exchangeable image file format) data from the image as blob metadata when the application uploads the image.
- * Retrieve the Exif data from the image while minimizing bandwidth and processing time.
- * Utilizes the REST API.

You need to use the image Exif data as blob metadata in the application.

Which HTTP verbs should you use? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Answer Area

Microsoft

Application Metadata Action	HTTP Verb
Store Exif data.	PUT
	GET
	PUT
	POST
	HEAD
Retrieve Exif data.	HEAD
	PUT
	POST
	HEAD
	CONNECT

Answer:

Explanation:

Answer Area

Microsoft

Application Metadata Action	HTTP Verb
Store Exif data.	PUT
	GET
	PUT
	POST
	HEAD
Retrieve Exif data.	HEAD
	PUT
	POST
	HEAD
	CONNECT

Explanation:

Answer Area

Microsoft

Application Metadata Action	HTTP Verb
Store Exif data.	PUT
Retrieve Exif data.	HEAD

NEW QUESTION # 457

You are developing a web application that makes calls to the Microsoft Graph API. You register the application in the Azure portal and upload a valid X509 certificate.

You create an appsettings.json file containing the certificate name, client identifier for the application, and the tenant identifier of the Azure active Directory (Azure AD). You create a method named ReadCertificate to return the X509 certificate by name.

You need to implement code that acquires a token by using the certificate.

How should you complete the code segment? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

```

AuthenticationConfig config = AuthenticationConfig.ReadFromJsonFile("appsettings.json");
X509Certificate2 certificate = ReadCertificate(config.CertificateName);
var app =
    ConfidentialClientApplicationBuilder
        .GetAccountAsync()
        .GetAccountsAsync()
        .Create(config.ClientId)

        .WithCertificate(certificate)
        .WithAuthority(new Uri(config.Authority))
        .Build();
string[] scopes = new string[] { $"{config.ApiUrl}.default" };
AuthenticationResult result = await app.AcquireTokenForClient(
    scopes
    app
    config
).ExecuteAsync();

```

Answer:

Explanation:

```

AuthenticationConfig config = AuthenticationConfig.ReadFromJsonFile("appsettings.json");
X509Certificate2 certificate = ReadCertificate(config.CertificateName);
var app =
    ConfidentialClientApplicationBuilder
        .GetAccountAsync()
        .GetAccountsAsync()
        .Create(config.ClientId)

        .WithCertificate(certificate)
        .WithAuthority(new Uri(config.Authority))
        .Build();
string[] scopes = new string[] { $"{config.ApiUrl}.default" };
AuthenticationResult result = await app.AcquireTokenForClient(
    scopes
    app
    config
).ExecuteAsync();

```

NEW QUESTION # 458

You develop a gateway solution for a public facing news API. The news API back end is implemented as a RESTful service and hosted in an Azure App Service instance. You need to configure back-end authentication for the API Management service instance. Which target and gateway credential type should you use? To answer, drag the appropriate values to the correct parameters. Each value may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content. NOTE: Each correct selection is worth one point.

Values

Azure Resource

HTTP(s) endpoint

Basic

Client cert

Answer Area

Configuration parameter

Target

Gateway credentials

Value

Answer:

Explanation:

Explanation

Configuration parameter

Target

Gateway credentials

Value

Azure Resource

Client cert

Box 1: Azure Resource

Box 2: Client cert

API Management allows to secure access to the back-end service of an API using client certificates.

NEW QUESTION # 459

You are developing a software solution for an autonomous transportation system. The solution uses large data sets and Azure Batch processing to simulate navigation sets for entire fleets of vehicles.

You need to create compute nodes for the solution on Azure Batch.

What should you do?

- A. In a .NET method, call the method: `BatchClient.PoolOperations.CreatePool`
- B. In Python, implement the class: `TaskAddParameter`
- C. In Python, implement the class: `JobAddParameter`
- D. In the Azure portal, create a Batch account.

Answer: A

Explanation:

Explanation

A Batch job is a logical grouping of one or more tasks. A job includes settings common to the tasks, such as priority and the pool to run tasks on. The app uses the `BatchClient.JobOperations.CreateJob` method to create a job on your pool.

NEW QUESTION # 460

.....

The Developing Solutions for Microsoft Azure (AZ-204) exam questions can help you gain the high-in-demand skills and credentials you need to pursue a rewarding career. To do this you just need to pass the Developing Solutions for Microsoft Azure (AZ-204) certification exam which is not easy to crack. You have to put in some extra effort, and time and prepare thoroughly to pass the Developing Solutions for Microsoft Azure (AZ-204) exam. For the quick, complete, and comprehensive Developing Solutions for Microsoft Azure (AZ-204) exam dumps preparation you can get help from top-notch and easy-to-use AZ-204 Questions.
